## Changes Coming

Like many of ya'll I like to do the same things the same way for as long as possible. It is very comfortable doing things the same way, the same time, etc. Why would anyone want to constantly change things and consistently make mistakes when they can go with the tried and true proven methodology. There are times I am slow to change. There are times I don't want to try something new. I force myself to change things for the better as often as possible. Did you notice the new FFG logo? Have you seen the emotes and emojis on Twitch and Youtube? Those were changes for the better I embraced last year.

There are some things I would like to get to in 2020. I do not know if the funding will come in or not. I want to get a backdrop for on camera videos with our two logos on it. Like you see at press conferences for sports teams. I think that would be pretty cool. I want to get some more outline work done on my next Future Glimpses work. I understand my free time and acknowledge getting much work done on that book this year may be a pipe dream. I want to get some work done on some projects to improve old Preview, Review, and Image pages. I want to get more streaming done on Youtube. I want to roll out changes to our Youtube channel like releasing less videos per week. That involves getting caught up in the backlog that currently sits at three months. Which was as high as five months at one point in time. We have a plan in place to get that lag down. In fact we have been working on that plan for quite a few months starting back in 2019.

There is software I want to upgrade in 2020. We have used Adobe InDesign for many years. I am not happy with their pay monthly model for the current version of the software. I remember Quark had a pay one time option available last year. I am seriously looking at moving over to Quark at some point. That may mean a complete redesign from the top. Which was just done for issue #150. Those take a lot of time and a lot of effort. Lord willing I can find the time to make that improvement this year. I recently realized we need to upgrade the camera we use for the FFG Family Show, and all of the FFG Original videos we have up on

Youtube.

We saw great gains into more revenue coming into Family Friendly Gaming last year. I want to continue that in 2020. We saw growth in sponsored videos, and I would love for that to continue as well. I would love to see growth in book sales, donations, and paid memberships. Now we need to find the path to get there. Good things keep happening and we keep improving. No matter how uncomfortable it is. I love seeing how many things keep getting better and better here with Family Friendly Gaming.

God bless,  
Paul Bury

## Even more Football

I don't like football. I don't like the NFL. I am so happy when the Super Bowl is finished because it means football is finished for quite a few months. Then this XFL thing came back. It is lame we don't have a Memphis team again. After all the Memphis Maniax were pretty cool. Let us be honest though Memphis will not support a professional, or semi-professional football team. They barely support the Memphis Grizzlies. There have been attempts in Memphis before and they all failed. Historically speaking Memphis is too small, and too poor to support high priced sporting events.

The XFL coming back is one thing. Having more football is another thing. What makes it bad for me is the XFL is taking off. People are loving this new football league. More football will be here for years to come most likely. I know Vince McMahon has a plan for two years at least. He has the money and has the league completely funded for two years at a minimum. The XFL has great television deals across multiple networks. Everything I am hearing from others is that the XFL has some really good football going on too. The NFL is supposed to be pulling for the XFL and looking at them as a developmental league for them. The NFL might find some great talent out of the XFL.

Paul purchased a T-shirt for the Seattle Dragons, and is considering purchasing a T-shirt for another team in the XFL. If you watch his Twitch and Youtube streams you might have seen him wear that shirt from time to time. He is into the league and my youngest son is as well. They both tell me all of these new and interesting rules they have in the XFL. As the season for the XFL progresses I expect the teams are going to get even better. Which is really scary. What kind of a draft will they have next year? How many XFL players will go on to the NFL? This new XFL will lower and limit the amount of off time we have for football. I am a bit bummed about that. I love having no football on. I love not hearing about this team and that team. I love not hearing about some awesome play run by some people I have never heard of, do not want to hear about, and could care less about. The XFL has given me more moments that

I do not want.

Are you a wife or girlfriend who is not happy about the XFL? Are you displeased that it is doing well? Did you hope it would fail and flop like before? Are in the same boat I am in? I have let my feelings on the topic be known. I have given you a diverse viewpoint from what so many are saying on social media. I will admit the colors of the teams are pretty cool, and those kick offs are very different looking. The XFL season has to end at some point too.

God bless,  
Yolanda Bury

# MISSION STATEMENT

Family Friendly Gaming (FFG) was created in March of the year of our Lord 2005 as the first ever Christian video game magazine. The goal of Family Friendly Gaming is to report on video games from the family view point. Family Friendly Gaming takes a fair and balanced approach to all news, previews, reviews, interviews, features, and other articles found within. The secular video game media reports mainly on the most morally bankrupt games and call those games good. The major secular media reports on the bad side of video games mainly. Most other Christian media outlets claim video games turn the player into a zombie, or they completely worship video games. Family Friendly Gaming reports the good, and bad side effects to video games. It is the belief of the owners that readers are smart enough to come to their conclusions without those in the media handing opinions to them. Those of us at Family Friendly Gaming believe by giving you the facts, you can decide for yourself. There are plenty of really good video games on the market that teach wonderful lessons. Both inside the Christian video game market, and from non-Christian video game developers. Family Friendly Gaming seeks out these video games to bring them to your attention. Since it is unknown before playing a game how family friendly it is; it is possible that this magazine will preview a game, and then the review will expose problems previously unknown. Family Friendly Gaming promises to always ask the question: "how God feels about certain video games." God's opinion on the matter is more important than any mere mortal. Which is why the rest of the industry does not influence FFG.

## Sing us a Song on the Piano Man

Dear Mr. Bury,

I have learned that there are portable electronic pianos that have keys that light up. With that knowledge, I think that would enable the development of a unique type of computer game.

Most people who play the piano on a regular basis practice the exact same song again and again and again. This game would make the process of playing the piano more interesting by randomly selecting a song for you to play. For beginners, the keys

would light up. If you correctly identify the song by saying it out loud, you get bonus points. The earlier you identify the song, the more points you get. If you fail to identify the name of the song, you would learn the name at the end. Each time you play, you get a percentage score.

At the intermediate level, the game would randomly select a sheet of music for you to read and play. The advanced level would involve merely being given the title of a song and you would be expected to play it correctly. Last but not least, leaderboards would keep track of users who could play each song perfectly in the shortest amount of time.

Could this game be made better? Yes, it could. If you do well enough, you would be invited to virtually perform your own unique song at Carnegie Hall or another prestigious location. First, you would customize your character's body and wardrobe. To simulate stage fright/nervousness, you would have to race to the venue. When you finish the song, not only would you hear applause (or possibly boos), but you would see your character in a magazine, a news-

paper, or even a television news broadcast. Artificial intelligence would evaluate the mood and overall quality of the song you create.

