Humor

Different people find different things funny. There are some universal things that everyone finds funny. For years we have been told that we are absolutely hilarious in a variety of things that we do. Thing is we are not trying to be funny. That is until just recently. We are trying our hand at some humorous skits and other things here and there. We have been pretty straight laced, professional, and honorable in a lot of things that we do here at Family Friendly Gaming. Trying to be funny will probably have some hits and misses. The video we did based on the Great Gun Debate 2022 is one of those attempts at humor. I am writing this after all of the recording, splicing, and processing has been completed. We learned so much through that process. We are continuing to learn as we work on different ideas for different videos. Will you find them funny? I certainly hope so. I honestly do not yet know the reactions we will receive. Will the angry psycho haters in the evil cancel culture come after us for doing a comedy skit? I don't know.

What I do know is we had a blast making that video. We had a blast working on the script. We were laughing and deleting clips along the way as we made mistakes. We are so far from perfect. We completely acknowledge that reality. I went through and cut out pieces here and there and was laughing at the content myself. I hope you get as much of a kick out of it as we did making that video. I am also praying that God gives us more ideas for more videos like that. I took a day off from the day job to be able to make that video. So I am also trying to find the time to make more videos like it. I hope ya'll will be extra supportive of that video. Lots of likes, comments, subscriptions and more. It would be great for lots of people to enjoy that video.

This is another area where we are constantly growing, developing and maturing. I write about this topic from time to time. We keep on trying new things. We keep seeing where else we can expand. We do not want to just sit here and do the same thing over and over again. We love expressing our creativity. We love showing different facets of our lives and personalities. Many react positively to what we share. There are those that react in a negative fashion. Different people have different likes, tastes, and things they appreciate. We want all to turn from their evil ways, repent, and have a relationship with Jesus Christ. We know that free will means some will not do that. Some will hate us for our choice to obey God. Some will hate us for the humor we put out there. We are not doing it to offend anyone in particular. We are just trying to have good, clean fun that the whole family can enjoy. If you like it great. If you don't then we will

keep working on it.

For me today is a wonderful day. I learned a ton of things. Peter and I had a blast working on this video. It was something different, and new for us to try. This video could open all kinds of doors for us going forward. My hope and prayers is that there are people who get some enjoyment out of that video just like they get enjoyment out of other videos we have created over the years. We love making videos. We love getting better. We hope that you are sticking with us on this amazing journey through life. We hope you share our content with others that need a pick me up. Making these videos picks us up and we are so thankful for your support.

God bless,
Paul Bury

FEMALE SIDE

It will get better

I have faith, hope, and confidence that things will get better. I know we have massive inflation, recovering from a pandemic, gas prices, supply chain issues, mental health, being forced back into offices, and more. I know there are plenty of bad things in the world that we can obsess over. I bet you can find some positive things. I know I can find some positive things to share with you. Our website hits here at Family Friendly Gaming are going to be over one million for two months in a row. I do not know if June will beat out May and give us another brand new record or if June will be the second biggest month in terms of hits we have ever received here at Family Friendly Gaming. Either way it is a major blessing that can bring in more advertisers. The current advertisers are pleased with what they are getting for the price.

The YouTube money has been on the climb. As I write this we have passed the 210K mark in terms of subscribers. We have made a ton of different videos and live streams here at Family Friendly Gaming. We continue to produce content that is making an impact on the lives of so many people. Princess has been a wonderful addition to our family and she loves being in live streams, videos, and shorts. Puppy loves being the center of attention in the shorts. Princess also likes watching sheep videos. I wonder what she thinks when she sees these sheep? If she saw them in real life she would most likely be very scared. We are working on her being more social with other dogs.

Our Rumble, Bitchute, and Odysee channels continue to grow, improve and develop. We have met so many wonderful people on those sites. The same can be said of GETTR, GAB, and Parler. There are so many great people that are so supportive on those sites. We get emails from people all the time that appreciate the free service we are bringing to them, and their families. It is always nice to know that day by day we are making the world a better place. We have been working with a plethora of Christian game developers to bring attention to their products.

We had the money to purchase a gaming laptop that is being used for the streaming. We needed additional power to make that work properly. We have been slowly replenishing those finances with sponsored live streams, advertisements, and paid news stories. There is always something on the list to replace, upgrade and improve. Paul constantly has great ideas for making things better. He also seeks my counsel to see what ideas I happen to have. We work together on ideas like

new cooking videos. I have been taking some short videos to share with Family Friendly Gaming.

One of the things about hard times/bad times that sticks out for me is learning lessons. How can we do things more efficiently? Will you listen to us now about what makes a good leader and what makes a bad leader? Do not forget Family Friendly Gaming told you a President Biden would be bad for all of us. Will you now vote in a way that does not harm all of us? Will you reject attempts to redefine words, history, institutions and more? Will you stand for traditional morals and ethics? Will you reject the darkness and move toward the light? Are there things you can do to make things better for all of us?

God bless,
Yolanda Bury

Mission Statement

Family Friendly Gaming (FFG) was created in March of the year of our Lord 2005 as the first ever Christian video game magazine. The goal of Family Friendly Gaming is to report on video games from the family view point. Family Friendly Gaming takes a fair and balanced approach to all news, previews, reviews, interviews, features, and other articles found within. The secular video game media reports mainly on the most morally bankrupt games and call those games good. The major secular media reports on the bad side of video games mainly. Most other Christian media outlets claim video games turn the player into a zombie, or they completely worship video games. Family Friendly Gaming reports the good, and bad side effects to video games. It is the belief of the owners that readers are smart enough to come to their conclusions without those in the media handing opinions to them. Those of us at Family Friendly Gaming believe by giving you the facts, you can decide for yourself. There are plenty of really good video games on the market that teach wonderful lessons. Both inside the Christian video game market, and from non-Christian video game developers. Family Friendly Gaming seeks out these video games to bring them to your attention. Since it is unknown before playing a game how family friendly it is; it is possible that this magazine will preview a game, and then the review will expose problems previously unknown. Family Friendly Gaming promises to always ask the question: "how God feels about certain video games." God's opinion on the matter is more important than any mere mortal. Which is why the rest of the industry does not influence FFG.

SOUND OFF

The Sound Off section is where you the reader/ emailer is heard. What you have to say is put in this section for all the readers to see. Of course certain content is edited for appropriateness issues. This is a family friendly magazine, and certain content is just not proper. We hope you enjoy this section as much as we do. Keep an eye out for your comments appearing in these very pages. You have our attention, so SOUND OFF!

Comics

Thank you for starting for review comic books. Out of all of the review websites out there Family Friendly Gaming is my favorite. It is so neat to see you guys reviewing comic books finally. I have such a hard time getting good reviews of comic books from anyone out there. There are so few Christian voices. My church is like they are evil. They say the same thing about video games. I have used the tools and resources that Family Friendly Gaming provides to show that there are some good video games out there. I needed the same thing for comic books. It can be hard being a parent and trying to find safe, moral, and ethical content for our chil-

