## Steady Growth

We have been seeing steady growth here at Family Friendly Gaming this year. It has been awesome, amazing, and exciting that more people find out about Family Friendly Gaming on a daily basis. We are on pace to cross the nine million unique IP addresses served by the end of this year. Which would be another amazing milestone to pass. We are leaving 100 million views on our Youtube channel way back in the rear view mirror. We passed the seventy thousand mark in terms of subscribers on Youtube. That growth continues to shock and awe us on a daily basis. Magazine views continue to grow and climb with each month as well - which is fantastic.

Every single day we publish a new review, news story, preview, video or image we are reaching new heights. I notice as we cross so many thousands here, and so many thousands there. We just keep churning out the work. We keep making video game companies all kinds of money. It is so nice when they are thankful for our hard work and show it in a meaningful way. With each e-magazine release I realize we are one number higher. It is like breaking a record each and every single time. We keep extending the streak beyond what anyone else would be able to achieve. If they tried to catch us they would need to work on it for decades.

We have gotten more efficient over the years and have gotten better at covering products, reviewing products, recording videos, and more. We still feel we have a long ways to go. We are consistently finding ways to do what we do even better. We also make sure to share what is going on. We believe in being transparent and honest. When we are discriminated against for being Christian we pass that along. When we are discriminated against for being conservative we pass that along. When PR and Marketing firms fail us we pass that along. You probably noticed from our videos we show the flaws and faults as well as the amazing achievements. We are real, and feel that is the only way to be. Others might practice something until they are perfect, and lead you to believe they did not practice. We do not agree with such deception.

It is such a blessing to see how God has used us, and how God continues to use Family Friendly Gaming.

Satan is not happy with what we do here. Satan's followers do not like us being a voice in the video game industry. God loves us being here. The followers of God appreciate us. We feel it is such a blessing to be doing God's will for our lives. We stand up for the faith and believe that is part of the reason we continue to grow, develop, and climb.

A serious thank you goes out to all ya'll for spreading the word out about Family Friendly Gaming. We appreciate all of your donations, views, subscriptions, purchases of my books and more. Ya'll have made us the success we currently are.

God bless,  
Paul Bury

## Surrounded by Males

My dad had to live with three females. He dealt with my mom, me, and my sister. When I realized I was going to be in the same situation with boys he told me: "I survived and so will you." This is probably why I spend so much time with my mother in law, mom, and sister. My mother in law was in the same situation I am. It can be challenging with a husband, and two sons. The sons are currently in the teenage years. The toddler years were so much better than the teenage years. It doesn't say what age Satan was when he rebelled against God. I am guessing it was sixteen.

It is a really good thing that my hubby is so supportive of me doing arts and crafts. He even gave me my own video series. He listens intently when I show him some new craft. Our boys are not so good at caring or showing interest in frilly things that have no practical purpose to them. At least one of three cares. That can be the difference between a smile and crying about things. What is your family situation like? Do you have daughters? Do you have sons? Do you have a mixture of the two?

We women care more about how things smell. Men and boys will get all sweaty and have no problem with it. After all they tell me that exercise is what we were designed for. I am not that big on being sweaty. They tell me it is because I prioritize my own comfort over health. I am getting help writing this because of an injury. I fell out of bed and broke my wrist. Lord willing my prayers will be answered and the doctors will figure out why I am moving around in my sleep. I am not able to do as much as I used to with my wrist all messed up.

We women and girls like different kinds of video games too. I am into the match three puzzle games, and other puzzle games. I do not like the action games, adventure games, violent games, or sports games. In fact I could care less if the NFL goes completely bankrupt. I am not interested in the NBA, NHL, or MLB. Nascar is cool though. I can appreciate some Nascar. I do not understand golf. Why can't we pick up the ball and hit it like in baseball? Can't we just throw the ball instead? My hubby tells me golf is there for people to take naps. Meaning if you watch golf you are going to sleep. I mainly just watch shows on Netflix now so I will never interact with golf again if I can help it.

Do you care about sports?

I am learning more aspects of Family Friendly Gaming too. I have been uploaded videos for many weeks now. I love getting to pick what video will appear on what day and in what order. My hubby has been very encouraging of my taking a larger role in Family Friendly Gaming. We women need to make sure we reciprocate that to our men. We need to make sure we encourage and uplift them and not tear them down and nag them. I am also learning how to set up recordings and how to process videos. The more I know the more I can help.

God bless,  
Yolanda Bury

MISSION STATEMENT

Family Friendly Gaming (FFG) was created in March of the year of our Lord 2005 as the first ever Christian video game magazine. The goal of Family Friendly Gaming is to report on video games from the family view point. Family Friendly Gaming takes a fair and balanced approach to all news, previews, reviews, interviews, features, and other articles found within. The secular video game media reports mainly on the most morally bankrupt games and call those games good. The major secular media reports on the bad side of video games mainly. Most other Christian media outlets claim video games turn the player into a zombie, or they completely worship video games. Family Friendly Gaming reports the good, and bad side effects to video games. It is the belief of the owners that readers are smart enough to come to their conclusions without those in the media handing opinions to them. Those of us at Family Friendly Gaming believe by giving you the facts, you can decide for yourself. There are plenty of really good video games on the market that teach wonderful lessons. Both inside the Christian video game market, and from non-Christian video game developers. Family Friendly Gaming seeks out these video games to bring them to your attention. Since it is unknown before playing a game how family friendly it is; it is possible that this magazine will preview a game, and then the review will expose problems previously unknown. Family Friendly Gaming promises to always ask the question: “how God feels about certain video games.” God’s opinion on the matter is more important than any mere mortal. Which is why the rest of the industry does not influence FFG.