Please let me know what you think of this idea. Have a wonderful day, and God Bless You.

Sincerely,

David

{Paul}: David,

I love the idea. That would be really cool. The company doing the game would have to pay the copyright owners of the songs to include them. Some of those music companies are obnoxious to work with.

There have been a few piano games in the video game industry over the years. Easy Piano on the Nintendo DS, and Piano Teacher on the Wii U come to mind. We have played the Wii U game, and just recently added that Nintendo DS video game to our video game wanted list. When we get the money we will try and purchase it.

There certainly is room in the video industry for a newer and

better piano based video game. It might work really well on the Nintendo Switch for example.

## Read Between The Lines

Hello,  
I am still having a difficult time deciding if a game is okay from your reviews. We have an Xbox One that we can make backward compatible with 360.

I am specifically trying to avoid dark spirituality, sexuality (hetero and homo), and extreme violence. Can you help me `read between the lines` of your reviews? If you reviewed it, does it mean it is generally safe?

Wish you listed specific objections. I have used Pluggedin and Christcenteredgame. Any other sites?

Thanks, In Christ,  
Overwhelmed Mom

{Teen Gamer}: Overwhelmed Mom,

Just because we have reviewed it does not mean it is safe by our definition. The scoring is very

important.

Anything below a 70 we consider a failure. Products between 70 and 80 have some issues, and some redeeming qualities as well. When we get into the 80 to 90 we are impressed with these products. They may have an issue or two here and there. Generally much better.

Now when we get 90-94 we are talking pretty good products usually. Products with a 95 to 100 are usually getting our seal of approval. We recommend these products. Here are all the products with our seal of approval <http://www.familyfriendlygaming.com/Reviews/2020/Shantae%20Half-Genie%20Hero%20Ultimate%20Edition.html>

Our fun page shows the various ministries we have partnered with: <http://www.familyfriendlygaming.com/Fun.html>

Clash Entertainment is cool. They use our game reviews, but they use someone else for movies and books. There is Game-church but they don't do much in terms of focusing on the spiritually damaging content. For the last (7 years maybe) we

have done a Christmas Buying Guide with products we recommend. Here is the one from last year <http://www.familyfriendlygaming.com/Magazine/FFG-Christmas%20Buying%20Guide%202019.html>

Could you please provide a specific example of specific objections so we can improve? For example this review: <http://www.familyfriendlygaming.com/Reviews/2020/Shantae%20Half-Genie%20Hero%20Ultimate%20Edition.html>

Has this paragraph: "The issues in this thirteen and older only video game are violence, lack of attire, enticement to lust, sexual dances and more. The characters in this world are on the edge of the cliff at times in terms of morals and ethics. Shantae Half-Genie Hero Ultimate Edition is a challenging 2D side scrolling video game. The main character uses her hair to attack enemies."

Also pay attention to the age ratings. The ESRB is usually very lenient. So if they say thirteen and older only ("T") you might want to look at the descriptors to see all of the problems they list.

# SOUND OFF Continued

They miss quite a few which is something a lot of our reviews have pointed out.

## Teach Me

Greetings FamilyFriendlyGaming,

I use your Zumba Burn It Up videos in my classroom to teach my students how to get exercise. I appreciate that you posted them on Youtube. I am also able to expose my students to diversity of culture they would not normally see. FamilyFriendlyGaming is doing the educational

system a wonderful service. Thank you!!

- Tammy

{Paul}: Tammy,

You are so very welcome for that service. We spent a lot of time and money recording and publishing those videos. We love Zumba ourselves. We have made Zumba so much money over the years. Our videos has created instructors, sent thousands to Zumba classes, and given them all kinds of wonderful exposure for even more potential students. It is great to hear that your class

is getting exposed to some culture thanks to Family Friendly Gaming.

## Atonement

When I was younger society would talk about how to make atonement for our sins. Whether the sins were from a person, leader, or the society as a whole. Whatever happened to that? **Exodus 29:36** *Sacrifice a bull each day as a sin offering to make atonement. Purify the altar by making atonement for it, and anoint it to consecrate it.* There must be some sacrifice for atonement at least in the Old Testament. In this day and age there is all this talk of being positive, and focus on that only. We are all humans and prone to make mistakes.

Moses understood atonement. Moses understood it all too well. He fought for a stiff-necked and rebellious people. **Exodus 32:30** *The next day Moses said to the people, "You have committed a great sin. But now I will go up to the Lord; perhaps I can make atonement for your sin."* How often do you go to God to ask for forgiveness from what others in the culture are doing? It makes it even worse when the people who are sinning want that to be celebrated. Talk about tempting God's wrath and judgement.

I see some people being hateful, mean, nasty, vile, and wicked toward leaders God has allowed into power. Are they offering any atonement for the leaders? **Leviticus 4:26** *He shall burn all the fat on the altar as he burned the fat of the fellowship offering. In this way the priest will make atonement for the leader's sin, and he will be forgiven.* We are not told the leader must ask us to do this. We can atone for a leader we disagree with. I did this numerous times for all of the horrible things certain past leaders did. I prayed for them to turn to God, and have a heart for the Kingdom of God. I also prayed that God would not punish us for their evil words, deeds, and open rebellion against God.

We no longer sacrifice animals thanks to Jesus Christ. **Romans 3:25-26** *God presented Christ as a sacrifice of atonement, through the shedding of his blood—to be received by faith. He did this to demonstrate his righteousness, because in his forbearance he had left the sins committed beforehand unpunished— 26 he did it to demonstrate his righteousness at the present time, so as to be just and the one who justifies those who have faith in Jesus.* We now are thankful for what Christ did for us. How do

we each respond to that gift?