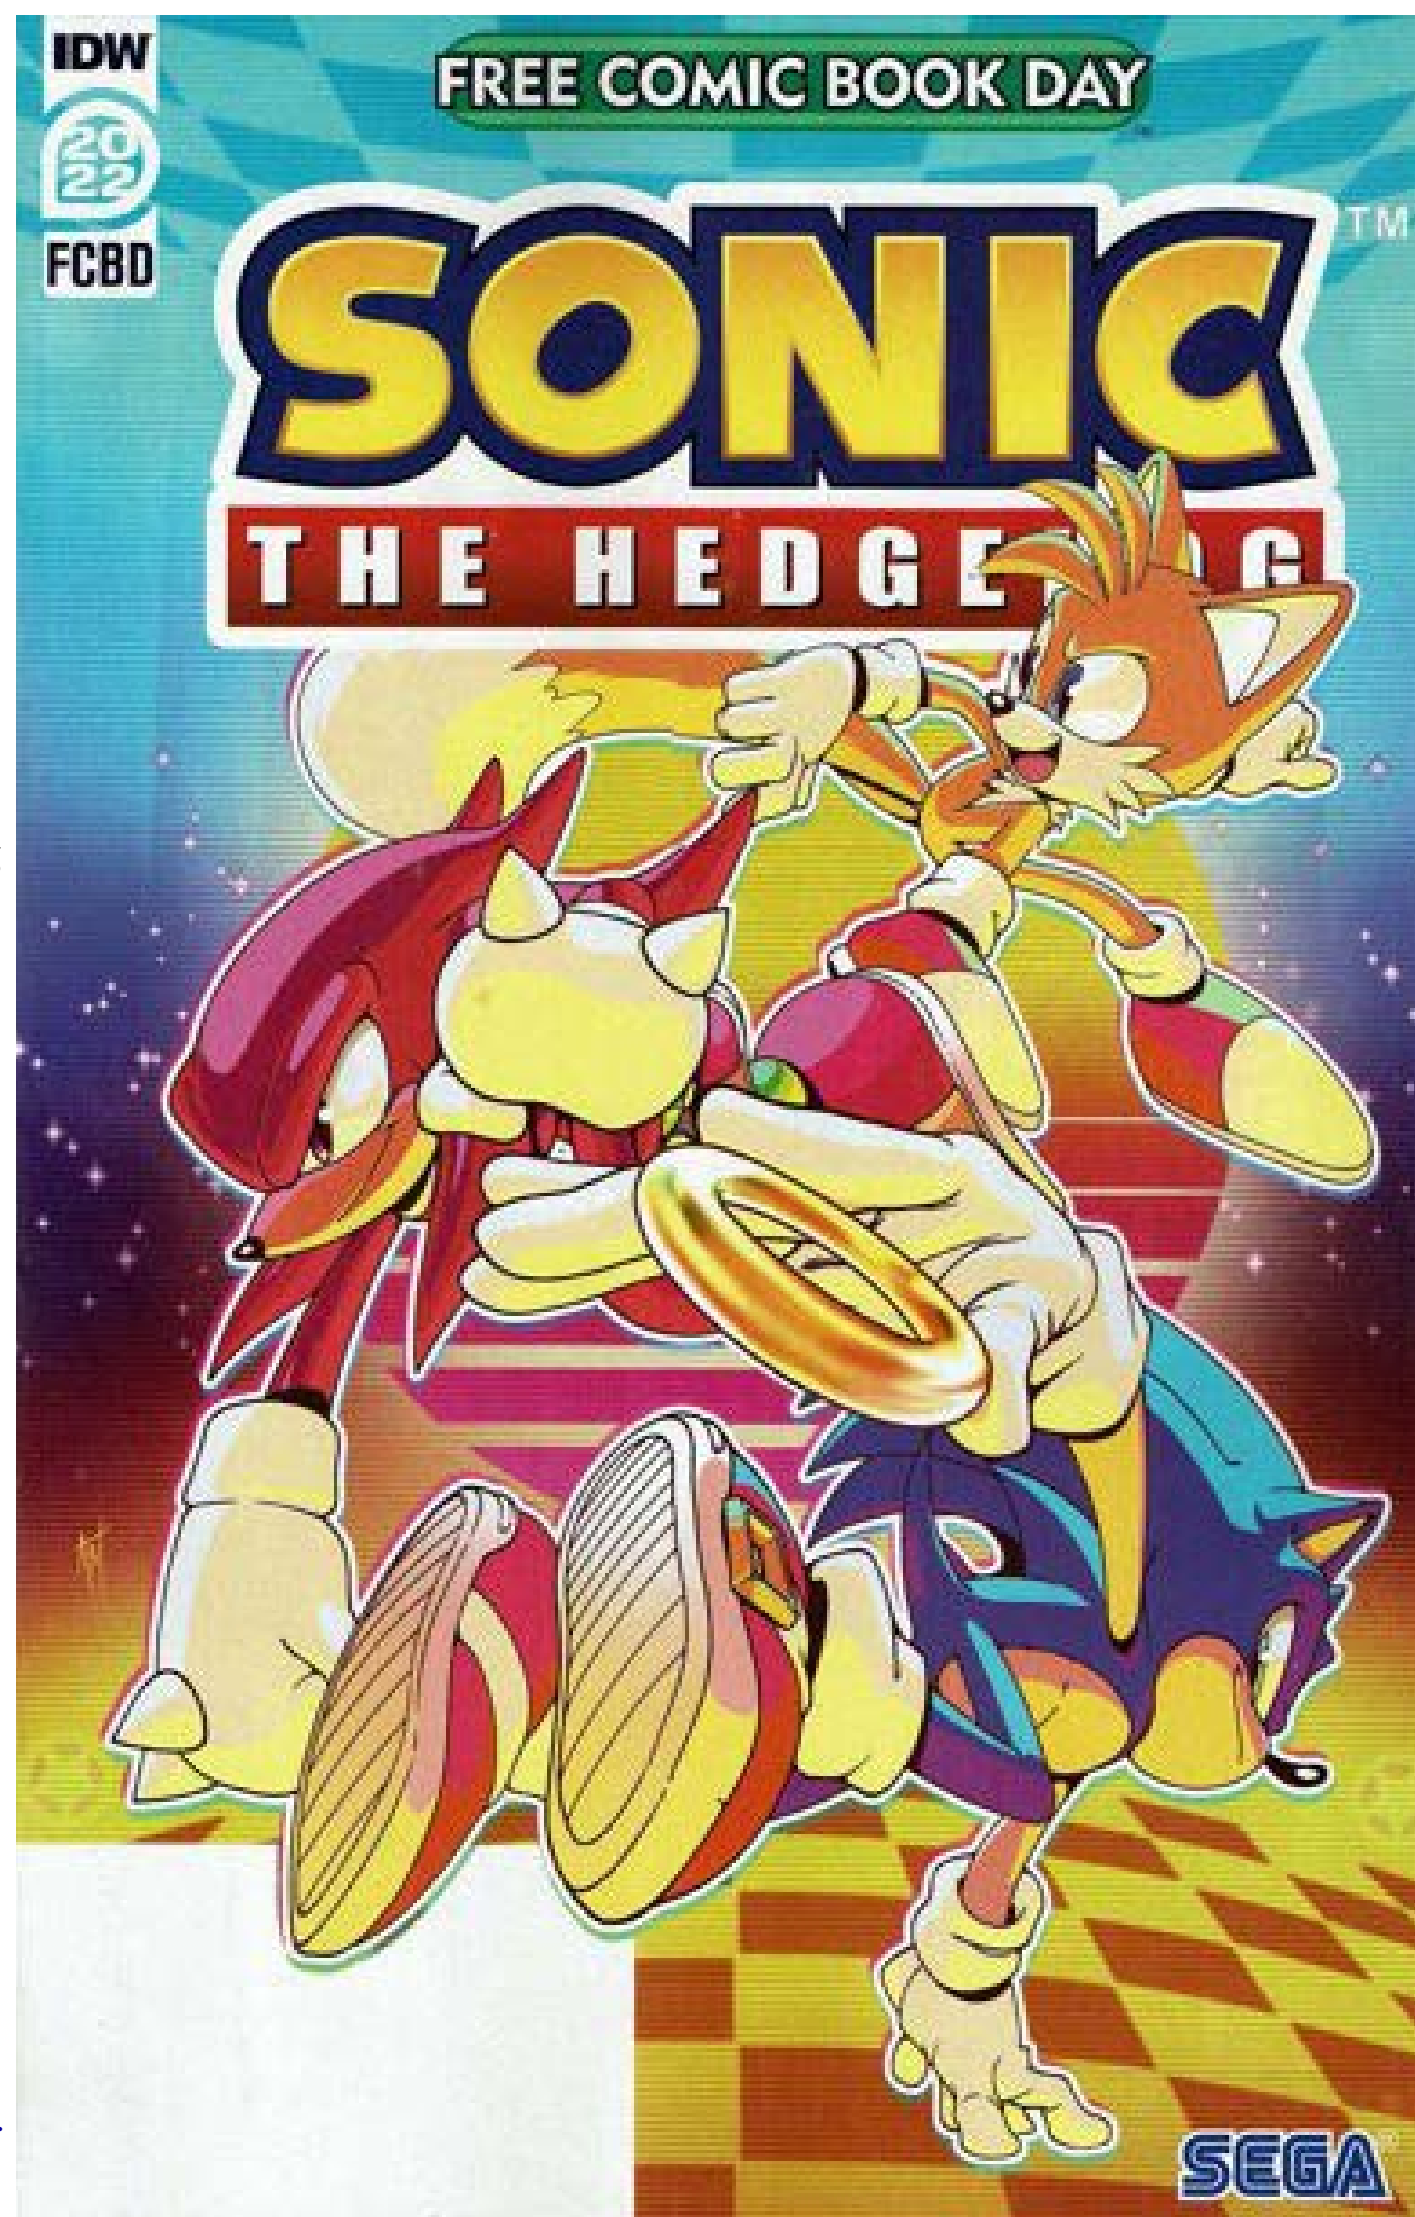

dren. So many places rejoice in the evil. It is so wonderful that Family Friendly Gaming finds so much good out there, and stands up to the evil.

Have you considered looking into Christian comic books? Is that something that Family Friendly Gaming may do in the future?

