## Inability to communicate

I came to a realization recently. The biggest problems liberals have is their inability to communicate. Radicals on the far left run places like Google, Youtube, Apple, and more. They talk a lot, but they are not communicating. There is a difference. Communication comes when both parties listen. My entire life I have listened to liberals. I have expressed an opinion and their responses prove they are not listening. Which is why there is no communications. I tested if it was me, and discovered I can communicate with a vast array of people. I am capable of listening to them. They do not listen back. Do they see me as a third class citizen not worthy of being listened to? Are they so stuck up and full of themselves that they will not listen to anyone who does not regurgitate what they want to hear? I don't know. I do know that they want to be heard, and they refuse to return that respect to others.

A great example of this is the latest update to the months long drama with Youtube. Let us recap what happened. Youtube demanded all of our comments be turned off because someone might say something offensive to one of our children. We monitor the comments and remove all of the offensive ones. Youtube never once paid us for that work. Youtube treated everyone like a criminal and we told them they were being radicals on the far left. A couple of days later our channel was demonetized. The reason was Reused Content. Which is a complete lie. What makes that worse is Youtube left no avenue to communicate. They told us nothing about how to resolve this. All we were told was in 30 days we could re-apply. We did so. We also held all comments until we could read them and approve them. We do this once a day even though Youtube still does not pay us for that work. After the 30 days we reapplied. We were then put in Awaiting Further Review with no reasons, no communications, and no path to resolution. We communicated with Youtube. We left them feedback on pages almost every day for two months.

Finally the day I am writing this column we got a response. We were denied monetization for the false accusation of Reused Content. AGAIN! We have to wait 30 days to reapply again. Youtube still has not provided any reasons for their discrimination. I suspect because we are

Christians and conservatives. I suspect they are violating the US Constitution. It also goes back to Youtube's continued failure to communicate. They continue to make money off of our hard work. They demand we pay everyone associated with our videos and they refuse to pay us. Their lack of logic is dizzying. This is how liberals continue to abuse their power. This is why someone needs a better video sharing site. This is why liberals in power harm diversity. I will keep playing their rigged game and keep exposing them as liars, greedy liberals, and pure evil. I will keep leaving them feedback daily.

God bless,  
Paul Bury

## Prayer and Faith

The power of prayer and faith are huge in our lives. We have ups and downs in life. We have mountain tops and valleys. There are plenty of times we want to stay on the mountain top and not move forward. We must move forward. We must develop, learn, and grow. We must mature past our current understanding. There are so many things in this world that will vie for our attention. There are so many chores that need to be done. I know how important it is to find time to pray. I know how important it is to have faith. We all make the choice in each and every situation to trust God or arrogantly act like we know better. We are not fooling our fellow humans. We are not fooling our friends or family. We are not even fooling ourselves. We are definitely not fooling God. He knows our hearts. He knows our deeds. You might think you got away with something here on Earth. God still knows, and God will still judge each of us for what we have done.

Having a busy life can create a self reliance in some people. Having a busy life can have us forget about our need to talk to God on a daily basis at a minimum. I know some people who keep their prayers open all day long. They do not finish a prayer because they expect to come back and talk to God some more later. Are you one of those people? I know others who make many short prayers throughout the day. They let God know they are constantly thinking of Him. Both of these camps are constantly reminding themselves to pray. It does not matter if it is a car trip, hearing about someone being ill, or praying for our leaders. Whether you agree with whomever is in power at the moment or not you can still pray for them. We pray for certain US presidents more than others because we want them to turn to God, and seek his guidance. Some US presidents do that, and some don't. There are also local leaders, police, military and more that need your prayers. We welcome prayers from anyone in Family Friendly Gaming Universe. Again that goes back to agree or disagree - it does not matter. Praying for them and us is needed badly. Will you do it? Do you currently do it?

Faith is where we put our trust in God. We believe He has the best in store for us. Even when we are being pruned. Even with things are not going our way. We still

trust God has a plan. We trust God's plan is in our best interest. We accept areas in our lives that need to grow, develop, and mature. We trust God does not give us more than we can handle. We put our faith in God and He does not disappoint. Human can, have, and will disappoint. God's standards stay the same. We do not have to try and keep up with what words can and cannot be used at this time. How often do you think about faith? How often do you exercise your faith? Faith is something that must be practiced and exercised. The more you do it the easier it becomes.

God bless,  
Yolanda Bury

## MISSION STATEMENT

Family Friendly Gaming (FFG) was created in March of the year of our Lord 2005 as the first ever Christian video game magazine. The goal of Family Friendly Gaming is to report on video games from the family view point. Family Friendly Gaming takes a fair and balanced approach to all news, previews, reviews, interviews, features, and other articles found within. The secular video game media reports mainly on the most morally bankrupt games and call those games good. The major secular media reports on the bad side of video games mainly. Most other Christian media outlets claim video games turn the player into a zombie, or they completely worship video games. Family Friendly Gaming reports the good, and bad side effects to video games. It is the belief of the owners that readers are smart enough to come to their conclusions without those in the media handing opinions to them. Those of us at Family Friendly Gaming believe by giving you the facts, you can decide for yourself. There are plenty of really good video games on the market that teach wonderful lessons. Both inside the Christian video game market, and from non-Christian video game developers. Family Friendly Gaming seeks out these video games to bring them to your attention. Since it is unknown before playing a game how family friendly it is; it is possible that this magazine will preview a game, and then the review will expose problems previously unknown. Family Friendly Gaming promises to always ask the question: "how God feels about certain video games." God's opinion on the matter is more important than any mere mortal. Which is why the rest of the industry does not influence FFG.