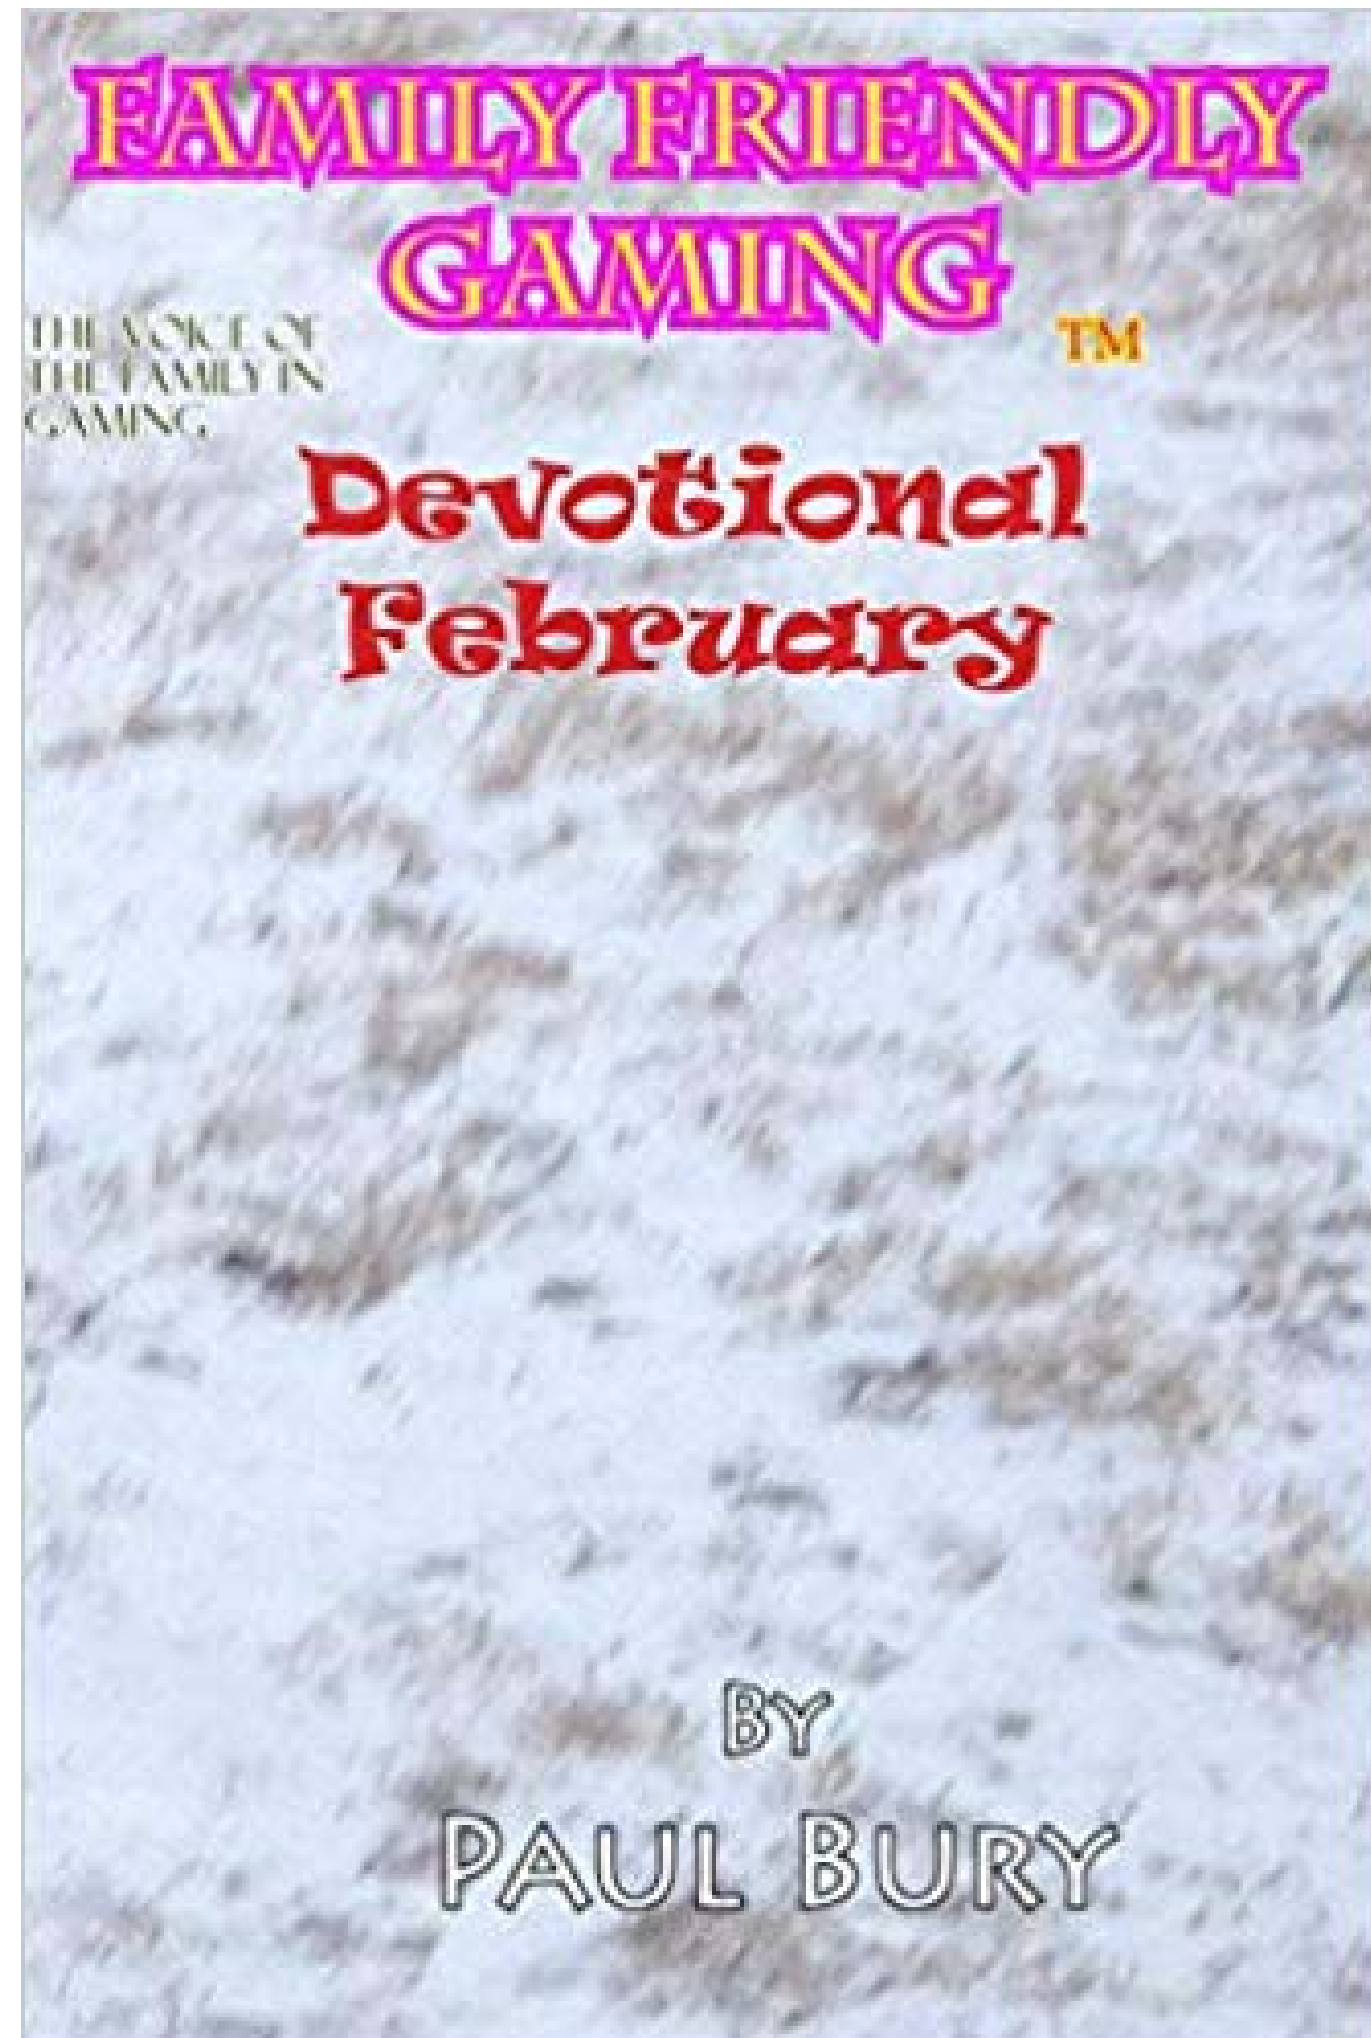

The sacrifice from Jesus for us is an awesome act indeed. **Hebrews 2:17** *For this reason he had to be made like them, fully human in every way, in order that he might become a merciful and faithful high priest in service to God, and that he might make atonement for the sins of the people.* Jesus understands what we go through on a daily basis. That warms my heart when dealing with stiff-necked, rebellious people celebrating rebellion against God.

God Bless,  
Paul Bury

## PRAYER

Jesus,

I know that I am a sinner and need Your forgiveness. Nothing I can do of my own power will give me true joy. I believe that You died for my sins. I want to turn from my enslavement to sins, and repent of them. I now invite You to come into my heart and life. I want to trust and follow You as my personal Lord and Savior. I welcome the transforming power of the Holy Spirit. Amen.

### Snooker 19 Challenge Pack DLC Out Now

Ripstone Games, in collaboration with World Snooker and Lab42, are bringing a brand new experience to Snooker 19, with the release of Challenge Pack DLC for Nintendo Switch. The DLC is available to purchase for £6.49 / €7.99 / \$7.99.

The Challenge Pack DLC invites everyone to take their best shot and become a better player in a brand new game mode for Snooker 19, adding hours of additional gameplay opportunities. Featuring 50 unique chal-

lenges to test skills across positioning, break building, escapes, trick-shot potting puzzles and more, this is the ultimate challenge for any snooker fan.

Challenges are split across two classes; Basic Skills and Advanced Skills, and can be played using a selection of different Aiming Aid difficulties to cater for varying levels of player ability. Master every event and complete all challenge requirements to unlock 26 stylish snooker cue rewards that are exclusive to the DLC pack. Players can choose from this selection of bespoke cues for use in online matches and tournaments, to demonstrate

that they are a master of the sport.

As the official World Snooker video game, Snooker 19 features 128 of the world's top snooker players including Ronnie O'Sullivan, Judd Trump and Ding Junhui as they take to the table at iconic venues across the world. The Challenge Pack DLC adds further depth to this experience with a focus on providing training tools to assist players of Snooker 19 to improve their play-style, whilst at the same time adding new skills to their repertoire. The recent addition of a Practice Table, coupled with the Basic and Advanced Skill challenges, creates a solid foundation for any player looking to improve their game.

"Since the launch of Snooker 19 earlier this year we have been blown away by the support of the snooker com-

munity," said Hollie Pattison of Ripstone.

"Their desire to continue improving their skillset within the game has inspired us to keep finding new ways to deliver on our promise of making the ultimate snooker simulation, and the release of the Challenge Pack takes this one step further. Everyone loves a trick shot and as big snooker fans ourselves, we can't wait to share the challenge with our players."