- Barb

{Paul}: Barb,

Thank you so much for your amazing words of encouragement. We appreciate them greatly. So glad you are enjoying our expansion into comic books. We are working our way into this slowly as we get the time and financial resources. We found a second comic book store in our area that has a

better selection than the first. We also found a kids section there. We are going to that store once a month to pick up some comic books for reviews.

That is an excellent question. I would love to review some Christian comic books. I will need to do some research to find ones that are available for purchase. That is certain a great direction for going forward. It would be wonderful to shine the light on some good, moral, and ethical comic books that build up the spirit versus tearing it down. Thank you so much for that suggestion. Looking for Christian comic books has been added to my list

of things to do.

Suggestions

Hi,

We, as a family, have never owned a video game console before and our 11 year old wants to play. It was also recently suggested to us that if he were to play an MMORPG it might help him socially because he really struggles to make friends. I am wondering where to start as far as console and games for him to try. We have strong Christian values and want him to play something that will enhance rather than distract from our values. Any suggestions? Thank you for your time.

Carrie

{Paul}: Carrie,

When it comes to consoles it depends on which system(s) you are using. A lot of the MMORPG's on console are rated thirteen and older only, and they have definite problems with them. DC Universe Online is T and has magic, false gods, and violence. Genshin Impact is T and has magic, violence, and false gods. I have been told No Man's Sky has gotten better but that is rated T. League of Legends is T, Dota 2 is T. Star Trek Online is T.

World of Tanks is T.

I know Dragon Quest Builders 2 is online (don't recall if the first one has online in it). That one has violence, and magic. It is E10+. That game is a mixture of Dragon Quest role playing and Minecraft. Minecraft is one that is online but does not really have the role playing elements in it. Trove is another Minecraft like game.

Aetherlight can be played on Android and iOS:

<https://theaetherlight.com/about-the-game/parents>

Aetherlight is made by fellow believers.

Life Academy is PC and also made by fellow believers: <https://www.eternallife.academy/index.php/life-academy-mmorpg>

There are online games like Fall Guys that are free to play. More action orientated though. Your child could meet people through voice chat in duos and squads.

There are other options to meeting people than MMORPGs. There are doing things like live streaming through Twitch or YouTube. Your son could meet people that way. Say he likes Lego

SOUND OFF Continued

games for example and live streams on Twitch or YT. Others interested in Lego games come by and comment in the chat. Yes you have to watch out for bad people saying horrible things. There are also shorts (60 second or less videos recorded vertically on a phone) that can be posted on places like YT and TikTok (and more like GETTR). Maybe he has a pet he can show off and meet others that way.

There is also going to live streams of safe streamers and meeting people that way. I know plenty of people have connected through our live streams and talk about stuff outside of our streams.

Thank you so much for taking the time to write such a

thoughtful response. Aetherlight sounds cool. I think we'll check that one out first. Thank you again!

-Carrie

{Paul}: Your welcome. :)

Hall of Fame

Another great class in the Family Friendly Gaming Hall of Fame for 2022. Love those exercise games, and of course Adam's Venture. Fantastic job!! Why did it take so long to get it out this year? It is a few months later than normal.

- Bart

{Paul}: Bart,

So very glad that you enjoyed

the class of 2022 in the FFG HOF. We are running into issues getting the plaques this year. Due to the Biden created supply chain issues we are still waiting on them. We hope that is resolved soon.

Look BACK Family Games

There has been a lot of history made here at Family Friendly Gaming. Let us take a look at some of the historic front covers to a few of the issues in our long and storied history.

Promise Words

God's promises are so important in the times that we live in, and His word brings hope and power for our lives. But often times we struggle to remember the verses we read in the Bible. It can be difficult to recall those important promises when we need them the most, or when a friend or family member needs a word of encouragement. That's why games like Promise Words are a vital tool for those who desire to commit God's word to memory using visual cues and creative fun!

Promise Words is a great way to learn and memorize the promises of God that are found throughout the Bible. Overcome trials, distresses, temptations, and burdens by matching descriptive words on the promise cards to the words on a difficulty card. Each promise card contains a powerful verse from the Bible that can be applied to a difficulty, giving a beautiful perspective of God's amazing promises.

"By which he has granted to us his precious and exceedingly great promises; that through these you may become partakers of the divine nature..." (2 Peter 1:4 WEB).

"For no matter how many promises God has made, they are "Yes" in Christ. And so through him the "Amen" is spoken by us to the glory of God." (2 Corinthians 1:20 NIV).

DEVOTIONAL

Humility

The world wants to brag and boast, and be proud of a plethora of things. That is what the worldly people do. That is not what God promotes. We are to be humble. We are to think less of ourselves. **Proverbs 22:4** *Humility is the fear of the Lord; its wages are riches and honor and life.* When we are humble we are showing that we fear God. We understand our place in the world. There are too many braggarts out there acting like they know better than God. I have a spoiler alert for you - they are wrong and will pay the price for that arrogant choice.

When you boast, brag, and are prideful you are showing how selfish you actually are. When you are humble then you show that you love and value others before yourself. **Philippians 2:1-4** *Therefore if you have any encouragement from being united with Christ, if any comfort from his love, if any common sharing in the Spirit, if any tenderness and compassion, 2 then make my joy complete by being like-minded, having the same love, being one in spirit and of one mind. 3 Do noth-*

ing out of selfish ambition or vain conceit. Rather, in humility value others above yourselves, 4 not looking to your own interests but each of you to the interests of the others. Being selfless and being humble are very closely related. When you are humble you actually care more about others than yourself. That is not happening with pride.

Jesus even taught a lesson about showing humility in public. **Luke 14:7-11** *When he noticed how the guests picked the places of honor at the table, he told them this parable: 8 "When someone invites you to a wedding feast, do not take the place of honor, for a person more distinguished than you may have been invited. 9 If so, the host who invited both of you will come and say to you, 'Give this person your seat.' Then, humiliated, you will have to take the least important place. 10 But when you are invited, take the lowest place, so that when your host comes, he will say to you, 'Friend, move up to a better place.' Then you will be honored in the presence of all the other guests. 11 For all those who exalt themselves will be humbled, and those who humble themselves will be exalted."* I choose to listen and obey