## Improving retro consoles

Dear Mr. Bury,

There are now multiple game consoles on the market that play retro games with modern technology. They look like miniaturized versions of the original consoles, yet they store dozens of games on a flash drive. Sega, Nintendo, and Sony have all made updated versions of classic consoles.

But they all have one problem. If they have all the games you like, great. If not, tough luck.

This problem can be easily fixed.

Why not allow people to buy retro game consoles online, select which games they want installed on the flash drives, and have the consoles delivered to them either in the mail or at a retail location such as Wal-Mart? I am sure you can think of many retro games you would enjoy that are not currently included on retro consoles.

Please let me know what you think of my idea and how you would improve it. Have a great day and God Bless You.

Sincerely,  
David

{Paul}: David,

First and foremost I love the idea. We should be given more

choice to the games included on these retro systems. Another idea is allow for SD cards as an input to these new retro game systems. Then we can buy a wide array of different games and plug it into these new retro consoles. Then third party companies that are still around could sell us copies of their retro games. Imagine being able to go to Capcom and buy each of the original Mega Man games and play it on the NES Classic Edition. We could even go to Wisdom Tree and buy their games for the NES as well. Again with SD card input there could be all kinds of options. Maybe even some new retro games on those systems.

Another idea that would be cool is if more companies released new retro games on the retro

consoles. I am talking about NES, SNES, Genesis, and more. Companies could make games for those older systems on cartridges. There are a few that do exactly that. I would love to see that get more popular with time.

When we are talking about companies like Nintendo - well good luck getting them to listen. Nintendo does what they want, when they want, and how they want. They take forever to change. I have such a low opinion of Nintendo right now. I do not expect much from them anymore.

## Drain the Swamp

I just found Family Friendly Gaming. I am one of your 8.5 million readers. I am a really big supporter of President Trump. I also like playing video games. I am so sick of all these liberals preaching their far left beliefs at me in their games, at their press conferences and more. I am also sick of all these liberal gaming media websites and magazines that do not reflect my beliefs. I came across Family Friendly Gaming and love it. You even talk about draining the swamp of video games. I did not realize there was so much corruption

in the video game industry. It makes sense since there is always corruption around liberals. You educated me and I am educating all of my friends. My parents are so happy that I found Family Friendly Gaming since I used to complain about the gaming sites that were so far left.

I will avoid any of the companies that are corrupt. I will not buy any of their games ever again. I am spreading the word among everyone I know to never buy a game from Atlus USA, Microsoft, EA, Sega, Super Rare Games, Nintendo, or 2K. I will not support any of the alligators

in the swamp of corruption ever again. I used to buy games from most of those companies. Never again. They will clean up their slime or never get money from me ever again. They are on my list of bad companies to never listen to, follow, give attention to or anything.  
- Tom

{Paul}: Tom,

I am very passionate about the swamp of corruption in video games getting drained. It is great each and every time I get a new email from someone who is such a strong supporter. It is abso-

# SOUND OFF Continued

lutely awesome to hear you are voting with your money. Google is another one that is part of the corruption. There are the major companies that rank websites that are also a part of the corruption.

One way to get games from the alligators of the swamp of corruption in video games is to buy them used. That way the companies get none of your money. There are a lot of different ways to get used video games. I know people that want to join the boycott against Nintendo for example but really want to play some of their games. So they never ever buy one of their games new. They buy them used from Amazon, or look at their local used gaming stores.

## Book of the Month

Your book Video Game Lies is outstanding. I love it. My husband loves it. Our kids love it. It is a book I am going to recommend to my book club. Video Game Lies is the book of the month.

Thank you for writing such an insightful, important, and helpful book. I wish there were more people in the world like

you because you tell it like it is, you don't mince words, and you have real experience with these problems.

I like buying books from authors like you because you are not in these book tours on the television shows trying to peddle your wares. You are actually like the rest of us. There is no elitist attitude from you. It is like having a conversation with a friend.

Five stars out of five. Everyone should buy Video Game Lies.  
Carla

{Paul}: Carla,

Thank you so much for your amazing words of encouragement. They came at the best time too. I have been dealing with trying to get the swamp of corruption in the video game industry drained. There are all these alligators supporting the swamp and of course attacking Family Friendly Gaming and me personally. Why can't these haters discuss the issues instead of attacking the people? Do you have any idea why they want to destroy others instead of behaving like adults? If anyone out there has an idea let me know.

## Membership

There is a topic that has bothered me for a long time. I have written about it before. Once someone repents of their sins and accepts Jesus Christ as their Lord and Savior they are now a member of the church. No contracts to a local building, or local group of believers is required. Yet too many modern day American churches require this. They actually require more. They require members of the body of Christ (aka the church) to take classes, make a statement, and then to let others vote on you. I can't find where this practice is condoned in the Holy Bible at all. **Romans 12:4-5** *For just as each of us has one body with many members, and these members do not all have the same function, 5 so in Christ we, though many, form one body, and each member belongs to all the others.* As a member of the church (and not some building) I have the gift of missionary work to the video game industry.

Recently I discovered more churches are going around and acting like they should be served instead of serving. Some churches are even brow beating their attendees to do something

for them or leave. Where is the love and service for that? I have served fellow believers for over thirteen years and never told them they can't use our services if they don't put something in. To be blunt not one American church has ever done anything to help our ministry work. We also reach more people on less money than they do. **1 Corinthians 12:27-28** *Now you are the body of Christ, and each one of you is a part of it. 28 And God has placed in the church first of all apostles, second prophets, third teachers, then miracles, then gifts of healing, of helping, of guidance, and of different kinds of tongues.* Where is this teaching in the modern day American churches?