The Sound Off section is where you the reader/emailer is heard. What you have to say is put in this section for all the readers to see. Of course certain content is edited for appropriateness issues. ## Thank you

Thank you for all that you do with Family Friendly Gaming. We love your magazine and website. We also found your Twitch stream and are thankful for the games your family is playing. Keep up the amazing work. Thank you, thank you!  
- Remy

{Paul}: Remy,

Thank you for your kind words of encouragement. They mean a lot to us. Especially when we face haters, death threats, and those that do not want us doing what we do. Your encourage-

ment came at exactly the right time. Thank you so much. :)

## The BIG ONE FIVE OHHHHHHH

Any big plans for issue #150 of Family Friendly Gaming. I know

you guys made massive changes for issue #100. Some things changed back after a couple of issues, but others kept going strong.  
- Kim

{Paul}: Kim,

First and foremost thank you so much for being a loyal and faithful reader for so long. We appreciate you and your support. Your excitement over issue 150 has got me excited as well. So I have already saved off issue #150 and as I get time I rework things. I have been going over pages

with Yolanda and we discuss what different kinds of things we can do. I can tell you for certain there will be at least one feature that will be retiring and a new one coming in. Beyond that we are looking at everything and coming up with new ideas for issue #150. We do not redo the layout that often. Every fifty issues we examine what we have, are doing, and try and come up with new and interesting things.

Please be patient and after issue #150 let us know what you thought of it please. We shake things up and not everything is accepted. Some things have to come back because we listen to you - our audience.

## Light Side of Gaming

Thank you for the Light Side of Gaming articles. Family Friendly Gaming has been great for over a decade. I don't know how old Family Friendly Gaming is. How old are you? I love how Family Friendly Gaming looks for good in such a vile industry. My parents won't touch video games because of all of the evil there is in it. I love how you are showing good aspects of the video game

industry and spreading it on your rather large pulpit. Do you take donations?  
- Brian

{Paul}: Brian,

So glad you are enjoying the Light Side of Gaming red news articles. We also appreciate your kind words of encouragement. When we first started we were constantly finding good things to talk about in the video game industry. Then we faced discrimination based on our religious and political viewpoints. We pointed out those who claimed to celebrate diversity were actually attacking it. We also spent a lot of time focusing on the corruption within the video game industry exposing it because the worldly gaming sites refused to do the right thing. At

some point recently I felt like going back to basics and bringing back the positive side of things. Which is where the Light Side of Gaming came into play. As we continue to get ideas we will keep that series going.

In March of 2005 we started Family Friendly Gaming. Before that we did a cool little fanzine called Wyldcard's Way. That

# SOUND OFF Continued

started in like October of 1999 I think it was. Wyldcard's Way was quarterly, and we learned a lot from doing it.

Yes we do take donations. There is a donate button on our website, and on the How you can Help Us page. I highly recommend the How you can help us page. That gives a lot of great ideas for ways all ya'll can assist us. Click here for the How you can help us page.

## Twitch Channel

Your Twitch channel is amazing. Such an upgrade of your Youtube channel. Thank you for making a Twitch channel and getting so involved in the community. It is great to see you guys in the videos.

- Lisa

{Paul}: Thank you for your kind words of encouragement Lisa. We appreciate them. We have been working hard learning Twitch and getting better at streaming videos. As I write this we are almost to affiliate status. We just need to get a few more viewers per average per stream and keep it for thirty days to get there. Then we can start to

get paid there. We have also not given up on Youtube. We leave them feedback every single day. If they think we will just give up they are sadly mistaken. We need more people watching our Twitch streams here:

[https://www.twitch.tv/family\\_friendly\\_gaming](https://www.twitch.tv/family_friendly_gaming)

Please prayerfully consider watching some of our streams.

## Video Game Lies

I just finished reading Video Game Lies on my Kindle. What an amazing book. This is the best video game related book I have ever read in my entire life. Thank you for writing it. I am telling all of my friends about it because they need to read it immediately.

- Stan

{Paul}: Stan,

Thank you for awesome words of encouragement. They warm me to the bone. I love hearing how my writings have impacted the lives of others. That is my prayer every single day. That God uses my words and deeds to reach others for His glory, and His

kingdom. I make between one dollar to three dollars per book sale. I am not getting rich from them. I don't even make enough to write full time. I have so many other ideas to share too. Lord willing God will provide when His timing is right.

## Before the Fall 2

This topic is just too important to end after one column. Before the Fall needed a second part as well. How many of ya'll think about the consequences of your actions? More people would treat their fellow humans better if they thought about the consequences of their actions. The same goes for corporations and companies. If they thought about the consequences of a certain action they should come to a better action. **2 Kings 19:22-23** *Who is it you have ridiculed and blasphemed?*

*Against whom have you raised your voice  
and lifted your eyes in pride?*

*Against the Holy One of Israel!*  
23

*By your messengers  
you have ridiculed the Lord.  
And you have said,  
"With my many chariots  
I have ascended the heights of the mountains,*

*the utmost heights of Lebanon.  
I have cut down its tallest cedars,  
the choicest of its junipers.*

*I have reached its remotest parts,  
the finest of its forests. Too  
often when people go bragging  
about their rebellion against  
God they do not consider whom*

they are ridiculing and blaspheming. Instead they are being selfish, and self-centered as they focus on themselves.