Leveraging the visual feature set of Unreal Engine 4, Snooker 19 sets a new visual standard for snooker video games. Lab42 have created a custom advanced physics engine, designed from the ground up to deliver the most true to life snooker experience to date.

**TT2 Isle of Man Partners with Top Notch Riders**

As a new year begins, KT Racing returns with the sequel to the widely acclaimed TT Isle of Man. To provide players with the most realistic simulation possible, the studio turned to one of the best up-and-coming riders, Davey Todd, and the fastest French rider on the Isle of Man circuit, Julien Toniutti.

Davey Todd is a young English rider who specialises in road racing and already has an impressive trophy haul at only 23 years old. In 2018, while preparing for his first Isle of Man TT, Davey decided to practise on his brother's console for two months so he could perfect his knowledge of the iconic 60km circuit. As a result, he was ranked 2nd in the game's worldwide leaderboards and became the second fastest newcomer of all time in the real race. In 2019 he proved his riding talents in his second appearance at the TT by finishing in the top 8 in all categories and achieving 6th place in the Senior Race.

2020 represents a new year full of ambition for Davey, who is also the TT Isle of Man - Ride on the Edge 2 ambassador and the face of the game.

Like Davey Todd, Julien Toniutti collaborated on the game's production by sharing his experience and impressions with the developers to help them create a strikingly realistic simulation and optimise all aspects of the riding physics.

"Competing in the TT is the ultimate dream of any rider. In TT Isle Of Man - Ride on The Edge 2, the aim is to reproduce the sensation of speed and adrenalin, as well as the concentration and control required for any Tourist Trophy rider, while the player sits comfortably in their chair, risk free," said Julien.

Julien Toniutti is an experienced rider who has taken part in the TT three times. In 2018 he beat the all-time fastest lap record for a French rider on the Isle of Man circuit and subsequently received the "Fastest French Road Racing Rider" award at the Paris Motorcycle Show.

Created in 1907, the TT is the world's most famous motorcycle race. The 61km course with 260 bends is the most iconic circuit for road-racing riders. With officially licensed riders, bikes and tracks, TT Isle of Man - Ride on the Edge 2 boasts new physics and a new career mode for players to improve their riding skills.

### Free Fire Champions Cup and Free Fire World Series announced

Free Fire, the world's most popular mobile battle royale game, has lined up its major esports tournaments and milestones for the year ahead, creating even more opportunities for its global community of gamers to get involved. Building on a successful 2019, Free Fire will host up to 4 international esports tournaments for 2020, with up to \$2M in total prize pool up for grabs.