Too often modern day American churches try to co-opt the word church in the Holy Bible. **Ephesians 5:23-24** *For the husband is the head of the wife as Christ is the head of the church, his body, of which he is the Savior. 24 Now as the church submits to Christ, so also wives should submit to their husbands in everything.* Pretty clear to me. When did Christ demand new members go through a specific membership class? When did Christ demand people from different areas go through a class,

make a statement, and get voted upon?

I always tell people I report to Jesus. I do not require anything for membership in Family Friendly Gaming Universe. **Ephesians 4:15** *Instead, speaking the truth in love, we will grow to become in every respect the mature body of him who is the head, that is, Christ. 16 From him the whole body, joined and held together by every supporting ligament, grows and builds itself up in love, as each part does its work.*

God Bless,  
Paul Bury

## PRAYER

Jesus,

I know that I am a sinner and need Your forgiveness. Nothing I can do of my own power will give me true joy. I believe that You died for my sins. I want to turn from my enslavement to sins, and repent of them. I now invite You to come into my heart and life. I want to trust and follow You as my personal Lord and Savior. I welcome the transforming power of the Holy Spirit. Amen.

There are wise decisions we make in life and there are mistakes. Family Friendly Gaming wants to share some thoughts that can be helpful. Maybe this will bring more joy into your life. Maybe it will allow you to have better physical health. Maybe it will help you reach a better mental, psychological or emotional state. The goal of each column in each month is to share some helpful thoughts to you and your family.

## Content

One of the hardest things for certain people to do is to be content. There is this belief in American culture that you must keep moving to stay alive. Churches have to have some new upgrade or building project to prove their are growing. Businesses must buy out their competition to show they are growing. Everyone working at every job must get a promotion, a raise and more. Millionaires have to become billionaires. For some reason the important reality of being content is lost on so many. They are constantly pushing the envelope to see the next hill, get to the next level, and more. It has become the new keeping up

with the Joneses.

Whatever happened to being content with how many people come to your church? What ever happened to being thankful for the amount of customers your business has? Whatever happened to being content with the amount of money you have? I have gotten some strange looks from people when I tell them I am content with things. Not only am I content I am also thankful for all of the blessings God has put into my life. It does sicken me to see such discontentment from so many people. Especially when it is in the church. I noticed that most people who are not content are also at least partially selfish. They want whatever and they want it now. So they are also impatient as well. I missed those being fruits of the spirit.

The thing is being content is so easy. It goes back to the glass being half full. Start being content with telling God all of the things you are thankful for. The more you list the more you realize that you have. The more you focus on what you have the more you can easily be content with it. Before you know it you will be nicer to others. Being content with what you have means you are not constantly

chasing after the next big thing. You don't need the next big thing. I don't need the next big thing. There is no fear of missing out when you have no interest in participating in the first place. The stress drops and the happiness increases. God knew all of these things when He taught us how to live.

The problem is too many (even in Christian circles) do not practice what God preached to us. Instead of being thankful for what they have, they want more. Some even beg God to give them more. Which is funny considering they are not happy or content with what they were currently blessed with. Why would God give you more if you did not properly treat what you currently have? I know that is a biting question.

It would be wonderful to see more churches, businesses, and people content with what they currently have. It would be awesome to see a revival of contentment. Instead of me, me, me, it was changed to thank you, thank you, thank you. Is that so difficult? Is that so hard? Those that are content should be elevated to hero status in our culture. They should be honored and revered for their fine examples for all of us to follow.

### Automobile Tycoon Releases

Indie game developer Silver Lemur Games are encouraging all car- and simulation-enthusiasts to tryout the newest version of Automobile Tycoon just released today, a feature-rich simulation game with emphasis on the development, production and selling of cars spanning vehicles from 1905 thru 2020!

Automobile Tycoon is a management game currently available via STEAM™, in which strategic decisions play a vital role in being successful. Offering a turn-based gameplay experience it includes a host of cool features and content, such as various car types, including sedans, pickups, cabriolets and many others available to unlock as you progress. Other cool inclusions are the option to choose to play from 1905 thru 2020 with histori-

cal events like world wars, economic crisis and even inflation, which can be disabled if desired.

Automobile Tycoon was carefully designed for the ultimate gaming experience in running a car manufacturing company with minimal amount of tedious micromanagement. It has a clear and intuitive design and is regularly updated based on user feedback, and is considered a premium tycoon-style game, as opposed to a car-designing simulator. Initially, your engineers research parts and develop a car then you set up, modernize

and expand your factory and next you decide on distribution and marketing. All these are accompanied by secondary activities like paying taxes, taking bank loans etc.

Automobile Tycoon is a relatively fast-paced single-player game that allows for 100 years of automotive history to be experienced in 400 turns if desired! Start your company from a range of options, including 1905, 1920, 1948, 1960 and 1980 with more options becoming available at user request. The game is continuously being updated by the developer to include additional content and new improved features.

No word on a physical copy version of this game on this system at this time. Families are required to pay for Internet usage fees to download this game. For more information click here.

### Toplitz Productions announces further DYNASTY games

Due to the great success of Farmer's Dynasty (currently available as an early access game on Steam) and the great feedback from players worldwide, the Austrian publisher is expanding the Dynasty series with new products: "TRUCKER'S DYNASTY: CUBA LIBRE" creates very special vibes. The game takes the player to the Caribbean: sunny beaches, a warm climate and a lot of work are waiting there! And of course the own trucker company, which has to be made successful. But as with all Dynasty games, the social component must not be missing. Friendship and love are key in these games! The setting of "TIMBERMAN'S DYNASTY" takes the player down to earth in the woods, where life as a woodcutter with all its beauty but of course also hard work has to be mastered.