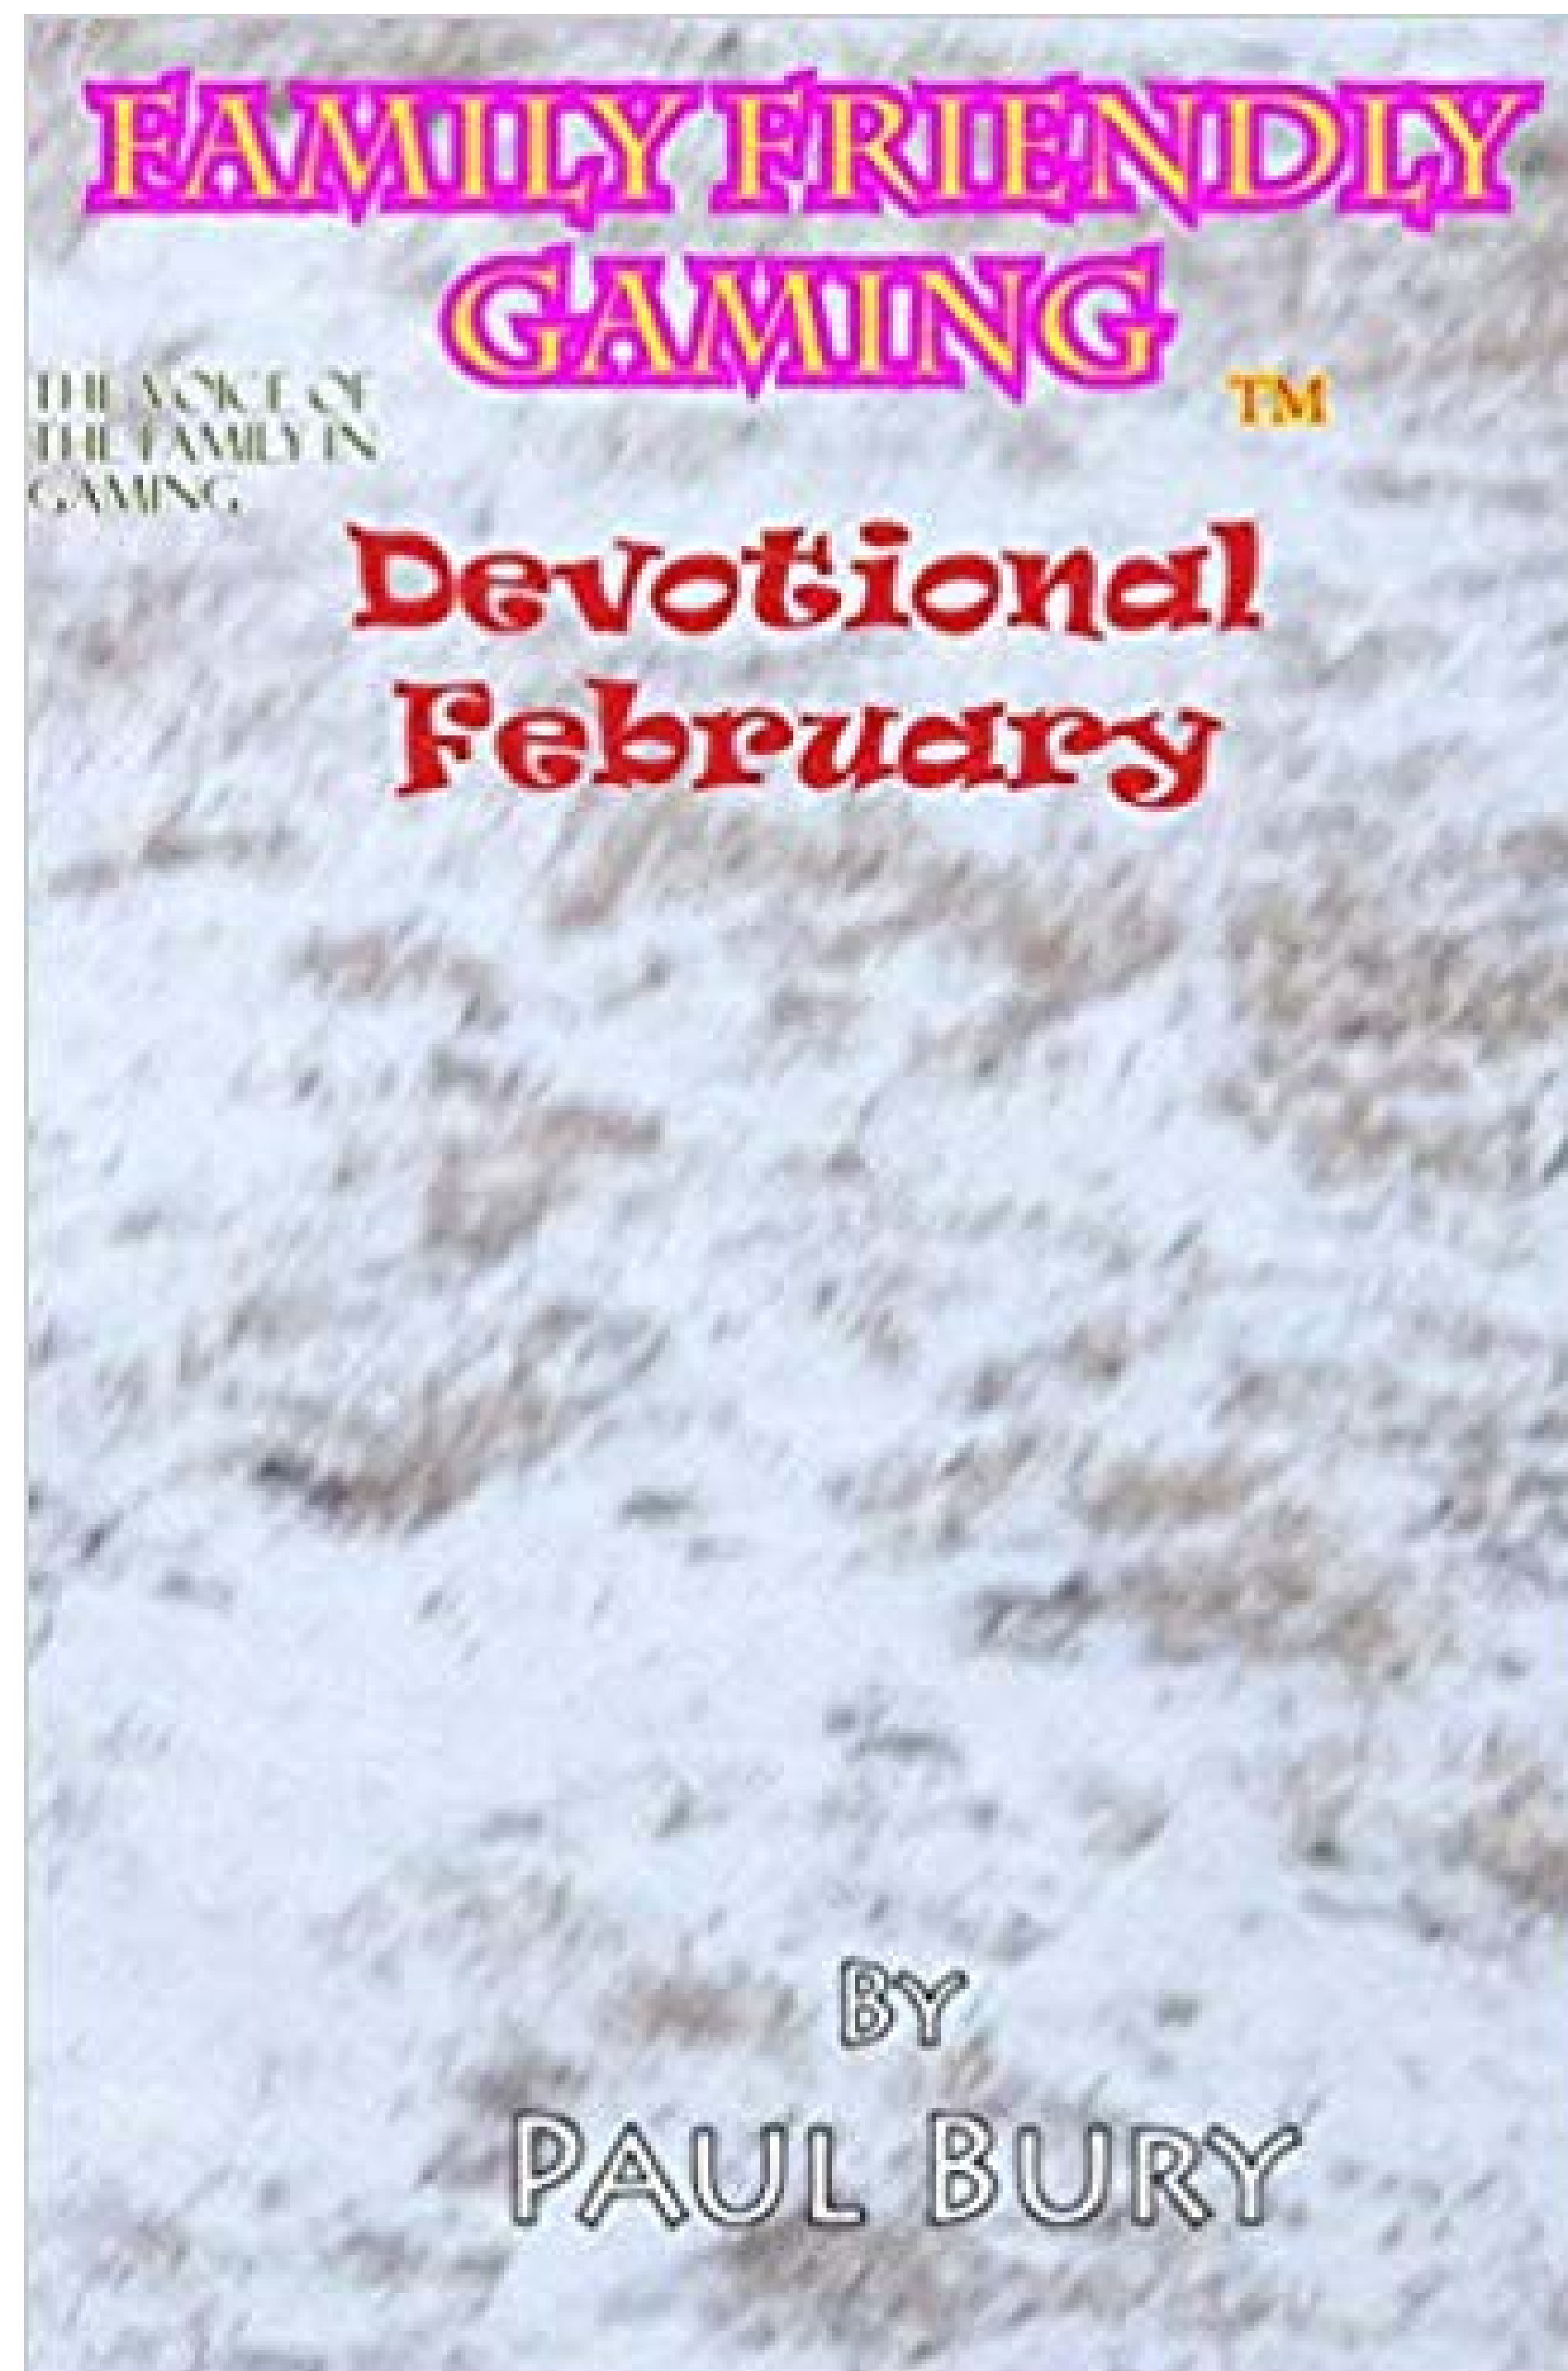

Jesus. Do you? Doesn't it feel good when others realize you are not being treated properly and fairly? Isn't it great when they decide to correct the situation. On the flip side isn't it funny to see someone think they are bigger than they actually are? Isn't it funny to see someone full of themselves get all the air let out of their balloon? Jesus knew what he was talking about. Jesus pointed out the pecking order and how it can impact all of us in terms of where we belong. Being humble is always better.