Look at all of these "pride" events where selfishness and rebellion are being gloried as something good. They seem to think God will forever allow such evil to exist in this world. They assume God will never punish them for their open rebellion. **Job 20:6-8** *Though the pride of the godless person reaches to the heavens*

*and his head touches the clouds,  
7 he will perish forever, like his own dung;*

*those who have seen him will say, 'Where is he?'*

*8 Like a dream he flies away, no more to be found,*

*banished like a vision of the night. For me it is a warning sign to avoid being rebellious against God. For me it is a cry for help. I do not want them to perish for believing in the lies of the devil. I do not want them to burn forever in the lake of fire. I want them to turn from rebellion against God. **Job 33:16-18** *he may speak in their ears**

*and terrify them with warnings,  
17 to turn them from wrongdoing  
and keep them from pride,*

*18 to preserve them from the pit,  
their lives from perishing by the sword. Someone who does not care encourages them in their rebellion. **Romans 1:26** *Because of this, God gave them over to shameful lusts. Even their women exchanged natural sexual relations for unnatural ones. 27 In the same way the men also abandoned natural relations with women and were inflamed with lust for one another. Men committed shameful acts with other men, and received in themselves the due penalty for their error.**

God Bless,  
Paul Bury

## PRAYER

Jesus,

I know that I am a sinner and need Your forgiveness. Nothing I can do of my own power will give me true joy. I believe that You died for my sins. I want to turn from my enslavement to sins, and repent of them. I now invite You to come into my heart and life. I want to trust and follow You as my personal Lord and Savior. I welcome the transforming power of the Holy Spirit. Amen.

# HELPFUL THOUGHTS

There are wise decisions we make in life and there are mistakes. Family Friendly Gaming wants to share some thoughts that can be helpful. Maybe this will bring more joy into your life. Maybe it will allow you to have better physical health. Maybe it will help you reach a better mental, psychological or emotional state. The goal of each column in each month is to share some helpful thoughts to you and your family.

## Saving

Someone wise once told me that I cannot take advantage of a really good deal if I have no money to do so. This seemed like such a no brainer but a lot of people miss out on opportunities because they do not have money to purchase the good deal. That will bring us into our topic this month of saving. There are a variety of different plans people have. We will go over the main one used here at Family Friendly Gaming. Save money for a rainy day. You never know when something will break. You never know when you will need to repair something. You never know when you will need some financial resources to pay for an

emergency.

How do you save? It comes down to having some willpower. Work hard to avoid spending all of your paycheck each time you get one. The less you spend the more you will be able to save. You can always have a goal of saving to a certain number. Maybe you want a new vehicle, then take the time to save as much as you can when you have the money. If you get any kind of bonus be sure to save a portion of it. Different families will have different amounts they can save. There are so many frivolous things we waste money on. There are so many less expensive ways to do things. We all make the choice to spend more or spend less. We all choose what to do with our financial resources. Which path will you take? Enjoy expensive food at restaurants or work on growing your own garden? There are many degrees between those two as well.

Our editor in chief remembers savings from his past: "I had all these friends that ate out or bought a lunch at school each and every single school day. I brought in a sack lunch and was content with what I ate every single day. It was not hot, but I was willing to sacrifice for what I wanted. New tapes

came out for artists I enjoyed listening to. I had the money to purchase those tapes and enjoy the music I wanted to hear. A lot of my friends were baffled I had the money to do so. Some of them even expected I give them my long saved purchase so they could enjoy it. I told them they never shared their hot meals with me. We each choose where to spend our resources. They chose where to spend theirs, and I chose where to spend mine. It actually insulted me that they expected me to let them spend their resources on what they wanted and then take from me because I saved my money."

Do not be jealous of someone who sacrifices for their future. Do not expect to take from those who are not enjoying the high life of eating out all the time. Do not expect to use the government to take from those who were frugal with their financial resources. Learn from them. Try and emulate them. Ask them questions about how they do it. Chose the path that allows you to have more financial peace of mind. Encourage others to take the path of saving as well. You never know what opportunity will come your way, and then you can decide if you want it or not.

### Tour de France Season 2019 Releases

The Giro d'Italia has just come to an end, and the next major race is the Tour de France 2019, with the video game adaptation due for release June 27 on Xbox One and PlayStation®4. To keep cycling fans happy until then, Bigben and Cyanide are pleased to present what's new in the 2019 version of the official game, whose cover will feature BORA-hansgrohe team cyclist and three-time world champion, Peter Sagan.

Tour de France 2019 builds on the solid foundation that made this long-running series such a success by creat-

ing an enhanced experience with innovative new features.

Race as one of the game's 761 cyclists in the 21 faithfully recreated stages of the Tour de France 2019 that celebrates the 100 year anniversary of the Yellow Jersey, including this year's official Tour de France route. With completely reworked AI, the peloton behaves much more realistically: your positioning and the choices you make are crucial if you are to lead your team to victory.