In addition to the work on "Farmer's Dynasty", which the Austrian publisher is currently pushing ahead with, it is important to look to the future of the game series. Following the slogan of Toplitz Productions GmbH to create "Games with heart and soul", the company is now ready to present new settings that innovatively and creatively tie in with the popular "Farmer's Dynasty".

"We are very pleased to announce further products of the "DYNASTY" series. Those new settings have fascinated us for a long time and we are happy to have found the right developers for the game. We are convinced of the concept of the series and the new, partly unused settings", explains Stefan Berger, Toplitz Productions. "It is very important for us to emphasize that the development of Farmer's Dynasty is currently focused and not influenced by the development start of the new products."

### Netflix of comics coming to Switch

Izneo, the first online platform dedicated to comics, European comics, mangas, graphic novels and Webtoons, is announcing today the availability of its reading app on the Nintendo Switch for this October 2018. Already available on computer, smartphone and tablet, the Izneo player will allow Switch owners to brilliantly access and purchase their favorite content from Izneo's ever growing and hugely popular catalog on the go or on their TV. Additionally to the Switch launch, Izneo will also be available on Nvidia Shield, Smart TV Phillips, Sony and all the Android TVs.

The most prestigious franchises are on Izneo!

Readable both online and offline, Izneo will give Switch owners access to thousands of digital comics. While comic books fans alike will be delighted to find renowned titles like Hellboy, Aliens, Buffy or Doctor Who, European comics enthusiasts will devour the best of the genre: Blacksad, Largo Winch or Valerian.. Mangas aficionados are not forgotten either with Appleseed, Sherlock, Assassin's Creed and many, many more!

"We are proud to bring the Izneo reader to Nintendo Switch and offer the best comic books reading experience to gamers" said Luc Bourcier, CEO of Izneo. "Nintendo's console is a\the perfect platform for comic book reading. From gamer to reader the gap just got a little bit smaller!"

Warning: Franchises listed may not be family friendly. Be sure to check that before using this service, and downloading any of the mentioned comics. No news on Christian comics in this listing either.

### Europa Universalis IV Dharma Expansion Now Available

In the year of our Lord 1488, the Portuguese explorer Bartolomeu Dias rounded the Cape of Good Hope, discovering a sea route to India and opening up the Indian Ocean for European trade. Over the succeeding centuries, merchants and adventurers would follow this route to lands rich in spice and silk. Diamonds as big as your fist decorated the thrones of dozens of princes ruling over millions subjects. The foreign traders would make themselves masters of this land. Will you?

Paradox Development Studio is happy to announce the release of Europa Universalis IV: Dharma, the latest expansion to its celebrated grand strategy game of exploration and high politics in the early modern era. Dharma brings a host of new systems and

game options to EU4, with a focus on the Indian subcontinent. It is available now for \$19.99 on Steam and the Paradox Store.

But even non-Indian nations will see dramatic changes to the game. The new Government Reform system allows you to customize how you rule your lands, choosing bonuses that will strengthen your kingdom. Will you protect the nobles in return for more manpower or crush their independence so more taxes fill your coffers? Do you want a parliament or an absolute ruler?

Other features in Europa Universalis IV: Dharma include:

- Reworked Policy System: Policies get a new look in the free update, but Dharma will include special bonuses that make this system even more attractive.
- Trade Company Investments: Upgrade and improve the provinces tied to your trade companies, conferring bonuses

both to the European master and neighboring Indian nations.

- New Indian Mission Trees: Unique mission paths for the most important Indian sultanates and kingdoms.
- New Indian Estates: Alongside a free update to the estate system, India gets five new castes. Raise the brahmins to reduce unrest in a province or install Jain governors for a boost to income while reducing manpower..
- New Mughal Culture Bonus: The Mughal Empire can assimilate and accommodate newly conquered cultures with ease.
- Charter Companies: Europeans can buy a foothold into trade charter zones in Africa and Asia, if they can find a prince that trusts them.
- Upgraded Trade Centers: Invest in the development of your Centers of Trade
- And more, including: new ways to suppress rebellion, the monsoon season, new uses for colonists in non-colonial development, scornful insults, multiplayer teams, new art, and a host of new achievements.

A new Content Pack is also available, adding new Indian army models including war elephants, dozens of new advisor portraits and over ten minutes of new original music.

Dharma's release coincides with the Mughals update, free for all Europa Universalis IV players. This update includes a more detailed map of the Indian region, a renewed Estate system, and a new approach to Policies.

### Industry Giant Ports to Steam

It was the year 1997; Bill Clinton was elected for president for the second time, Dolly, the world's first cloned sheep was shown to the public, Pokémon TV premiered in Tokyo AND ....

Industry Giant was released for PC – a LEG-END was born!

Classic 90s games are HOT and Toplit Productions is joining this trend to reanimate classic games, upgraded for next-generation gaming systems. First up was the release of "Traffic Giant" now followed by "Industry Giant" – one of the most famous business simulations of the 90s.

The legendary "Industry Giant" is without any doubt one of the most popular business simulations in gaming history. The game took the gaming community by storm in the

1990's, and now more than 20 years later it is still at top lists of most beloved games in this genre. Revered for simple and comfortable commands combined with a high degree of gaming complexity, Industry Giant is fun to play, yet easy to understand.

Start your journey to the past now! "Industry Giant" opens the doors to an almost forgotten world of detailed business simulation.

# WE WOULD PLAY THAT!

There are all kinds of cool family friendly video game ideas out there. This column features ideas of video games we would play. We hope games like these are created in the near future. Can you make it happen?