God Bless,
Paul Bury

PRAYER

Jesus,

I know that I am a sinner and need Your forgiveness. Nothing I can do of my own power will give me true joy. I believe that You died for my sins. I want to turn from my enslavement to sins, and repent of them. I now invite You to come into my heart and life. I want to trust and follow You as my personal Lord and Savior. I welcome the transforming power of the Holy Spirit. Amen.

New Crusader Kings Flavor Pack

The land is divided by language, religion and culture, but those with the vision to understand it see a land rich in opportunity. What if the energy devoted to squabbling over towns and titles could be focused on unity or coexistence? But vision is not enough. A strong hand, a taste for intrigue and a deft touch with diplomacy are all required. This is a question for generations, a problem to be solved over time. Only the patient and prudent can settle the Fate of Iberia.

Fate of Iberia is the latest flavor pack for Crusader Kings III. Available today, this addition to Paradox Interactive’s award-winning medieval grand strategy role-playing game gives you a new way to live out the history of Spain and Portugal through the middle ages. A centuries long Struggle will force you to rethink how to achieve your goals, as a variety of interested and competing parties fight to impose their will on the Iberian Peninsula.

Features of Crusader Kings III: Fate of Iberia include:

Struggle system: Entirely new system for historic conflict, available to modders and other content creators.

Decide the Fate of Iberia: Choose the path of conciliation or the path of conquest as you unite Spain or, alternately, agree to a peaceful division of spoils.

New content: Two new Legacy tracks (Metropolitan and Coterie), new cultural traits emphasizing special historical characteristics of the Iberian peninsula, new friendship interactions and duels over the chessboard.

New Events: Dynamic historical events related to the struggle for Iberia.

New Art: New character art reflecting Iberian cultures of the medieval era, new unit designs, new 3D models of holdings and artifacts and a host of new art for backgrounds, events and loading.

New Music: Additions to the Crusader Kings III soundtrack.

Fate of Iberia includes an update free for all Crusader Kings III owners that adds new options and features for all players. This update will add a new faction type to challenge your ruler, Heads of Faith that can be shared by different religions, vassal contracts for clans, and, of course, a new starting bookmark that highlights interesting Iberian characters for the 867 start date.

Crusader Kings III: Fate of Iberia can be purchased for a suggested retail price of \$6.99/£5.19/€6.99. It is included with the Crusader Kings III expansion pass and Crusader Kings III: Royal Edition.

New Expansion for Hearts of Iron IV

Hearts of Iron IV is getting another expansion, one that adds new paths and potential for some of the defining conflicts of the wartime era. Explore new alternate histories for Italy and Ethiopia, as well as one of the leading neutral powers, Switzerland, in Hearts of Iron IV: By Blood Alone.

This expansion to Paradox Interactive's grand strategy wargame about the Second World War continues the tradition of offering players a range of new stories and possibilities, allowing new histories of the war to be written in every session.

Features of Hearts of Iron IV: By Blood Alone include:

- New Italian Focus Tree: Follow the historical path of Mussolini's Italy or rewrite history by restoring power to the monarchy, leading a Communist revolution or promoting democracy.
- New Ethiopian Focus Tree: Defy the odds to defeat the Italian invader or resist the conqueror from abroad using unique Government in Exile abilities.
- New Swiss Focus Tree: Surrounded by France, Germany and Italy, the mountain nation of Switzerland finds strength in its neutrality, balancing competing factions and overtures from the great powers.
- New Peace Conference Options: Demilitarize zones of the map or entire nations, bid on the capital ships of defeated powers, or claim control of enemy resources or factories as reparations.
- Aircraft Designer: Design and build your own planes, from nimble interceptors that prioritize speed to durable bombers crafted to unload tons of destruction from high above.
- Unit Medals: A log of each division's accomplishments lets you track their performance, and even allow you to award medals to those that have performed well.
- Embargo Interaction: Embargo your enemies with a new diplomatic interaction, preventing them from trading with you if they have generated enough world tension.
- New Unit Models: More than 20 new pieces of unit art for Italian, Ethiopian and Swiss armies.

New Plane Models: 67 new plane models.
12 New Music Tracks

We Would Play That!

REVIEWS

There are all kinds of cool family friendly video game ideas out there. This column features ideas of video games we would play. We hope games like these are created in the near future. Can you make it happen?

There have been plenty of video games that let us play as a plethora of animals. We can play as lemmings, mice, rats, cats, dogs, gerbils, hedgehogs and more. We can be a dolphin swimming under the sea. Sure many of the video game versions of animals are not exactly realistic. Bandicoots do not look or act that way in the real world. Then the thought came to us - what about plants? Are there any realistic plant based video games?

Sure we can be a plant. Pokemon, Pikmin, Plants vs Zombies and more. What about a realistic plant video

game? Some might answer that question with the plethora of Farming Simulator games. Others might think about Harvest Moon and Story of Seasons. After all there is plenty of planting, watering and harvesting in those video games. What about the experience of actually being a plant?

Initially the idea made us think that is not possible. How can you enjoy a game where you sit there and do nothing. Do plants actually sit there and do nothing though? From a seed blowing on the wind to find some good soil to plants reaching out for the sun. We have seen plenty of weeds among our strawberries, and blueberries. There are plants that are reaching around to get some sunlight. Already we have given two ideas for plants to be made into video game levels. There are also different kinds of plants. So maybe we have plants that have flowers that are trying to entice a bee

to come and pollinate them. A little dance mini games to get in sync with the bee. Other plants grow thorns to keep birds and animals from messing with them. Maybe a bee is pollinating and a bird comes to eat the bee. The plant game could warn the bee at the right time for the bee to get out of there and stay alive. Ants could walk nearby and not mess with the plant. Maybe a spider would use the plant to catch some nasty bugs like mosquitoes.

Could you imagine the different kinds of levels that could be made from a video game based off of plants in a realistic fashion? This kind of a video game would definitely be very family friendly. If a bird was to eat a bee then the screen could fade to black with a message about needing to keep the bee alive. Let the bird go eat a wasp instead. That should be more nourishment than a bee would be.

Welcome to our reviews section. We have a couple of rules when it comes to our reviews. The reviewer must give an honest accounting as to why he/she liked or disliked something. No fanboy reviews allowed here, or at the very least they are discouraged (after all everyone has their own personal biases, likes, and dislikes). Everyone also has different tolerances, and weaknesses - we strive to keep that in mind in our reviews. We have been burned ourselves by reviews saying a certain game is great, only to be greatly offended by that game. Reviewers must be kind in their reviews. A game may be horrible, but there is no need to degrade the developer, publisher, artists, etc. There is also no need for name calling.

We review video games on five separate criteria: graphics, sound, replay/extras, gameplay, and family friendly factor. Review scale can be found here. The editor in chief coordinates reviews to have as much cohesion as possible. We are very open about the way we review video games. Each section starts with a 75 score, and can earn or lose points based on the content of the game, using our grading scale (found on the website).

Parents, please do not take any of our reviews as gospel. Different people are offended by different things. We work hard here at Family Friendly Gaming to discern the good from the bad in the teachings of each different video game. What may seem harmless to our reviewer(s), could be a big deal to you. We encourage you to spend time with your children and investigate each video game yourself. Each review is written with you in mind, and we try to mention each problem we find. We are not perfect, and miss things from time to time - just as the ESRB does. The ESRB rating is merely a start, and since they ignore many of the moral and spiritual factors important to parents all across America, we do our small part to fill that huge void. We are a small ministry and your prayers are so very important to us.

Questions, suggestions, comments, or got a game you would like for us to review? Then please email us at: Gamereviews@familyfriendlygaming.com.