Southeast Asia to host Free Fire's first global tournament of 2020

The first international tournament of the new year for Free Fire - the Free Fire Champions Cup 2020 - will be hosted in Jakarta, Indonesia on April, 19 2020. Qualifiers for the Free Fire Champions Cup 2020 have already begun, where the top 12 teams from 9 regions will emerge from local and regional qualifiers. This marks the return of the global tournament to Southeast Asia, where the first-ever global tournament for Free Fire was held - Free Fire World Cup 2019 in Bangkok, Thailand.

The Free Fire World Cup 2019 saw our first global champion - Team Evos Capital from Indonesia - being crowned. During their impressive showing, Free Fire World Cup reached over 1 million peak concurrent views on YouTube, which was then the largest simultaneous online crowd for an esports event on the platform, according to Esports Charts.

### Free Fire World Series 2020 returns to Brazil after record-breaking 2019

The Free Fire World Series (FFWS) will continue for its second edition in November 2020, with the finals being played in Brazil once more. The reception for 2019's World Series was one of Free Fire's highlights of 2019 - the finals of FFWS 2019 had over 2 million peak concurrent viewers online, which is a world record high for a mobile esports tournament, according to Esports Charts. In total, 2019's World Series racked up over 130 million online views around the world.

At the most recent Free Fire World Series 2019, Team Corinthians from Brazil became the first Free Fire team to win a global tournament on home soil - will that home court advantage happen for the second year running?

Free Fire World Series 2019 attracted more than 2 million peak concurrent views online, which is a world record high for a mobile esports tournament, according to Esports Charts. In total, the World Series racked up over 100 million online views around the world.

The biggest Free Fire event of the year, the World Series tournament, brought together 12 teams who earned the number one seed from regional leagues to compete for a total prize pool of \$400,000. Brazil's top DJ and record producer Alok, Brazilian star Mano Brown & MC Jottapê opened the event with an exclusive performance. As Free Fire's first resident DJ, Alok performed his recently released Vale Vale.

### Lode Runner Legacy Available Now on PlayStation 4

Lode Runner Legacy, the latest edition of the cult classic Lode Runner series, is now available worldwide on the PlayStation®4 console at the PlayStation® Store. Returning to the PlayStation platform for the first time since 1994, the game is available at 20% off the regular price of \$11.99 at the North American PlayStation Store through February 11, 2020.

Cubed3 called Lode Runner Legacy, "the original game at its best, with added levels, a retro-friendly voxel art style that fits like a glove, and a level editor that raises the replay value sky high," while Video Chums commented, "[s]imply put, Lode Runner Legacy is a retro remake done right. The fact that it contains so much content while remaining true to the original game makes it a must-have experience for any gamer who's thirsty for old-school fun."

In Lode Runner Legacy, players control the Runner, solving puzzles to regain stolen gold from the Evil Empire's labyrinth. Each puzzle is a unique challenge to the player's puzzle-solving and strategic techniques. In Two-Player mode teammates must work together to defeat

each level, and their cooperation is rewarded handsomely with prizes impossible for a single player to capture. The Two-Player mode also has online rankings, so play in perfect harmony and aim for the highest score in order to make it onto the board!

Additionally, players can flex their creative muscles in Lode Runner Legacy's most unique feature: Craft Mode. Players can create original levels, characters, and items, which can then be shared online with players around the world. Share your original levels and characters or play other players' levels in World Levels mode, and "Like" the best ones!

Lode Runner Legacy includes countless features and game modes for players to explore. Players can regain stolen gold from the Evil Empire in Adventure Mode, or play enemy-free puzzle levels in Puzzle Mode. Additionally, Lode Runner Legacy comes equipped with 150 of the original Lode Runner levels in Classic Mode, as well as several hidden levels for players to uncover. All in all, there are 300 levels for players to beat as well as any new levels posted online, providing players with limitless hours of entertainment.

First released in 1983, Lode Runner's frantic and addictive gameplay has entertained generations of players, and Lode Runner Legacy updates the classic game for current systems while maintaining the spirit of the original.

### Starbase New Features Revealed

Frozenbyte has released an data for the upcoming space MMO Starbase, showcasing the look and features coming to the game in 2020! The massive new reveal is the possibility for players to colonize moons and planets, where small outposts and early trading routes can eventually turn into huge cities with thriving societies. Players can land anywhere with no loading screens, walk around the big cityscapes and interact with other pioneers - explore the new world! Reaching even the closest moon, however, will require a massive joint effort and ingenuity from players. It will be the first major community objective.

Frozenbyte CEO Lauri Hyvärinen comments on the future: "There's a ton of things we've been working on and this trailer showcases

the planets and moons. We've also been stress testing massive fleet simulations and how well our tech holds up with thousands of ships in play, and we'll release a making-of video of the massive fleet next week!"

Frozenbyte also announces collaboration with Kowloon Nights, an investment fund supporting exceptional independent game developers globally. "We are excited to partner with Kowloon Nights for Starbase," continued Lauri Hyvärinen. "With their support we'll be able to focus on our vision for Starbase without making any compromises. We both know that we have something special in our hands and can't wait to unleash the full potential of the game."

#### About Starbase

Starbase is a massively multiplayer online space game with gameplay focused on build-

ing and designing spaceships and stations, exploration, resource gathering, crafting,

trading, and combat. Coming to Steam Early Access in 2020.

### NEVER AGAIN? Documentary

From Pittsburgh to Poway anti-Semitism is increasing in both prevalence and vio-

lence in the U.S. and around the world. But the nation's largest pro-Israel organization - Christians United for Israel - is fighting back and has produced NEVER AGAIN?, a cutting-edge, feature-length documentary to expose and combat increasing violence and bigotry.

NEVER AGAIN? premieres in 800 theaters nationwide

for two nights only Oct. 13 and 14 at 7 p.m., local time. The documentary is distributed through Fathom Events.

"Violent anti-Semitism is rising across the country, and people of conscience cannot sit idly by," said CUFI founder and Chairman Pastor John Hagee. "Anti-Semites have used the fertile ground of ignorance to grow their malicious ideology. If we are to stem the tide, we must inoculate the next generation against the world's oldest hatred by empowering them with knowledge and reaching them with a message of unity. If we are to fulfill the promise of Never Again, we cannot allow the memory of the Holocaust to fade."

The film from the 8-million member CUFI could not be more timely. Just this month, 200 survivors of the infamous Auschwitz Nazi extermination camp gathered for Holocaust Remembrance Day. At almost the same time, Pew Research showed 45 percent of Americans did not know 6 million Jews died in the Holocaust.