Family Friendly Gaming has been a long time supporter of the physical copy movement. Some people even credit Family Friendly Gaming for starting the physical copy movement in the video game industry. Family Friendly Gaming is certainly one of (if not the) biggest gaming media outlet to promote physical copies of video games. We would love to see a company step up to the plate and provide physical copies for indie games. We have one important caveat to that as well. The company that support indie companies in

physical copies needs to reject the swamp of corruption in the video game industry. Thus far Family Friendly Gaming has found no company capable of doing all of that. Which is a shame because indie companies need a partner they can trust. Indie companies need a partner that has integrity. Indie companies need a partner that embraces truth, honesty, transparency, and the light. Maybe that is too much to ask for in the evil, vile, wicked, dark video game industry. Ratalaika Games makes all kinds of interesting indie games that deserve a physical copy version. Too bad there is no physical copy distributor capable of honor, integrity, justice, honesty, and caring. It is a real shame there are no such companies that exist in this world. We don't need to help any of the alligators in the swamp of

video game corruption to make money. All of the alligators in the swamp of corruption in the video game industry need to leave the swamp as it is drained. There are also games like Turtle Pop Journey to Freedom that would be great in the physical copy realm. Family Friendly Gaming has a great video series of this game on our Youtube channel, and of course on the website in the videos section. A physical copy of Turtle Pop Journey to Freedom would be quite a kick. Can you think of any indie video games that deserve a physical copy edition? Not games like Worms WMD on the Switch or The Flame in the Flood on the Switch. Not anything like that. Good indie games that are fun for families. Can you think of any good indie games for families that deserve a physical copy release?

## John 3:19-21

19 This is the verdict: Light has come into the world, but people loved darkness instead of light because their deeds were evil. 20 Everyone who does evil hates the light, and will not come into the light for fear that their deeds will be exposed. 21 But whoever lives by the truth comes into the light, so that it may be seen plainly that what they have done has been done in the sight of God.

# REVIEWS

Welcome to our reviews section. We have a couple of rules when it comes to our reviews. The reviewer must give an honest accounting as to why he/she liked or disliked something. No fanboy reviews allowed here, or at the very least they are discouraged (after all everyone has their own personal biases, likes, and dislikes). Everyone also has different tolerances, and weaknesses - we strive to keep that in mind in our reviews. We have been burned ourselves by reviews saying a certain game is great, only to be greatly offended by that game. Reviewers must be kind in their reviews. A game may be horrible, but there is no need to degrade the developer, publisher, artists, etc. There is also no need for name calling.

We review video games on five separate criteria: graphics, sound, replay/extras, gameplay, and family friendly factor. Review scale can be found here. The editor in chief coordinates reviews to have as much cohesion as possible. We are very open about the way we review video games. Each section starts with a 75 score, and can earn or lose points based on the content of the game, using our grading scale (found on the website).

Parents, please do not take any of our reviews as gospel. Different people are offended by different things. We work hard here at Family Friendly Gaming to discern the good from the bad in the teachings of each different video game. What may seem harmless to our reviewer(s), could be a big deal to you. We encourage you to spend time with your children and investigate each video game yourself. Each review is written with you in mind, and we try to mention each problem we find. We are not perfect, and miss things from time to time - just as the ESRB does. The ESRB rating is merely a start, and since they ignore many of the moral and spiritual factors important to parents all across America, we do our small part to fill that huge void. We are a small ministry and your prayers are so very important to us.

# Lego Harry Potter Years 1-4

SCORE: 57

I might be the only person here at Family Friendly Gaming with any interest in Harry Potter. I am pleased that Family Friendly Gaming purchased Lego Harry Potter Years 1-4 on the Nintendo DS. I am pretty disappointed with this hand held video game. The graphics are not that great, and the game play is too reliant on drawing on the screen. Which is made worse since the game does not always recognize the drawings.

Lego Harry Potter Years 1-4 is a very magical video game. I mean that literally. Magic is the core story telling element, actions, and more. We start out Lego Harry Potter Years 1-4 with no wand and no ability to break things. Once we get the wand then we can break things and use magic. There can be multiple areas

in a level. I had to replay certain parts because Lego Harry Potter Years 1-4 only saves at certain intervals. Although it claims to save.

I had quite the problem seeing things in Lego Harry Potter Years 1-4. The dark graphics hurt this game on top of all its other problems.

I like the level length for a hand held video game. There are levels based on multiple movies in Lego Harry Potter Years 1-4. The cut scenes in Lego Harry Potter Years 1-4 look horrible. The Nintendo DS is not capable

of handling these kinds of graphics

We have ghosts, flying brooms, potions and more in Lego Harry Potter Years 1-4. Obviously this Lego video game is based on the movies and the franchise. If the graphics were brighter and there was a better theme then there should be more Lego video games like Lego Harry Potter Years 1-4. I like the overhead viewpoint in Lego Harry Potter Years 1-4 on the Nintendo DS.

The drawing motions in Lego Harry Potter Years 1-4 were not always recognized. Which is weird when I am drawing a circle just like the game shows. Maybe there was some lag going on with this hand held video game. Lego Harry Potter Years 1-4 is a bit too much for the Nintendo DS in multiple ways. I like the gold bricks over the people for the quests. That was clever.

# The Sorcerer's Ap- prentice

SCORE: 46

The Sorcerer's Apprentice on the Nintendo DS has sat around in a pile of hand held video games to get to for some time now here at Family Friendly Gaming. No one here was very interested in playing The Sorcerer's Apprentice on the DS. We all had the opinion it would most likely be pretty lame. We were scraping the bottom of the barrel and I decided to pick up The Sorcerer's Apprentice to play.