Jeremiah 1:5-8

5 “Before I formed you in the womb I knew you,
before you were born I set you apart;
I appointed you as a prophet to the nations.”

6 “Alas, Sovereign Lord,” I said, “I do not know how to speak; I am too young.”

7 But the Lord said to me, “Do not say, ‘I am too young.’ You must go to everyone I send you to and say whatever I command you. 8 Do not be afraid of them, for I am with you and will rescue you,” declares the Lord.

I am so thankful I had the money to purchase My Singing Monsters Playground on the Nintendo Switch. Families can also find this party game on the PC, PS4, PS5, and Xbox One. Some of the characters from My Singing Monsters compete in mini game tournaments within My Singing Monsters Playground. There are twenty-five mini games for families to enjoy within My Singing Monsters Playground. They range from a variety of different style and themes.

As we compete in tournaments we earn a special coin that will allow us to get some different costumes for the characters in My Singing Monsters Playground. Every time I played My Singing Monsters Playground I won so I do not know if that is a condition or not. President Trump is completely wrong - I never get tired of winning. Four monsters will compete within My Singing Monsters Playground. We can practice mini games that we

have previously unlocked.

The coolest thing within My Singing Monsters Playground to me is the singing as the trophies are given out. The winner starts, then second place joins in, third place, and finally last place until we have a cool harmony. We can easily swap to different characters within My Singing Monsters Playground. I did not notice any game play differences between them though. That would have been cool if it had been added.

My Singing Monsters Playground is a fun little party game that is not quite up to the Mario Party level yet. There are not enough mini games within My Singing Monsters Playground. There are plenty of unlockables if that sort of thing interests you. The good news is My Singing Monsters Playground is currently selling for under thirty dollars. So you will not break the bank playing

My Singing Monsters Playground. I hope to see more games like My Singing Monsters Playground in the future. - Paul

I hope you were able to enjoy the live streams I performed of Ryan's Rescue Squad. I played Ryan's Rescue Squad on the Xbox Series X. Ryan's Rescue Squad can also be found on the Nintendo Switch, PC, PS4, Stadia, and Xbox One. This is Ryan's second video game, Race with Ryan was the first. I have heard of this young man who is a YouTuber that has made all kinds of marketing deals. Some of our viewers and readers have even asked if any of my game ideas will be made by any of these companies. I am certainly willing to have a conversation with them on that topic.

Ryan's Rescue Squad is a 2D side scrolling platformer that is generally designed for kids. I was able to beat Ryan's Rescue Squad in around three hours. I did miss a few hidden items here and there. Generally I collected all of the eggs and R coins that were in the levels. I

also unlocked most of the little mini games in Ryan's Rescue Squad. Those mini games are on the simple side but something for kids to replay if they are into them.

We have a little cartoon violence here and there in Ryan's Rescue Squad. We can throw green or purple orbs at enemies. We can also jump on their heads to make them go away. The collision detection in Ryan's Rescue Squad is a bit on the sus side if you know what I mean. At times I would jump on an enemy, take damage and the enemy would go away. Other times I would jump on them and take no damage before they left the screen. I never figured out the pattern there.

Ryan's Rescue Squad has some levels where we go on movable platforms like a boat for example. You must time this right or you will die.

I found if you take too long getting back to the boat then there is no way to get to it. The boats do not come back for the player. I could see this frustrating some kids. I was a bit annoyed with it since other games have the boat go back and then come back to the player. Felt like a design flaw to me.

Ryan's Rescue Squad looks decent and has some nice colors. The story is told through pictures and voice acting. I was laughing at some of the dialogue in Ryan's Rescue Squad. This is a kids game so I understand that I am not the target audience. I do feel that Ryan's Rescue Squad reaches the target audience quite well. Outright Games continues to improve their products. Ryan's Rescue Squad did not crash on me once. Ryan's Rescue Squad is a bit too short for the current prices. I value Ryan's Rescue Squad at ten to twenty dollars brand new. - Paul

Marvel's Spider-Man Miles Morales

SCORE: 58

I just finished the last live stream of Marvel's Spider-Man Miles Morales where I beat the game. If you missed any of those live streams you can catch them in the video section of our website. There are some cool things in Marvel's Spider-Man Miles Morales and some really lame ones. The issues with the first Spider-Man game on the PS4 persist in Marvel's Spider-Man Miles Morales. More on that later in this review.

The issues families will have with Marvel's Spider-Man Miles Morales are violence, blood, drugs, sexual deviancy, racism, bad language, lack of attire, enticement to lust, and more. So much of the bad content was not really needed in Marvel's Spider-Man Miles Morales. The story is meh at best with too many cringe moments. Why is Sony encouraging rebellion against God? What is that all about?

The fights in Marvel's Spider-Man Miles Morales can be extremely frustrating. It is very easy to die in Marvel's Spider-Man Miles Morales. Play-

ers must do certain things to survive. I learned to go invisible and quietly take out enemies as much as possible. I hated trying to find some clue right near the police. Too many of the missions in Marvel's Spider-Man Miles Morales are completely aggravating. I had little fun playing Marvel's Spider-Man Miles Morales. The complex controls in Marvel's Spider-Man Miles Morales are annoying.

The cool part in Marvel's Spider-Man Miles Morales is swinging around the city, coming down to the ground and having people on the street talk to you. In this way Marvel's

Spider-Man Miles Morales feels like Spider-Man. Those moments are too little unless you make them happen. The cut scenes look pretty good in Marvel's Spider-Man Miles Morales. The storyline may interest some gamers.

All in all I did not like Marvel's Spider-Man Miles Morales very much. I am very thankful that my dad had the money to purchase Marvel's Spider-Man Miles Morales. He actually got it as part of a package deal to purchase the Playstation 5. None of us were very interested in playing Marvel's Spider-Man Miles Morales until we had played through games that had a higher priority. I wonder if a Spider-Gwen game is coming from Sony next? They really are submerged into the radical far left ideology in their preaching in their games. Marvel's Spider-Man Miles Morales is the perfect example. - Teen Gamer

DC Super Hero Girls Teen Power

SCORE: 65

I am very thankful I had the money to purchase a copy of DC Super Hero Girls Teen Power on the Nintendo Switch. DC Super Hero Girls Teen Power sat in my pile for a few months before I was able to play it. We had plenty of positive comments on the live streams I did of DC Super Hero Girls Teen Power. If you missed those then you can catch them on our website in the video section. We will also be releasing the videos on our different video sites as finances allow. DC Super Hero Girls Teen Power is all about six teenage girl heroes and villains. We do have Lex Luthor in DC Super Hero Girls Teen Power but he is not playable. The same goes for Toyman.

The issues families will have with DC Super Hero Girls Teen Power are violence, lack of attire, enticement to lust, discussion of false gods and more. There are some horrible attitudes and temper tantrums in DC Super Hero Girls Teen Power. There is even a disgusting reference to never forgiving someone. The characters

System: Nintendo Switch

Developer: Toybox
Rating: 'E10+' - TEN and OLDER ONLY {Cartoon Violence}

have very different personalities.

There is some voice acting from the heroes and villains in DC Super Hero Girls Teen Power. The best thing in DC Super Hero Girls Teen Power for me is when the heroes and the villains work together to rebuild this town and stop the toy robots. SPOILER ALERT! I did successfully guess that Lena Luthor was the mastermind in DC Super Hero Girls Teen Power. At the end of DC Super Hero Girls Teen Power the villains decide they no

longer want to work with the heroes. This was actually predictable as well.

As we play DC Super Hero Girls Teen Power we earn coins and stars. The coins can be used to pay for buildings in Hobs Bay as we are restoring the town. The stars are used to upgrade the skills of the different characters. These can be very important in the battles in DC Super Hero Girls Teen Power. Characters will also level up while we are fighting in DC Super Hero Girls Teen Power. We do three things in DC Super Hero Girls Teen Power. Those three things are go on fetch quests, fight, and listen to the talking.

I am not really sure who the target audience is for DC Super Hero Girls Teen Power. After all boys are not into playing girl characters. Girls are not into the action games as much as boys. DC Super Hero Girls

Teen Power feels like an odd attempt at targeting. The Supersta aspect of DC Super Hero Girls Teen Power was very interesting to me personally.

My Little Pony A Maretime Bay Adventure

SCORE: 73

Did you catch the two live streams I did of My Little Pony A Maretime Bay Adventure on the Xbox Series X? My Little Pony A Maretime Bay Adventure can also be found on the Nintendo Switch, PC, PS4, and Xbox One. It took me one hour and a half to beat My Little Pony A Maretime Bay Adventure. I then spent fifteen more minutes completing all aspects of My Little Pony A Maretime Bay Adventure. That is sometimes referred to as one hundred percenting a game. I know kids movies that cost way less than My Little Pony A Maretime Bay Adventure and they have more time in them.