Two new game modes have been added to the 2019 version:

- Online multiplayer mode: for the first time, you can pit yourself against other cyclists over short races in

an online multiplayer mode for up to four players simultaneously. For even more of an adrenaline rush, the challenges are back this year, so you can experience the thrills of descents and the intensity of sprints! It's your chance to achieve the best times and climb your way to the top of the on-line rankings.

- The world championships: in this new mode, players can lead a team or national team. If your cyclist's results are good enough at the

end of the season, he may be selected to represent his country in the World Championship to try and win the legendary rainbow jersey!

In addition to the Tour de France, players can compete in four other official races in Tour de France 2019. The legendary Tour of Flanders makes its debut alongside other renowned races: Paris-Roubaix, Paris-Nice and the Critérium du Dauphiné.

### Gear.Club Unlimited 2 1.4 update

Since its release last December, Gear.Club Unlimited 2 players have been able to burn rubber on 1800 miles of tracks. Behind the wheel of the most beautiful cars from the top manufacturers, drivers have been enjoying a diverse range of environments, such as snowy mountains, wooded valleys, desert roads and heavenly coasts! With the arrival of the 1.4 free update, it's now time for some cool additions, see the full list of features and changes below.

New features:

- New camera view:
  - On top of the three current camera angles available in the game, discover the new breathtaking “bumper” view, specially added in this update for a more immersive driving experience!
- New radio stations:
  - Many players requested more variety in the soundtrack and we heard them! It will now be possible to listen to the radio and even to change it while racing. Two radios are also added to the game; Rock and Electro, alongside a third one called Shuffle, which is a mix of both!
- New horn feature:
  - 16 horns are now available. You will have the choice between the Cucaracha, the Train, the Cavalry and many more!

Game changes:

- Race-eligible cars are now displayed in the selection screen before starting a race. Car models available to purchase and improve are also highlighted in this menu.
- The AI trajectory has been revamped, offering a better adaptation to

player's behavior.

- It is now possible to change your driving style in the “Career” mode (Arcade or Simulation). Swapping between those two will also be possible during the race.

As a reminder, Synchronous Online Multi-player is available since the 1.3 update and offers random matchmaking allowing drivers to compete against up to 8 players (this option requires a subscription to the Nintendo Switch Online service).

In addition to this free update, three new DLCs will also be available on June 20th. Ever dreamed of driving a police car? It's now possible! Seat behind the wheel of the Ford Mustang Police and blast the sirens as you reach the pole position!

### The Farming Simulator League game mode Releases

The Farming Simulator League game mode, the official version of the competitive scene for Farming Simulator 19, has just released as part of a free update to the game.

Players will need to register their teams of three on the official website, then download the mode to play and test it. GIANTS Software are eagerly awaiting feedback from the most competitive Farming Simulator players out there, so the mode can be continuously updated ahead of the debut full-scale tournament at FarmCon 19, July 27 & 28.

GIANTS is greatly looking forward to seeing how players react to and enjoy this new mode as Farming Simulator enters the esports scene in earnest. ### Football, Tactics & Glory update Creative Freedom Available Now

Creoteam are proud to announce the launch of the Creative Freedom update for Football, Tactics & Glory; available now to players worldwide. The turn-based strategy football game is getting a big free update allowing a whole host of edits to footballers, clubs and whole countries so players can recreate real leagues or form their own fantasy worlds. Other improvements include: a new penalty system, Hotseat tournament mode in which you can play a whole season with any number of friends (1-32 players), 3-D grass, revamped game sounds, additional countries and many bug fixes and improvements.

With the Creative Freedom update create the league and team of your dreams through altering every aspect of the player, team, league or country customisable down to the smallest detail. Specific weather conditions can be attributed to each country to create distinct playing environments; for example, it's harder to pass in the heavy rains of England or even more difficult in the Russian heavy snow. Player faces from each country are created via templates which you can adjust by setting different probabilities to provide realistic regional appearances. The developers have also added in a feature whereby you can even import your own practically limitless list of names, defining the names given to players of a whole country. For example, if you want all the players in a country composed of names of football legends, simply import your dream list and the game will assign the names for you!

Every tournament in Football, Tactics & Glory can be renamed so you can play to win the World Cup or compete in the first ever Galaxy Cup. Team strengths can be adjusted to manage the balance of the league you're playing in. Extra creation options have been given providing more team variations with 100 colors now available instead of 10, shirt templates have increased from 30 to 82, logotype patterns have more than tripled from 36 to 109 and now the Goalkeeper's kit can be customised. On top of this, every part of the player can be modified via their attributes, skills, specializations and even birthdays. Updates have been made to the game's already impressive face editor providing greater editing possibilities.

“Bringing turn-based strategy and tactics to a football management genre makes it appealing to everyone, not just hardcore football management aficionados”, said Andrey Kostyushko, Managing Director at Creoteam. “Increasing the customisation options provides players with new ways to enjoy the game. Players who had access to the beta version have created so many wonderful mods and we are thrilled to be able to give them this creative freedom.”