The Sorcerer's Apprentice is worse than I thought it would be. The Sorcerer's Apprentice is obviously a quick cash grab on the movie license. The movie was pretty lame too. At least this Nintendo DS game did not outshine the movie. The Sorcerer's Apprentice contains Story Mode, Pass the DS, Options, Achievements,

and DGamer. I did not try DGamer because I figure it is gone now.

The Sorcerer's Apprentice does not impress me with the graphics. The characters look nothing like the ones from the movie. That is main game play and the cut scenes. The bland boring graphics hurt The Sor-

Sorcerer's Apprentice on so many levels. I noticed things were graphically repeating. So did the enemies which is another problem for the next paragraph.

What do we do in The Sorcerer's Apprentice? We kill this one kind of monster, then an-

other kind, then another kind; and finally we move to another area to repeat the process. As we progress in The Sorcerer's Apprentice there are new enemies to fight. We still have to destroy the first set before getting to the next set. I was boring out of my mind playing The Sorcerer's Apprentice.

To make matters worse The Sorcerer's Apprentice has a horrible moving bar to where we will attack. Magic, wizards, sorcerers and Merlin are all over The Sorcerer's Apprentice.

We upgrade by battling all the monsters we have seen thus far in the game. Multiple times too. There is a long distance between saves. I had no idea how much progress I would lose each time I stopped playing. Do not buy this game.

## Sonic Mania Plus

SCORE: 64

I am thankful Family Friendly Gaming purchased a copy of Sonic Mania Plus on the Nintendo Switch. I am also thankful Sega listened to Family Friendly Gaming about putting Sonic Mania Plus in the physical copy realm. Sonic Mania Plus is also selling for under thirty dollars so that is neat. We get the game, a case, and an art book about this 2D side scrolling action adventure video game.

Sonic Mania Plus reminds me of the 16-bit video Sonic video games. Sonic Mania Plus is also harder than those retro games. It takes practice to get through levels and bosses in Sonic Mania Plus. We also get to play two

new characters Mighty and Ray. They are new to me at least. You must make it through this game in one sitting. Sonic Mania Plus is retro to the max.

The modes in Sonic Mania Plus are Mania Mode, Encore Mode, Time Attack, Competition, Options, and Extras. Sonic Mania Plus has 16-bit graphics and music in it. Sonic Mania Plus feels like Sonic the Hedgehog video games remixed. There are giant rings where we enter bonus levels. I remember playing some of them in the past. Others feel different to me at

least. Sonic Mania Plus has the speed from the Genesis video games.

Sonic Mania Plus is more for hardcore gamers in my opinion. If you want a challenge then check out

Sonic Mania Plus. I like Encore Mode better since we can play different characters who have better skills. Knuckles is very handy with that gliding. Mighty can break blocks and allow us to access new and different areas.

I like Sonic Mania Plus even though it frustrated me. I love to see new retro video games like Sonic Mania Plus come out, and at retail. I hope to see more games like Sonic Mania Plus in the near future. I would love to see a casual mode added to games like Sonic Mania Plus in the future too. If you like 16-bit Sonic the Hedgehog games then you should enjoy Sonic Mania Plus.

# Madden NFL 19

SCORE: 68

As I write this review Nike's stock is taking a dive because they attacked the flag, America, the police, the president, morals, ethics, the military, veterans, and more. It all relates to the massive decline of the NFL. In some ways I feel bad for EA Sports. The NFL has lost its appeal and interest to many Americans. We will not stand with people who support murderous dictators, and violence against the police. On the other hand I see the PR and Marketing people for Madden NFL 19 failed Family Friendly Gaming Universe again.

Every year Madden NFL 19 tweaks one little thing. This year it is real player motion. Talk about living in a fantasy world. I guess this propaganda fits with the NFL. Maybe I should go to the funeral of a well known liberal and take a knee to protest unicorns or some other falsehood. The "real player motion" in Madden NFL 19 does not look much different from

last year. A few of the visual glitches have been cleaned up. Kicking is still broken, and we can break tackles on easy mode like crazy.

Why was bad language needed in Madden NFL 19? Why was so much bad language allowed in Madden NFL 19? With the other bad content how come this game is 'E' instead of 'E10+'? Is this part of the corruption in the video game industry that needs to be cleaned up? Madden NFL 19

contains less modes now. We have Madden Rewards, Exhibition, Ultimate Team, Franchise and Longshot. Most modes are in the murderous online arena.

The officiating is still broken in Madden NFL 19. Holding calls are rare even when it is obvious the computer cornerback is holding. I had trouble going offsides in Madden NFL 19. The lame Longshot mode comes back and honestly was an even worse bore this year. All Madden Teams are finally back. Why were they taken out and left out for so long? The commentary is okay, but repetitive.

In my opinion Madden NFL 19 is worth ten to fifteen dollars brand new. I know a lot of our readers will not purchase it because of the hate filled NFL. I can't blame you. We are not planning on playing a season of Madden NFL 19. We listen to our audience and it is obvious ya'll do not want us to play a season. We are pretty bored with this franchise anyways. - Paul

# VIDEO GAME LIES

By  
Paul Bury  
Version 3

BUY IT NOW RIGHT HERE

That's You!

SCORE: 50

There are some video games that should have never been made. That's You! is one such video game. In fact I can see why That's You! is selling in the single digits. This Playstation 4 game

is horrible. That's You! is yet another example of how Sony continues to fail families. Sony is obviously hostile to middle America just like Holly Weir. Do not buy this product.

Why did Sony have so much bad content included in That's You!? At least the Jack-box party games have some humor in them. That's You! is not funny, even though it tries to be. The two player local mode is about worthless in my opinion. We share a score. So why wouldn't we work together for a higher score? Does Sony even begin to understand people?