There are a couple of mini games your kids may enjoy replaying. We herd bunnies and crabs, do a dance rhythm game, fly, and race with jumping over obstacles. The extremely short storyline in My Little Pony A Maretime Bay Adventure revolves around finding out who the vandal is and restoring the magic. The magic in My Little Pony A Maretime Bay Adventure only fails near the end. We then quickly restore it. There

is a theme of friendship in My Little Pony A Maretime Bay Adventure.

We move around Sunny in a 3D environment in My Little Pony A Maretime Bay Adventure. Thankfully I did not run into any bugs or crashes in the one hour and forty-five minutes I played My Little Pony A Maretime Bay Adventure. In order to one hundred percent this game I had to go back and replay some of the mini games to get the highest score. If you child aces those the first time

then they could easily beat my time.

My Little Pony A Maretime Bay Adventure looks nice and has some nice bright colors. There are stars we collect in My Little Pony A Maretime Bay Adventure. There are also different clothing combinations we can put on our pony. They are a bit on the limited side though. What happened to kids games being longer and containing more content? My Little Pony A Maretime Bay Adventure is a major let down in that department.

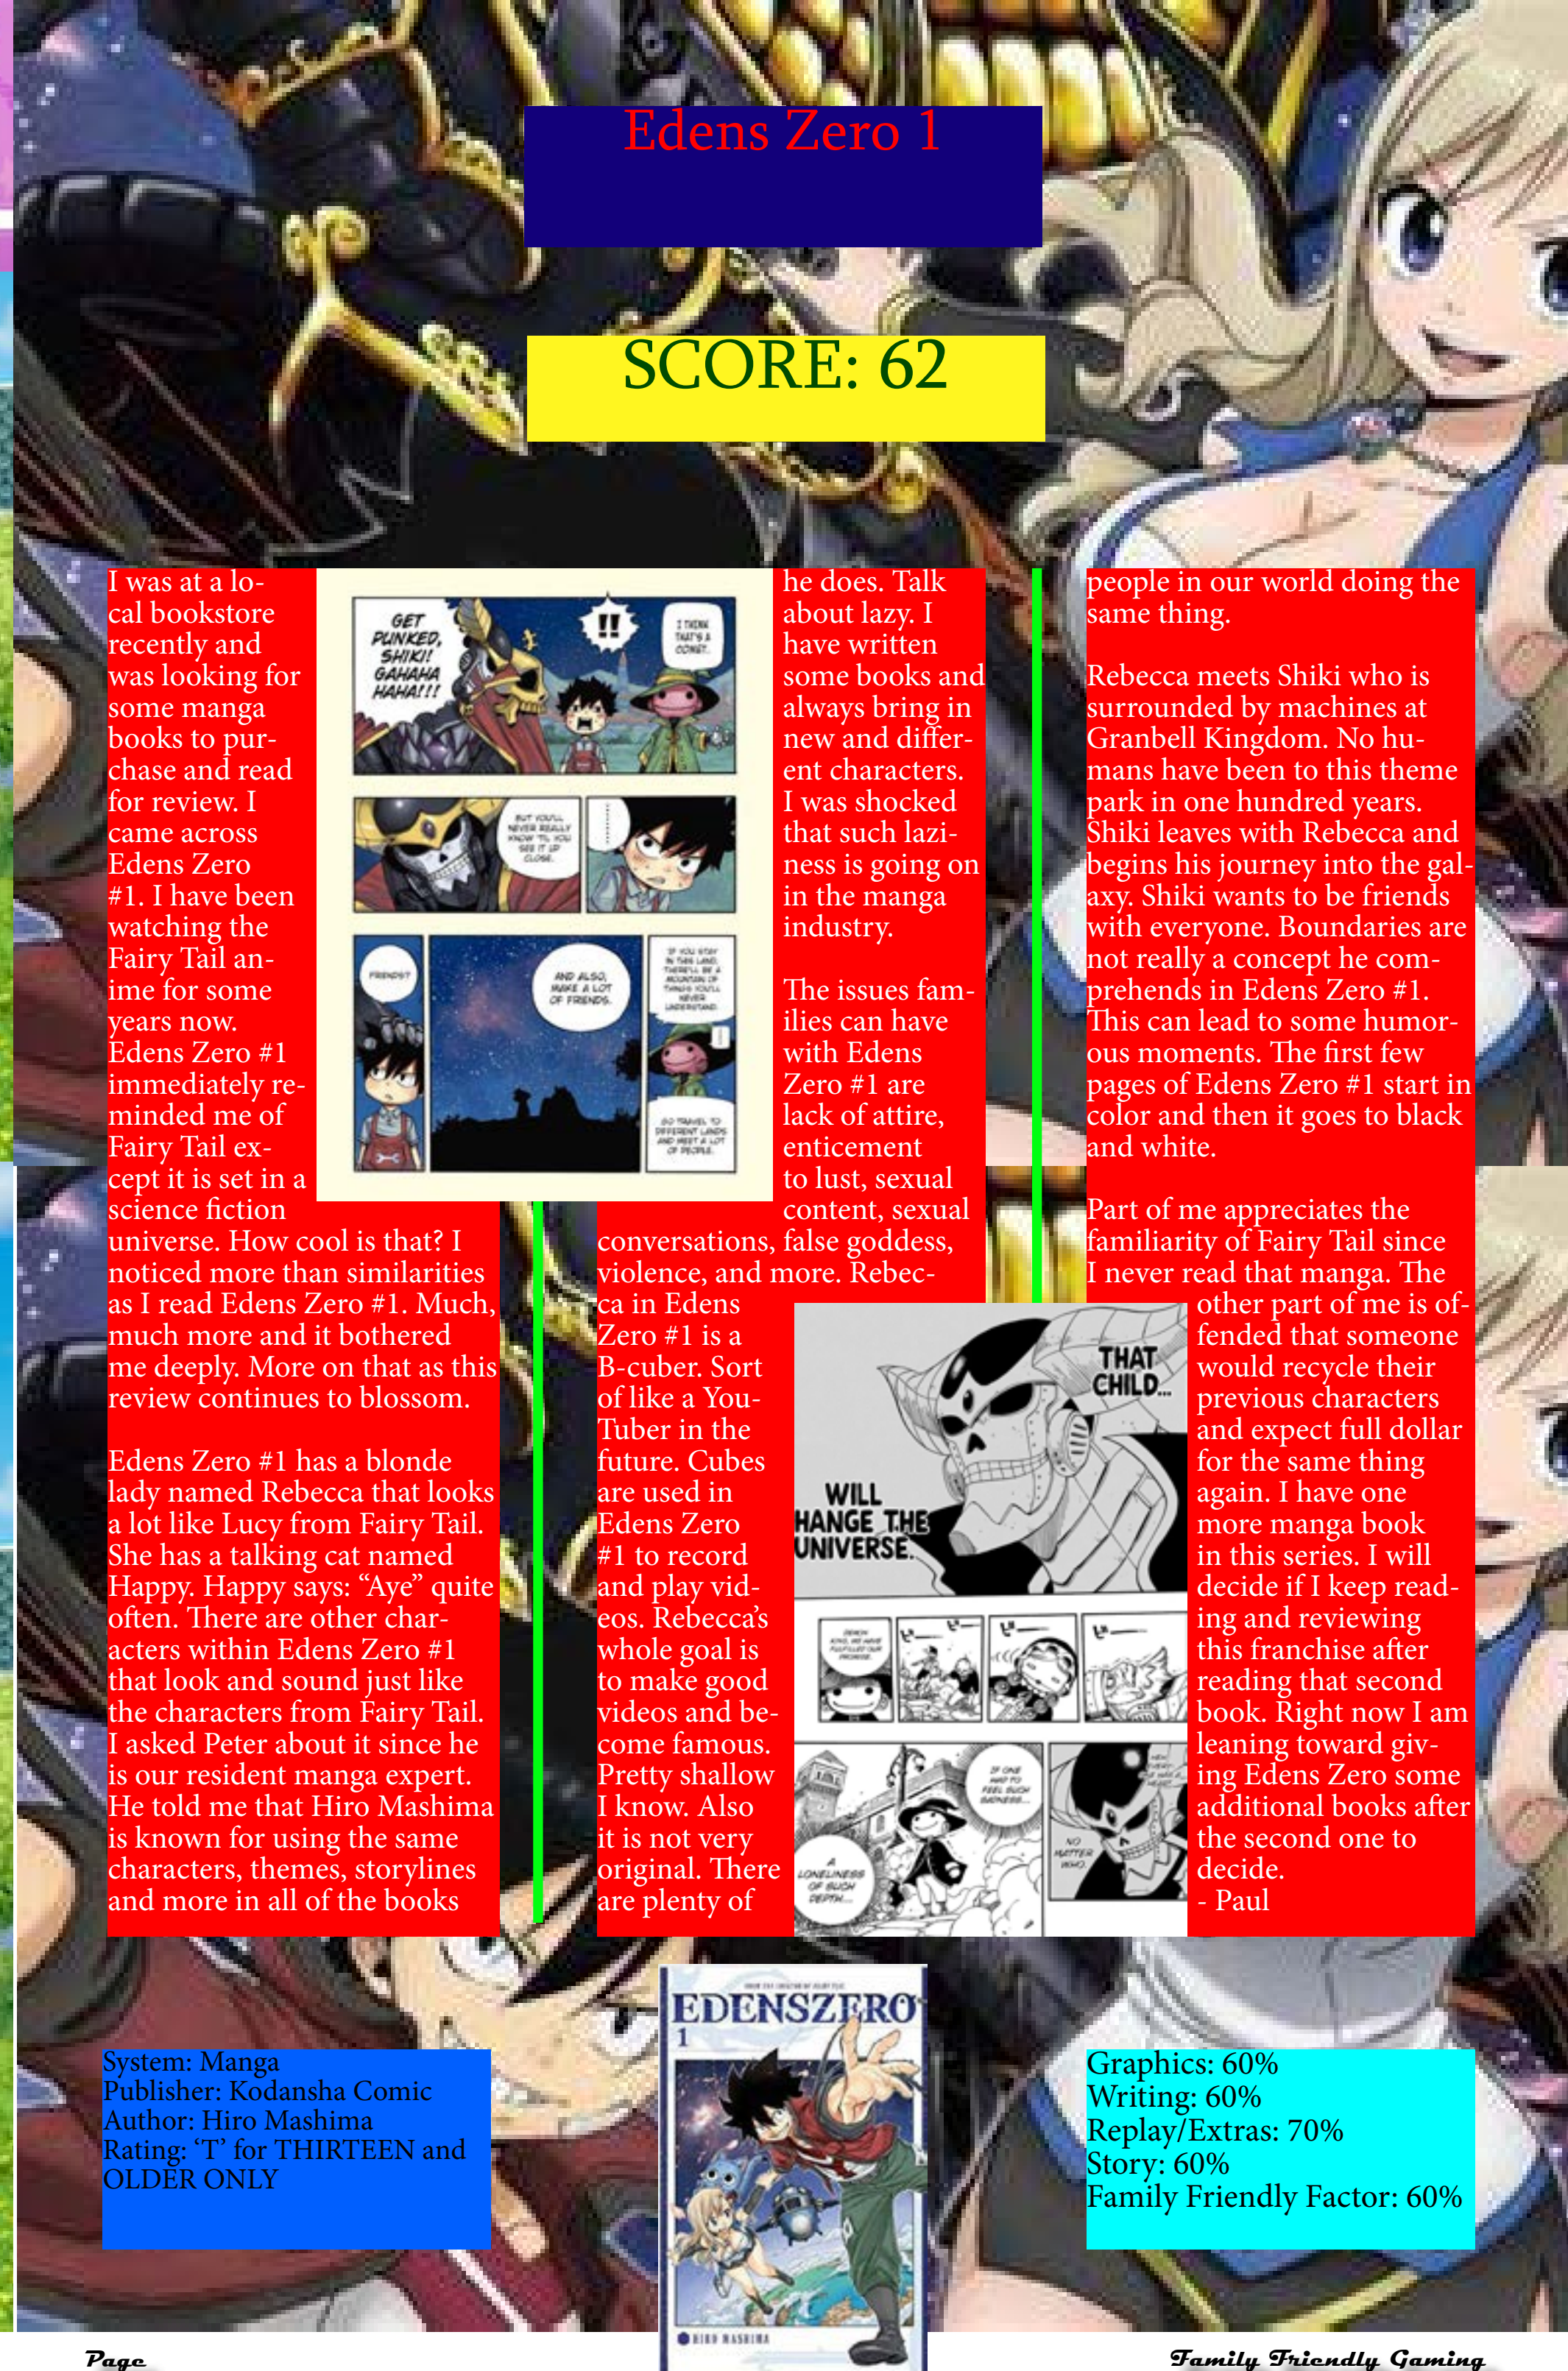

There are plenty of conversations between ponies, Unicorns and Pegasus in My Little Pony A Maretime Bay Adventure. The ponies are all friends. The Unicorns and Pegasus are looked down upon a little bit in My Little Pony A Maretime Bay Adventure. SPOILER ALERT! It is all resolved in the end. The angry mob was easily

turned with a few words in My Little Pony A Maretime Bay Adventure. I value My Little Pony A Maretime Bay Adventure at ten dollars brand new. - Paul

Edens Zero 1

SCORE: 62

I was at a local bookstore recently and was looking for some manga books to purchase and read for review. I came across Edens Zero #1. I have been watching the Fairy Tail anime for some years now. Edens Zero #1 immediately reminded me of Fairy Tail except it is set in a science fiction universe. How cool is that? I noticed more than similarities as I read Edens Zero #1. Much, much more and it bothered me deeply. More on that as this review continues to blossom.

Edens Zero #1 has a blonde lady named Rebecca that looks a lot like Lucy from Fairy Tail. She has a talking cat named Happy. Happy says: "Aye" quite often. There are other characters within Edens Zero #1 that look and sound just like the characters from Fairy Tail. I asked Peter about it since he is our resident manga expert. He told me that Hiro Mashima is known for using the same characters, themes, storylines and more in all of the books

he does. Talk about lazy. I have written some books and always bring in new and different characters. I was shocked that such laziness is going on in the manga industry.

The issues families can have with Edens Zero #1 are lack of attire, enticement to lust, sexual content, sexual