### VR game Cave Digger's upcoming major update announced

Cave Digger's alternative western world adventures will expand as Finnish indie studio Mekiwi announced they are working on a major update for PSVR and PC VR. A teaser released with the announcement shows that the devs are aiming for a large game world expansion, removing the original game boundaries like the in-lift restricted game area and timed levels. The update's exact release dates for different platforms aren't confirmed yet but the studio aims it to be ready towards the end of Q3 this year.

The update gives the player the freedom to explore an abandoned mining town and its new mines, with a much larger set of mystery events and paths, which lead to different endings.

Of the decision to continue expanding Cave Digger's mystery-filled game world, Mekiwi VR Producer Jani Kaipainen said, "We felt the game was not finished yet. We had many ideas in our mind and many also came from

the community. As we got good feedback for the Elevator part we decided to move on and develop a massive update with many, many new treasures and mechanics. Nevertheless, we want to show to those who have been supporting us and future players alike that we care about our

community's voice. Many YouTubers and other influencers have also been very helpful, which we are also really grateful. Also, the Discord channel is active and you are welcome to join"

## In The News Continued

Originally Cave Digger released exactly a year ago as a free version on Steam, followed by a DLC named "Riches" a few months later while the free version plus Riches released as a unified title on Oculus and Viveport stores. # WE WOULD PLAY THAT!

There are all kinds of cool family friendly video game ideas out there. This column features ideas of video games we would play. We hope games like these are created in the near future. Can you make it happen?

There have been plenty of TV game shows that have never made it to the video game format. Anyone out in Family Friendly Gaming Universe remember Supermarket Sweep? That TV game show was a lot of fun to watch. Imagine being able to play it in a video game. How cool would that be? The technology is there especially with VR to put people right into the TV game show. It would be an amazing experience to run down the aisles with a kart trying to find certain items. Imagine at the end being able to pick what we actually

get to take home.

Know what would make a Supermarket Sweep video game even better? Imagine if you could actually win what you find in the video game. Imagine if we were sent the winning items you picked in the video game. How cool would that be? There would definitely have to be limits on something like that. Maybe it would only be for online streamers who are playing other human characters. What I am talking about here is a merging of the video game world and the TV game show world. Think about playing these games and actually winning things. Think about Wheel of Fortune and Jeopardy. The dollar amounts would obviously have to be reduced with thousands to millions of players versus a few. I could accept that. I would love to test my trivia and win five or

ten dollars for playing a TV game show in the video game format.

Entire communities could grow and develop thanks to video game versions of TV game shows. If there are enough different questions in these games then players could not easily cheat. I expect if you put real money on the line someone will find a way to cheat the system so they can win the maximum possible. So every winner gets a cool down period. Win a game and you must wait an hour to play another one for example. Another idea would be winners only play other winners. That way losers have a better shot at winning going forward. Have a ranking system where players must play other players close to their skill level.

Would you play a game like this? Would you feel it is too much like gambling? What other problems could you see from this?

## Ruth 3:10-11

10 “The Lord bless you, my daughter,” he replied. “This kindness is greater than that which you showed earlier: You have not run after the younger men, whether rich or poor.

11 And now, my daughter, don’t be afraid. I will do for you all you ask. All the people of my town know that you are a woman of noble character.

# REVIEWS

Welcome to our reviews section. We have a couple of rules when it comes to our reviews. The reviewer must give an honest accounting as to why he/she liked or disliked something. No fanboy reviews allowed here, or at the very least they are discouraged (after all everyone has their own personal biases, likes, and dislikes). Everyone also has different tolerances, and weaknesses - we strive to keep that in mind in our reviews. We have been burned ourselves by reviews saying a certain game is great, only to be greatly offended by that game. Reviewers must be kind in their reviews. A game may be horrible, but there is no need to degrade the developer, publisher, artists, etc. There is also no need for name calling.

We review video games on five separate criteria: graphics, sound, replay/extras, gameplay, and family friendly factor. Review scale can be found here. The editor in chief coordinates reviews to have as much cohesion as possible. We are very open about the way we review video games. Each section starts with a 75 score, and can earn or lose points based on the content of the game, using our grading scale (found on the website).

Parents, please do not take any of our reviews as gospel. Different people are offended by different things. We work hard here at Family Friendly Gaming to discern the good from the bad in the teachings of each different video game. What may seem harmless to our reviewer(s), could be a big deal to you. We encourage you to spend time with your children and investigate each video game yourself. Each review is written with you in mind, and we try to mention each problem we find. We are not perfect, and miss things from time to time - just as the ESRB does. The ESRB rating is merely a start, and since they ignore many of the moral and spiritual factors important to parents all across America, we do our small part to fill that huge void. We are a small ministry and your prayers are so very important to us.

## Phoenix Wright Ace Attorney

SCORE: 59

Did you read my last Phoenix Wright video game review? It was in issue #144. I am now reviewing Phoenix Wright Ace Attorney on the Nintendo DS. I did not like this one as well as the last one I played and reviewed. You can probably tell that I will be playing and reviewing all three of the Phoenix Wright Nintendo DS video games that came out in the United States.

Why did anyone like this franchise? They must have for this many games to be released. The issues families will have with Phoenix Wright Ace Attorney are blood, violence, lack of attire, enticement to lust, sexual comments, ghosts, psychics, and more. There are certain things in Phoenix Wright Ace Attorney that did not really belong. Like

what? The breasts bouncing around is a perfect example.