"Viewers of the film will be guided by a Holocaust Survivor and a former radical Islamist," said Producer Rick Eldridge, CEO of ReelWorks Studios. "They will learn about the history of anti-Semitism and come to understand why all of us, regardless of faith or political persuasion, have a responsibility to keep the promise of Never Again."

NEVER AGAIN? will engage contemporary audiences with the horrific events of 75 years ago and demonstrate why they must be understood and remembered by the coming generation.

"This is not your parents' documentary," said CUFI co-executive director Shari Dollinger. "It meets the audience where they are, engaging them in a modern and cutting-edge manner. If we're not to see history repeat itself, we must ensure the next generation learns the lessons of the past."

# WE WOULD PLAY THAT!

There are all kinds of cool family friendly video game ideas out there. This column features ideas of video games we would play. We hope games like these are created in the near future. Can you make it happen?

There are too many video games in the industry that regurgitate the extreme radical zealot fanatical warped viewpoint of the political left. The video game industry needs some balance. The video game industry needs to be fair. The video game industry needs to take away half of that and give us some conservative ideas in video games.

The video game industry has a horrible image and a bad name. Adding some fairness and moving toward balance would help the image of the video game industry.

There are a lot of people who see video games are completely and totally evil. The more radicalized video games become on the far left the worse that image will become. The video game industry needs some conservative games to start to move us toward balance.

It will take decades of conservative games to get us even close to fairness, and balance. This will take a very long time, and there are probably going to be haters on the side that claims to celebrate diversity. They should celebrate conservatives, Christians, and those of us that obey God.

It would be awesome to see video games that encourage players to work hard, and enjoy the spoils of their hard work. There should be video games that encourage us to drill for oil and become energy

independent as a nation. There needs to be video games that address the bloated government and massive overtaxation. There needs to be video games that show how horrible over-regulation is to the people. There should be video games that show the reality of the evils of socialism. We need video games that teach all gamers good, true, honest, and great lessons from conservatism.

Do you think this month's column is a long shot? Will extremely radical far leftist companies actually admit their horrible bias? Will they agree to start to be fair and balanced? Will they stop being so divisive? Can they open their minds and stop being closed minded bigots? Would you play a game that showed the good of the right, and evils of the left? Would your fellow gamers?

# REVIEWS

Welcome to our reviews section. We have a couple of rules when it comes to our reviews. The reviewer must give an honest accounting as to why he/she liked or disliked something. No fanboy reviews allowed here, or at the very least they are discouraged (after all everyone has their own personal biases, likes, and dislikes). Everyone also has different tolerances, and weaknesses - we strive to keep that in mind in our reviews. We have been burned ourselves by reviews saying a certain game is great, only to be greatly offended by that game. Reviewers must be kind in their reviews. A game may be horrible, but there is no need to degrade the developer, publisher, artists, etc. There is also no need for name calling.

We review video games on five separate criteria: graphics, sound, replay/extras, gameplay, and family friendly factor. Review scale can be found here. The editor in chief coordinates reviews to have as much cohesion as possible. We are very open about the way we review video games. Each section starts with a 75 score, and can earn or lose points based on the content of the game, using our grading scale (found on the website).

Parents, please do not take any of our reviews as gospel. Different people are offended by different things. We work hard here at Family Friendly Gaming to discern the good from the bad in the teachings of each different video game. What may seem harmless to our reviewer(s), could be a big deal to you. We encourage you to spend time with your children and investigate each video game yourself. Each review is written with you in mind, and we try to mention each problem we find. We are not perfect, and miss things from time to time - just as the ESRB does. The ESRB rating is merely a start, and since they ignore many of the moral and spiritual factors important to parents all across America, we do our small part to fill that huge void. We are a small ministry and your prayers are so very important to us.

## 1 Samuel 15:22

But Samuel replied:

“Does the Lord delight in burnt offerings and sacrifices as much as in obeying the Lord?  
To obey is better than sacrifice,  
and to heed is better than the fat of rams.”

# Etrian Odyssey

SCORE: 61

How much of a video game historian are you? With all of the video game corruption, and lack of morals, ethics, and integrity I am thankful Family Friendly Gaming purchased a copy of Etrian Odyssey on the Nintendo DS. It is so eye opening to see where a franchise began. Etrian Odyssey helped me respect where the franchise has made improvements over the years.

Etrian Odyssey is a first person dungeon crawler that is slow. Expect to grind constantly in Etrian Odyssey. Not just for levels either. Etrian Odyssey will require the player to grind for resources as well. Kill monsters to get items. Sell those items for better armor and weapons to be created. The expensive prices for weapons and armor will require more

grinding. Players must make their own maps of the levels with the limited in game tools. Etrian Odyssey looks okay and it sounds okay for a Nintendo DS hand held video game. There are characters not wearing a lot in Etrian Odyssey. The issues in Etrian Odyssey are blood, violence, lack of attire, enticement to lust. There are gaia beliefs in Etrian Odyssey. It takes time to get there and many gamers will give up on this game. Etrian Odyssey is challenging.

If you feel like committing all of the time

to Etrian Odyssey then you will get your moneys worth. The controls in Etrian Odyssey are so frustrating. What exasperates this is I know how things were improved in future games. Say you want to assign a skill point after a level up in Etrian Odyssey. You can only do one character at a time. Then go back to the menu to select the next character. Etrian Odyssey is one of the better games in the franchise in terms of offensive content. We create our characters, and adventure with our

team. There are all kinds of cool missions to complete that reward our characters in ways that lessens the grinding. Always keep some money around for sleeping at the inn. Otherwise you will have to pay for a character to be resurrected.

# American Ninja Warrior Challenge

SCORE: 50

You know your game must really stink when you do not even put your company name on the front cover. What am I talking about? This is what happened with American Ninja Warrior Challenge on the Nintendo Switch, Playstation 4 (PS4), and Xbox One. I am thankful Family Friendly Gaming purchased American Ninja Warrior Challenge on the Nintendo Switch. Whatever we paid was too much money. We should have been paid to play this messed up video game version of a television show.

I cannot wait any longer to get to the biggest problem with American Ninja Warrior Challenge. The controls are hit and miss. Imagine a quick time event video game where you press the button and the game

does not register it. That is what happens with American Ninja Warrior Challenge. If that were not bad enough we lose stamina when we do anything. The last piece of this puzzle means failure. What is that piece? The events are timed.