If you are deaf then you will not be able to play

That's You! on the Playstation 4. Why not? Players must listen to verbal instructions on what to do in That's You!. A smart phone or tablet is needed after the long installation and long updates were done. We collect ugly buttons called tokens in That's You!. Graphically this game underwhelmed me from start to finish.

The issues families will have are drugs, violence, blood, nudity, enticement to lust, sexual themes and more. That's You! tells you from the start this game is not for children. How can your games bring families together Sony when it is not for kids? Why isn't there a kid safe mode in That's You!? The technology is there because other companies have done it. How is Sony so far behind?

That's You! wants to be a shared experience. We go back and forth between the TV screen and the smart device. The free app installation on the smart device was actually pretty quick. We did not have drop out issues with the connection

to the PS4 either. Working together for a higher score is never discouraged and the real way to a high score in That's You!. I never want to see this game again.

Street Fighter 30th Anniversary Collection

SCORE: 58

After all of the failures from the PR and Marketing folks over at Capcom I am so glad Family Friendly Gaming purchased a copy of Street Fighter 30th Anniversary Collection on the PS4. This fighting game compilation can also be found on the Switch, PC, and Xbox One. The modes in this game are Offline, Online, Museum, and Options. There are twelve Street Fighter video games included with Street Fighter 30th Anniversary Collection.

If you go to the museum in Street Fighter 30th Anniversary Collection you will find History, Characters, Music, and Making of SF. The Offline modes in Street Fighter 30th Anniversary Collection

are Arcade, Versus, and Training. The Online modes in Street Fighter 30th Anniversary Collection are Online Arcade, Ranked Match, Casual Match, Create Lobby, Join Lobby, Leaderboards, and Online Options.

The issues families will most definitely have with Street Fighter 30th Anniversary Collection are blood, violence, lack of attire, bad language, enticement to lust, alcohol, and more. The controls in Street Fighter 30th Anniversary Collection can be frustrating at

times. Especially trying to do certain moves with modern day controllers. At times I thought I did the moves perfectly but the game did not register the

move.

These old games can have their frustrations in them. Street Fighter 30th Anniversary Collection is no exception. There are numerous images supporting Eastern religious beliefs. I did not find images supporting Christian beliefs though. The small square screen can be zoomed in on so it takes up the entire screen.

I thought I would have fun with Street Fighter 30th Anniversary Collection. I did not. I value this game at ten dollars brand new for historic or nostalgic gamers only. I doubt I will play Street Fighter 30th Anniversary Collection anymore.

## Spider-Man

SCORE: 62

I am very thankful Family Friendly Gaming purchased a copy of Spider-Man on the PS4. The Sony representative told me they would not send us a

copy. I define that as they want no sales from Family Friendly Gaming Universe ever. We do a variety of things in Spider-Man. We websling, wall run, fight, solve puzzles, and more.

Spider-Man feels like a Marvel story. There are phone calls while we are doing things, and we can listen to J Jonah Jameson radio shows (or podcasts). There are a ton of different commands and attacks that can be done in Spider-Man. This can be confusing when we are fighting the same looking enemies over and over again.

The issues families will have with Spider-Man are blood, violence, bad language,

enticement to lust, and more. The fighting in Spider-Man can be very frustrating. Even on the easiest setting I would die over and over again. This meant I had little fun playing Spider-Man. I could solve the puzzles, swing around the city, and then get stuck fighting waves of the same looking enemies. It spoiled the experience

for me personally.

We level up and have a focus bar that lets us do a one hit kill on enemies or heal. I loved being able to stop crimes in Spider-Man. The city in Spider-Man looks good. I do not know New York to know how realistic it is. Spider-Man has a large playing area with a lot of things happening all around. A variety of Spider-Man elements are found within this home console video game. Things like Peter Parker having trouble paying his bills.

I noticed Spider-Man is already dropping in price. If you can handle the aggravation of the difficulty then do not spend more than twenty dollars for Spider-Man on the Playstation 4. I wish there was a way to tone down the violence in Spider-Man on the PS4.

## Superboy Season 1

SCORE: 50

Sometimes there are retro shows I watch that should have stayed dead and buried in the past. Superboy Season 1 is one of those shows. This was a birthday present that I requested. We struggled through watching this show on so many levels. Superboy Season 1 has bad acting, bad special effects, horrible storylines, and a radical bias.

Who thought making Superboy Season 1 so radical on the far left was a good idea? No wonder this show flopped so badly. Superboy Season 1 is anti-America, pro-Russia, anti-nukes, pro drugs, anti-rich, pro homeless, and filled with radical far left liberal lies. Superboy

Season 1 simplifies solutions like have the rich guy house all of the homeless, and then give them jobs.

There is some violence, lack of attire, enticement to lust, and sex hinted outside of marriage. Superboy does not even know where he is from. He does not know how he gets his powers. He does not know about

kryptonite, and more. Lex Luthor is one of the few interesting characters in Superboy Season 1. Too bad he is more frat boy than anything else.

It took me 558 minutes to watch the four discs of Superboy Season 1. The bonus content is Superboy Getting off

the Ground, Commentators, Screen Test, and Look up in the Sky! The Amazing Story of Superman. I will not go back and watch Superboy Season 1 ever again.

I am torn on whether I should purchase additional seasons of this show. In some ways I want to watch it, and in others it is real torture to watch this show. We will see what the future holds. Superboy Season 1 is worth five dollars brand new in my humble professional opinion.

## Mario Tennis Aces

SCORE: 78

Hopefully you enjoyed the game play video Kid Gamer and I did of Mario Tennis Aces. If not check it out on our Youtube channel or in the videos section of the Family Friendly Gaming website. It is completely free. We do not charge you to watch our videos.