Players can save in the middle of trials, and after a chapter has been completed. Expect lengthy monologues in Phoenix Wright Ace Attorney. We then get to cross examine the witness trying to find where they lied.

At times we are a detective and other times we are an attorney. I hated having to go to all these different people and talk to them. It can take awhile to get the next part of the story going

in Phoenix Wright Ace Attorney.

Phoenix Wright Ace Attorney lets us present evidence and bluff on details. The judge will take away points if we present the wrong thing at the wrong point in time. Sometimes we need the help from a ghost to help us get through. We lose the trials if we present too much of the wrong evidence in Phoenix Wright Ace Attorney. Then you will have to go back to the last save.

If you are looking for a pseudo law based video game that is only for family members thirteen and older then you might enjoy Phoenix Wright Ace Attorney. I did not. I thought certain evidence exposed certain things and Phoenix Wright Ace Attorney did not. The game is expecting certain things at certain points in time. There can be some clues here and there. At times Phoenix Wright Ace Attorney gets frustrating.

## New Super Mario Bros U Deluxe

SCORE: 73

I am very thankful Family Friendly Gaming had enough money to purchase New Super Mario Bros U Deluxe on the Nintendo Switch. It cost FFG \$45 dollars before tax to purchase a brand new copy of New Super Mario Bros U Deluxe. I knew this game was rehash. I knew New Super Mario Bros U Deluxe adds little to the Wii U version. I also wanted to Twitch stream this game.

New Super Mario Bros U Deluxe includes New Super Mario Bros U and New Super Luigi U. We can also play as Nabbit, Toadette and get a power-up that allows us to play as Princess Peach. Four family members can enjoy New

Super Mario Bros U Deluxe at the same time. You will need enough controllers though.

I enjoyed most of my time with New Super Mario Bros U Deluxe. There were some frustrating moments. If you get stuck you can watch Luigi show you how to beat the level. Then you can do it yourself or just go on to the next level. I showed this in my Twitch streaming of this home console video game. Did you enjoy watching it? I had a blast doing it.

U Deluxe are interesting and unique. Some cool enemies can be found in New Super Mario Bros U Deluxe. If you work on all of the content then you might find your money well spent on New Super Mario Bros U Deluxe. I find it a bit overpriced.

There are one hundred and sixty courses in New Super Mario Bros U Deluxe. Finding all the coins will unlock some of those levels. Nintendo continues their add just a little bit of content to their games and expect full price at retail. I would welcome New Super Mario Bros U Deluxe more if it was selling for twenty dollars brand new.

## Jump Force

SCORE: 55

The failures of the PR and Marketing firm representing Jump Force should come as no surprise to Family Friendly Gaming Universe. They know we will call them out on their plot holes, junk, and more. There are forty characters in Jump Force. Most of them must be unlocked by playing the story mode through chapter three. Once you do that you have no need to continue the story mode.

The issues families will have with Jump Force are blood, violence, lack of attire, enticement to lust, and more. We get Japanese voices for the characters from the fifteen different mangas. Jump Force is not very balanced and more of

a button spammer than any real strategy. There are certain characters that have an advantage over others. Building bars and using super powerful attacks is important in this game. Unless your opponent blocks the attack.

Jump Force is less well done than Dragon Ball Xenoverse. Jump Force feels very similar to Dragon Ball Xenoverse in terms of how the main area is set up. The three on three fighting in Jump Force reminds me of that J-Stars Victory VS+ mess of a video game. We swap characters in and out in Jump Force pretty quickly with a tap of the R2 button.

Hold R2 to power up your super powered attacks. Yes it is easy to make a mistake there.

Did you catch the Twitch streams we did of Jump Force? In that last match my dad was actually competition for me. I won't spoil it for you

though. You can watch it to see who won. If it is no longer on Twitch with VOD, then you can check it out on Daily Motion, and eventually on Youtube. Neither of us actually found Jump Force to be fun though.

I am thankful Family Friendly Gaming purchased Jump Force on the PS4. This game is a hot mess and only worth five to ten dollars brand new in my opinion. It is cool to see different characters from the past. There are plenty of creepy characters in Jump Force like those from Death Note. The main audience for Jump Force is the super fan-boys of manga.

# Naruto to Boruto Shinobi Striker

SCORE: 55

I had trouble classifying Naruto to Boruto Shinobi Striker. I finally decided to land on an objective based fighter. We must always be online while playing Naruto to Boruto Shinobi Striker on the PC, PS4, or Xbox One. Even when we play single player we must be online. Why? The English voice acting reaches older family members who prefer that.

Naruto to Boruto Shinobi Striker is heavily influenced by Xenoverse. We can have a variety of different mentors in this game as well. There are a lot of cosmetic changes we can make in Naruto to Boruto Shinobi Striker. There are plenty of different ninjutsu attacks we can learn in Naruto to Boruto Shinobi Striker.

There are not a lot of people still playing Naruto to

Boruto Shinobi Striker. The ones that are, well they are so good that it is no fun to play this game. The issues families can have with Naruto to Boruto Shinobi Striker are lack of attire, enticement to lust, violence, bad language, demons, and more.