The only way I was able to complete anything in American Ninja Warrior Challenge was to put it on the kids mode easiest setting. Otherwise I was not able to complete anything. We can only fail three times in American Ninja Warrior Challenge too. The control input not being recognized killed my chances over and over again. This made career mode unbearable. Why? We need to complete events to get money to train.

The music in American Ninja Warrior Challenge is good. There is a lack of attire issue and enticement to lust in American Ninja Warrior Challenge. The front cover of the game

should denote that for anyone paying attention. We can play male or female characters. There is an okay amount of character customization. Players can only be in the career mode for five seasons before the game retires you.

I wanted to like American Ninja Warrior Challenge so much. To me American Ninja Warrior Challenge feels like a poorly executed cash grab. There is unlockable content if you can earn the in game credit to purchase them. I suffered through American Ninja Warrior Challenge so you do not have to. If you don't believe me then purchase this game and let the frustration games begin.

## Super Monkey Ball Banana Blitz HD

SCORE: 90

I am very thankful Family Friendly Gaming had enough money to be able to purchase Super Monkey Ball Banana Blitz HD on the Nintendo Switch. This home console video game is also available on the PC, PS4, and Xbox One. Super Monkey Ball Banana Blitz HD includes the Main Game, Party Games, Online Rankings, Time Attack, Decathlon, and Options. A lot of content for families.

The party games within Super Monkey Ball Banana Blitz HD are Seesaw Ball, Space Monkey Attack, Sling-shot, Dangerous Route, Hurdle Race, Hammer Throw, Hovercraft Race, Monkey Snowboard, Monkey Target, and Whack A Mole. In the Main

Game there are eight worlds with ten stages per world. The final stage is a boss battle. Players can expect to collect a lot of bananas in Super Monkey Ball Banana Blitz HD.

I remember the Wii game fondly. I am pleased to see Super Monkey Ball Banana Blitz HD released across multiple platforms. Super Monkey Ball Banana Blitz HD looks good, and it sounds good. There is violent content, and some sexual content. Most of Super Monkey Ball Banana Blitz HD controls well. There are some party games in Super Monkey Ball Banana Blitz HD that are a pain to control.

The rating in Super Monkey Ball Banana Blitz HD changed for the better. I am pleased to see Super Monkey Ball Banana Blitz HD moved from an 'E' rating to an

'E10+' rating. I also noticed an additional descriptor which definitely fits the content of this game. This is the first time I can remember the ESRB getting something right with the ratings. Maybe there is one person there that cares.

If you played the Wii version of Super Monkey Ball Banana Blitz then most of Super Monkey Ball Banana Blitz HD will feel similar. That is okay because this was a solid title back in the day. I love how we can get moving really good in the hamster balls with those monkeys. Sonic the Hedgehog is also a playable character in Super Monkey Ball Banana Blitz HD.

# Just Dance 2020

## SCORE: 74

I am very thankful Family Friendly Gaming had enough money to purchase a copy of Just Dance 2020 on the Xbox One. This exercise video game is also on the Nintendo Switch, Playstation 4, and Wii. I still believe the Kinect sensor is the best way to play Just Dance video games. This dance game can also be played with compatible smartphones. If you want to pay more money per month then you can get even more songs through Just Dance Unlimited.

There are very few stand out songs in Just Dance 2020. I do like High Hopes but All Star Mode had to be played to unlock it. The Kids section of Just Dance 2020 is really small. Just ten songs this year. Keep in Touch is one of the two memorable songs for me in Just Dance 2020. There is highly divisive, and greatly offensive song in Just Dance 2020 that will bother a great many families.

Our very loyal Youtube subscribers really love the Just Dance videos we do. This is one of the reasons I did not mind the PR and Marketing folks failing us so badly again this year. I know we are providing for a plethora of families all over the world. I also know that schools use the Kids songs from the Just Dance games in PE classes. I love being able to help so many people with our videos.

The Frozen II song is interesting but not as cool as Let It Go. There are a variety of interesting visual effects used in Just Dance 2020. Just Dance 2020 is on way less systems this year. Is this franchise losing steam? The dance floor is neat still if you like dancing against some of the best in the world. I feel like Ubisoft did not put as much effort into Just Dance 2020. Especially considering Just Dance Unlimited is mainly songs from past years. - Paul

# VIDEO GAME LIES

# Moss

SCORE: 85

Time after time the worldly gaming media outlets obsess over some video game, and once we play it we find all kinds of problems. This is one of the reasons gamers have lost so much trust in so many gaming media outlets, and why complaints of corruption continue to fester and boil over. Every so often I run across a game that does match the hype. That is the case with Moss on the PS4 VR.

Moss drew me in and did not let me go. This virtual reality game can be beaten in under three hours. Expect a lot of puzzles in Moss. The player controls interactions with the area and the little mouse. We move the mouse around, hack and slash with weapons, jump, climb, and more. Most of the interactions from the player (aka reader) consists of using

their blue orb to move certain objects around the screen.

Moss is way more fun than I ever expected. This fantasy world with fantastic creatures caught my eye and ear immediately. I felt like I was deeply involved in this game. I wish Moss was a bit longer. Moss reminds me of Astro Bots Rescue Mission in some regards. What regards? This is an action adventure puzzle platformer that shows what a VR video game can be.

If you have the PS4 VR and are looking for a fun video game then I suggest Moss. Moving from the book to the levels is a wonderful translation. Want to get back to a level faster? Start turning pages and skip the story telling. Want to enjoy this game then spend more time in the levels. It was a pleasure to play and review Moss on the PS4 VR.

# NHL 20

SCORE: 71

The NHL 20 game Teen Gamer and I had on Twitch was the most amazing hockey game we have ever had. That game was epic. For the first time in quite a few years I actually enjoyed playing a brand new hockey video game. The NHL series has finally been climbing out of the hole they dug themselves into. This is awesome to see. I still would like to see someone challenge EA Sports' monopoly.

The modes in NHL 20 are Hockey Ultimate Team (HUT), Squad Battles, HUT Challenges, HUT Competitive Teams, HUT Seasons, Draft Champions, Chel Champions, Ones, and Threes. The broadcasters sound better, and even give a few nods to the players

here and there. NHL 20 feels faster to me.

Thankfully there are multiple different control schemes in NHL 20. I prefer the old school way of doing things be pressing buttons. Thankfully NHL 20 allows that still. There is still stick controls in NHL 20. I actually enjoyed playing NHL 20. Maybe our amazing game had something to do with that. Maybe the viewers and feedback on Twitch.