Nintendo's PR and Marketing folks lost them money by being unprofessional to Family Friendly Gaming concerning Mario Tennis Aces. Nothing new for them huh?!? They are showing how well they actually support all gamers, and celebrate diversity.

The modes in Mario Tennis Aces are Adventure, Tournament, Co-op, Challenge, Free Play, and Swing Mode. You can get exercise by swinging around the Joy Cons. Or you can play in a more casual and relaxed setting. The difficulty setting in Mario Ten-

nis Aces are all over the place. There are easy matches, then something really hard, and then some more easy ones.

The graphics looks nice in Mario Tennis Aces. The music is typical recycled Mario music that we have paid for many times already. There is violence in Mario Tennis Aces. There are also ghosts, skeleton characters, and more in Mario

Tennis Aces. The controls are generally good in Mario Tennis Aces.

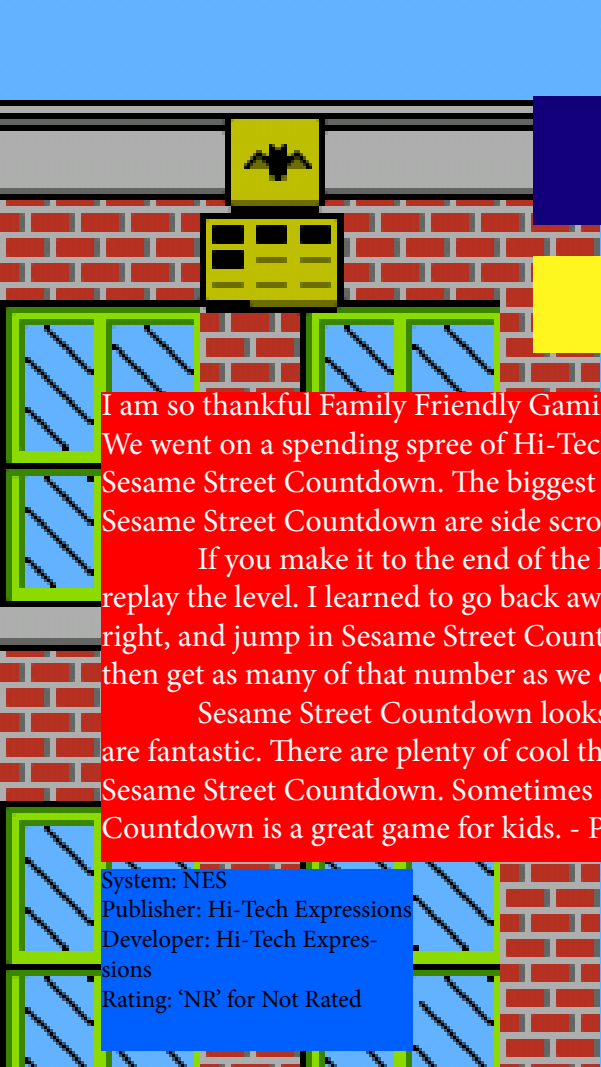

The storyline in Mario Tennis Aces revolves around some evil character getting trapped in a tennis racket. He gets freed thanks to Wario and Waluigi. From there we go on a quest with Mario and Toad to get five power stones to stop the "almighty racket" from controlling the Mushroom Kingdom.

Mario Tennis Aces keeps it fresh by having us play tennis in different ways. I had to get good at the controls to succeed in Mario Tennis Aces. Even then some areas there is a collision detection problem - mirror level I am looking at you. Bosses are interesting in Mario Tennis Aces. We must hit them in a certain spot to take away the final bit of their lives. I value this game at \$25. - Paul

## Sesame Street Countdown

SCORE: 90

I am so thankful Family Friendly Gaming purchased a copy of Sesame Street Countdown on the 8-bit NES. We went on a spending spree of Hi-Tech Expression games some months ago. We get to play the Count in Sesame Street Countdown. The biggest learning lesson in Sesame Street Countdown is numbers. The levels in Sesame Street Countdown are side scrolling.

If you make it to the end of the level but did not get enough of the right number then you will have to replay the level. I learned to go back away from the exit until I got enough of the right number. We move left, right, and jump in Sesame Street Countdown. We pick a number from a wheel at the beginning of a level and then get as many of that number as we can throughout the level.

Sesame Street Countdown looks good, and it sounds good. The controls in Sesame Street Countdown are fantastic. There are plenty of cool things to do, see, and learn. I love the diversity of the different items in Sesame Street Countdown. Sometimes it is just a number, and sometimes it is different things. Sesame Street Countdown is a great game for kids. - Paul

## Sesame Street ABC & 123

SCORE: 94

I hope you enjoyed the videos I did of Sesame Street ABC & 123 on the 8-bit NES. If not please click here. There are a variety of great lessons for kids in Sesame Street ABC & 123. There are plenty of different learning games in Sesame Street ABC & 123. The graphics in Sesame Street ABC & 123 look good for an 8-bit video game.

Kids can learn their ABCs and 123s in Sesame Street ABC & 123. The music in Sesame Street ABC & 123 is fun and the game is very encouraging. As an adult I actually enjoyed playing Sesame Street ABC & 123. Kids have fun and they learn important lessons too. Sesame Street ABC & 123 is mainly for kids though. Thankfully Sesame Street ABC & 123 is safe for kids of all ages.

I am glad Hi-Tech Expressions made this home console learning game. I wish there were new games on current systems like Sesame Street ABC & 123. The price of Sesame Street ABC & 123 is extremely reasonable. In fact for the price of a new modern game your family can buy Sesame Street ABC & 123 and the system. Which is more than reasonable.- Paul