The controls in Naruto to Boruto Shinobi Striker are

not great. The knock back in Naruto to Boruto Shinobi Striker is very annoying. It feels like the person who gets the first hit in Naruto to Boruto Shinobi Striker will wind up winning. I like the Naruto franchise. I do not like Naruto to Boruto Shinobi Striker. The load time in Naruto to Boruto Shinobi Striker is insanelong. Why can't we play on disc offline? That would be much faster and much better.

I cannot recommend Naruto to Boruto Shinobi Striker to families. I cannot recommend Naruto to Boruto Shinobi Striker to hardcore gamers either. This game shows the entire industry what is wrong with these kinds of games. Naruto to Boruto Shinobi Striker is too similar to other recent Bandai Namco video game releases.

# VIDEO GAME LIES

BUY IT NOW RIGHT HERE

## Deracine

SCORE: 50

I did not know much about Deracine before Family Friendly Gaming purchased a copy on the PS4 VR. I am thankful Family Friendly Gaming purchased

a copy of Deracine. This is a creepy annoying video game that could fall under the horror genre. We play as a fairy in Deracine. This virtual reality video game has an odd story-line that involves death and time travel.

The movement system in Deracine is weird. We point somewhere and jump to it. This means when we need to move somewhere quickly it can make you ill. At least it made me ill while I playing it. I am also not big on the story-line and seeing this game be so encouraging of suicide. I do like the concept of laying down our lives for others just like Jesus Christ did for all of us.

We interact with a

few items in Deracine. There is a goal to achieve in each of the chapters in Deracine. I was creeped out the visuals and audio in Deracine. The character that prays to fairies is pivotal in the storyline. Her praying to a spiritual character is strange. The religious content in Deracine does not encourage or support what the super majority of Americans

claim to believe. Why can't Sony be supportive instead of controversial? When will they be inclusive of Christians?

I did not have fun playing Deracine on the Playstation 4 Virtual Reality headset. I am baffled as to why this game was even created. There is some heated debate here at Family Friendly Gaming about the rating of Deracine. Some believe Deracine should be rated 'M' for the macabre, and morbid content that means only seventeen and older only can play this game.

I hope to never see Deracine ever again. This game was not a pleasant journey. I put no value on Deracine at all.

I believe our purchase can help families avoid wasting their money on this game again. The two rings to sap life from characters and objects felt wrong. Going back in time to fix things felt okay though. Save your money and avoid Deracine at all costs.

## Shenmue 1 & 2

SCORE: 52

I am extremely appreciative of Family Friendly Gaming for purchasing a copy of Shenmue 1 & 2 on the Playstation 4. This Dreamcast emulated pair of video games is also on the Personal Computer, and Xbox One. Sega is the publisher and D3T is the developer of Shenmue 1 & 2. If you missed these games on the Dreamcast then you might be interested in them on the modern consoles and PC.

I remember these games from back in the day. They were the talk of the town due to the story, all of the people, and realistic feeling areas. Shenmue 1 & 2 have not

aged well though. Man things have gotten better since then. In fact the conversations are laughable now. The dialogue is cringy and the graphics are certainly showing their age. The Quick Time Events (QTE) feel boring.

The issues families will most definitely have with Shenmue 1 & 2 are violence, lack of attire, enticement to lust, gambling, eastern religious content, bad language, sluggish controls and more. Expect a ton of sound byte voice acting in Shenmue 1 & 2. We can sprint with the R2 button in Shenmue 1 & 2. Sadly we keep getting stopped for some new story scene to unfold. Shenmue 1 & 2 lets us make choices. Give money to someone for good luck or not. Do we arm wrestle someone and lose money or not. There are a variety of very unfriendly

characters in Shenmue 1 & 2. What did we ever do to you? Why are they so hostile there? Whomever wrote these games really has a low opinion of certain areas and cultures.

The animations of the walking in Shenmue 1 & 2 feels wrong on so many levels. The real time events were one of the few things that made Shenmue 1 & 2 interesting. I do not feel Shenmue 1 & 2 is worth the price of admission. It is probably cheaper to buy this than a Dreamcast and the original games. I recommend families pass on Shenmue 1 & 2.

# Starlink Battle for Atlas

SCORE: 63

Peter had all he could take of Starlink Battle for Atlas on the Nintendo Switch. His last Twitch stream which will eventually get on our Youtube channel explains why he is done with that game. I realized we had never done a review on it. This is a great example of what happens when a corrupt video game company does not provide us a reviewable copy. We forget about you and the review comes out around a year later.

Starlink Battle for Atlas is a space shooter with planetside activities that reminds me of One Man's Sky. Like that game Starlink Battle for Atlas also gets boring really quickly. We wind up doing a lot of the same things over and over again. We must financially invest heavily in Starlink Battle

for Atlas to be able to access all of the content. Prices for Starlink Battle for Atlas did plummet pretty quickly. Which is a good thing in my opinion.

One of the problems I have with Starlink Battle for Atlas is the barren worlds. We find a NPC here and there on worlds in Starlink Battle for Atlas. After that we are go-

ing over a lot of nothing. The toy to video game genre was on the way out when Starlink Battle for Atlas was released. We questioned its potential for success here at Family Friendly Gaming. Looks like we were right again. This genre may resurface again in the future. It may not.