The signature shots in NHL 20 are pretty cool. There is still fighting in NHL 20. Certain buttons must be pressed to engage in a fight. That is the main violent content found

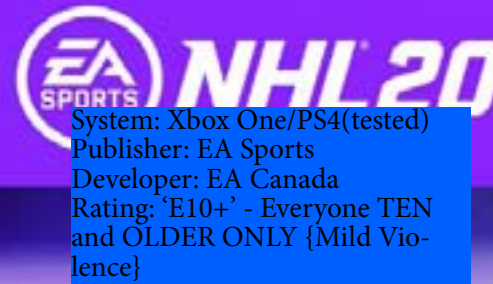

within NHL 20. The graphics are tiny until we get into the replays. Why can't we have that view in the game? What about a first person view?

The music in NHL 20 can be

turned off so your family does not need to hear any offensive lyrics, and opinions. The fans feel real in these stadiums. It can be difficult to score goals in NHL 20. Those goalies can stop that puck with ease at times. They will also hold it in place of turning it over to the other team right in front of them.

NHL 20 is a solid hockey game worth twenty dollars in my professional opinion. There are enough modes for families to enjoy and play together. There are also online modes in NHL 20. I did not mess with any of them personally. Hockey is not my thing. NHL 20 is not so great that it gets me more interested in hockey. - Paul

# Nascar Heat 4

SCORE: 67

I am so thankful Family Friendly Gaming had enough money to purchase Nascar Heat 4 on the Xbox One. This racing video game can also be found on the Playstation 4 (PS4), and Personal Computer (PC). We can race a variety of different characters in Nascar Heat 4. We can race different tracks, and vehicles as well. I did feel the content was a bit limited personally. Maybe that is just me.

The modes in Nascar Heat 4 are Challenges, Start My Career, Online, Championship, Quick Race, Split Screen, My Driver, My Cars, Options, Store, News Center. We can race Nascar Heat 4 in NASCAR Cup, Xfinity, Trucks, and Xtreme Dirt. The dirt racing in Nascar Heat 4 felt really weird. It required a special kind of drift turn to succeed. Make sure you race the qualifying section of Nascar Heat 4.

Did ya'll enjoy the

Twitch stream Teen Gamer and I did of Nascar Heat 4? It was a really hopping stream and we are thankful for everyone who watched, chatted, followed, subscribed, and donated bits. Family Friendly Gaming Universe is awesome. It is so great to interact with ya'll in those streams. We loved getting to show the physics of the crashes in Nascar Heat 4. # Stranger Things Season Two

SCORE: 62

There are a couple of items of interest in the Stranger Things franchise. I love all of the 80s references, and 80s content. Stranger Things Season Two picks up where Stranger Things Season One ended. The storyline continuation makes me think Seasons One and Two should have been released as just one season. Stranger Things Season Two is just nine episodes and takes 458 minutes to watch.

Things get more intense in Stranger Things Season Two as the major creature from the Season One has now been shrunk and multiplied into an army of demon dog like things. Lies are a part of this show. The major issues families will have with Stranger Things Season

Which is a real shame, He knew Basic. There is some cool and fun humor in Stranger Things Season Two as well. New characters are added to the franchise. I can't say that I like some of them. Max

Two are bad language, violence, blood, sexual comments, sex outside of marriage, promotion of evolution, and more. Expect plenty of scary parts in Stranger Things Season Two. Not as bad as Season One though.

We find another character in Stranger Things Season Two who has powers as well. Stranger Things Season Two really celebrates Halloween. The scientist redeem themselves in Stranger Things Season Two under a new leader. I like this character. He has good morals, ethics, and is very heroic. Certain cool characters in Stranger Things Season Two are killed off.

and her step brother are a great example of characters that make Stranger Things Season Two worse in my opinion. Bob is one of the best characters in the show, and his addition is awesome. Expect plenty of references to other franchises in Stranger Things Season Two.

I love the VHS packaging in Stranger Things Season Two. I plan on purchasing season three at some point in the future when it comes down in price. There is so much bad content within Stranger Things Season Two that was not needed. I do like how characters apologize for mistakes and work to make things better. Those were some cool moments.

# Harvest Moon Mad Dash

SCORE: 72

I am so thankful Family Friendly Gaming had enough money to purchase Harvest Moon Mad Dash on the Nintendo Switch. I have no clue why Family Friendly Gaming Universe was failed in terms of a reviewable copy. My only guess is Natsume wants no sales from the 9.1 million readers in Family Friendly Gaming Universe. Do you have different ideas? Then let us know with an email, post, tweet, or comment.

Dash is a puzzle game where we must put matching plants by one another for them to grow. Once they grow we must press a different button to harvest them. The more the player puts together the larger the item, and the higher the score. Score enough points fast enough and you can enter power mode. What is power mode? This is a mode where you just collect fruit for a

higher score. We also have missions to complete in Harvest Moon Mad Dash. This can be five watermelons or seven squash. Complete those for more points, and boost to get into power mode. Based on our score we can get zero, one, two, or three stars in each level of Harvest Moon Mad Dash. Stars are used to unlock additional areas. As we complete levels the map changes.

Harvest Moon Mad Dash contains the magical and supernatural harvest sprite characters. They are all over this game. Harvest Moon Mad Dash feels like an app to me. The controls in Harvest Moon Mad Dash can be wonky at times. I had issues with them repeatedly while playing this home console puzzle video game. Did you catch the stream we did of John Madden Football? If not please click here. We had some fun playing this retro game. Paying subscribers can pick the games we stream on Youtube and/or Twitch. Which is a really cool feature we are now offering. Viewers of the FFG Haul videos know what games we have available to play too.

The retro graphics in John Madden Football are decent. The fans do not look that great. More effort was put into the stairs. The players look decent in John Madden Football. The sounds in John Madden Football a bit on the light side.

We get some good hitting sounds but not a lot beyond that. Madden does have some good information in written words in select parts of the game.

We don't get a lot of modes in John Madden Football.

We do get plenty of football teams. I had real issues figuring out what would work and what would fail in John Madden Football. At times running worked great, and then it dried up. Passing would work and then fail. I do like the windows that

pop up in terms of the passing game in John Madden Football. I question their accuracy at times. The receiver is wide open, I pass and my receiver is there with five defenders.

I had fun playing John Madden Football even if it is a bit on the limited side. There

are definitely better football games in this era in my opinion. John Madden Football is solid and shows why that franchise continued on for so long. In fact is continues on to this day.

It is always fun going back and seeing the roots of a variety of franchises. John Madden Football lets us see the good and the bad from this game. Noah was not as impressed with John Madden Football. Peter does not mind some of these retro games. I enjoy them since I missed them when they were originally released. - Paul