We destroy a lot of objects and creatures in Starlink Battle for Atlas. There are a variety of different weapons that can be purchased and put on your space ship. The story-line could have been better in my opinion as well. I see Starlink Battle for Atlas as a major missed opportunity.

FFG purchased the Switch version of Starlink Battle for Atlas for the Starfox content. Starlink Battle for Atlas is a big missed opportunity.

# Eureka Season Five

SCORE: 60

I finally finished off the Eureka television show with Eureka Season Five on DVD. This show had so much potential and charm. The show was canceled, and the ending thankfully leaves it open to a return. SPOILER ALERT! Although there are some questions about the final episode. How was that guy from the past so young in the current? Did he time travel again? Was that some relative? Was it a clone? How did he get all that money? The ending of Eureka Season Five left more questions.

The issues families can have with Eureka Season Five are violence, blood, lack of attire, enticement to lust, sex outside of marriage, promotes the global warming lie and

more. It took me nine hours and twenty-three minutes to watch Eureka Season Five from start to finish. Eureka Season Five is shorter than other seasons which is a real shame. Plenty of characters from the past came back for the final episode to say goodbye.

Eureka Season Five focuses on one really interesting concept. What is reality? The crew from the Astraeus find this out first hand. They are intercepted and put into a Matrix like simulation. When they get out they must adjust to the changes in what they perceived as reality. On top of that someone is killed in the virtual reality simulation. They are brought back into a manufactured body. Eureka Season Five deals with some deep moral and ethical issues.

I wish Eureka Season Five spent more time exploring these moral and ethical issues. Instead Eureka Season Five feels very rushed. Clones being used

to replace people is a part of the story arc in Eureka Season Five. It shows how bad things can get if we let science run amok on our culture. I really like how Eureka Season Five teaches that lesson. It may not be intentional.

Expect plenty of humorous moments in Eureka Season Five. I noticed at the end that what was going to happen became predictable. Especially when characters would discuss how something would go wrong. It made me realize Eureka Season Five had become predictable. It was still fun. I wish Eureka Season Five had better morals and ethics.

I had to give him a plug since he recorded so many videos of Barbie Jet, Set & Style!.

We help out a diverse cast of women on our way to building a fashion show in Barbie Jet, Set & Style!. Women need hair, make up, and wardrobe improvements in Barbie Jet, Set & Style!. I commented multiple times on how you do not do certain things. A great example is using an iron on wet hair. Barbie Jet, Set & Style! does teach service, and helping others.

Paul had a little fun in

those videos giving the women wild colors with the makeup. Girls can come up with the right tones and colors that would make these women look better. Or you could do what Paul did and have a laugh at how wild you can make them look. Barbie Jet, Set & Style! is very encouraging whichever path you take. I love how positive Barbie Jet, Set & Style! is.

The graphics in this Wii game are nice. The music is fun to listen to. There are plenty of things to do in Barbie Jet, Set & Style!. I believe Family Friendly Gaming got its moneys worth out of this girls video game. The controls work well. I am still not pleased with certain unrealistic aspects of Barbie Jet, Set & Style! though. Since I am a certified cosmetologist I recognize these things.

I am glad THQ published Barbie Jet, Set & Style! on the Wii. I am pleased Game Machine Studios developed Barbie Jet, Set & Style! on the Wii. Barbie Jet, Set & Style! is a game that targets girls. Real men gamers can play Barbie

Jet, Set & Style! and have some fun. My hubby showed that. I hope to see more games like Barbie Jet, Set & Style! in the future.

## Star Voyager

SCORE: 59

If you watched my video of Star Voyager then you know I am not very impressed with this 8-bit Nintendo Entertainment System (NES) video game. I still am not sure of what the point of Star Voyager actually is. We fly around and land at space stations. We can blow away aliens if we can find them and have enough fuel to engage them in combat. The controls in Star Voyager leave a lot to be desired. The lack of direction adds to that.

I found Star Voyager to be extremely boring. All of that space and there is nothing to do. Star Voyager bored me very quickly. Star Voyager feels more like a PC game than a NES video game to me. You might disagree. If you do then go ahead and send us an email.

Star Voyager is one of those games if there was some better explanation about what was going on I would be more interested in it. I really do not have the time to spend trying to figure out to learn everything about a game when it does not do a good job of encouraging me to explore.

## Tak The Great JuJu Challenge

SCORE: 60

Tak The Great JuJu Challenge might be a hand held hot mess in a lot of ways. This is a deep shame because I found a lot of interesting things in Tak The Great JuJu Challenge. The graphics in Tak The Great JuJu Challenge look good for a Gameboy Advance game. There is a lot of violence as we take out a variety of enemies. There is also lack of attire and enticement to lust issues in Tak The Great JuJu Challenge. The music can be catchy if you like those tunes.

Tak The Great JuJu Challenge includes too many cheap hits and places for the player to die. There are also obnoxious areas like the one I got stuck in. Watch the videos of Tak The Great JuJu Challenge on our website in the Videos section to see what that was about. I got frustrated and finally gave up on Tak The Great JuJu Challenge.

There are false gods and strange religious beliefs in Tak The Great JuJu Challenge. Magic is a part of this franchise. We swap players and enjoy some of the war on men humor in Tak The Great JuJu Challenge. I am glad this franchise has retired. - Paul