conversations, false goddess, violence, and more. Rebecca in Edens Zero #1 is a B-cuber. Sort of like a You-Tuber in the future. Cubes are used in Edens Zero #1 to record and play videos. Rebecca's whole goal is to make good videos and become famous. Pretty shallow I know. Also it is not very original. There are plenty of

people in our world doing the same thing.

Rebecca meets Shiki who is surrounded by machines at Granbell Kingdom. No humans have been to this theme park in one hundred years. Shiki leaves with Rebecca and begins his journey into the galaxy. Shiki wants to be friends with everyone. Boundaries are not really a concept he comprehends in Edens Zero #1. This can lead to some humorous moments. The first few pages of Edens Zero #1 start in color and then it goes to black and white.

Part of me appreciates the familiarity of Fairy Tail since I never read that manga. The

other part of me is offended that someone would recycle their previous characters and expect full dollar for the same thing again. I have one more manga book in this series. I will decide if I keep reading and reviewing this franchise after reading that second book. Right now I am leaning toward giving Edens Zero some additional books after the second one to decide. - Paul

Supergirl Season Six

SCORE: 37

I am so glad that Supergirl Season Six is the last time I have to ever watch this show. Supergirl has been so bad for so long that I almost stopped reviewing all super hero television shows. Supergirl Season Six is the quintessential example of what is wrong in Holly Weird. The radical far left propaganda preaching is constantly cringey. Supergirl Season Six is far left liberals explaining their extremist beliefs and encouraging everyone to be rebellious against God. The constant attacks on people of faith in this show is why so many moral and ethical families refuse to participate with anything Holly Weird related. I expect fanatical zealots to attack me for making these points because they do not tolerate or celebrate anyone diverse from them.

The issues families will have with Supergirl Season Six are violence, blood, bad language, lack of attire, enticement to lust, sexual deviancy, perversion, false gods, gender confusion, lack of science, fake news, sexism, racism, environmental preaching, magic, witches, and more. A homosexual couple shacking up are able to immediately become foster parents in Supergirl Season Six. That is not reality. I know foster parents and it took them months to get ap-

proved. Supergirl Season Six decides to end on attempts to redefine marriage. It is constant cringe in Supergirl Season Six.

Supergirl Season Six even fails the one good character they had - Lex Luthor. Lex falls in love with Nyxly who is a fifth dimensional imp. She is on the prowl to get this all stone to get back at her father. Honestly it is just another excuse for radical far leftist to attack men. This horrible patriarchy makes things bad Supergirl Season Six teaches. That is the system God put in place. So we should rebel against God. It is the same thing from these radical far leftists every single time - rebel against God. They don't say that though. They attack the systems God put into place and try and smear anyone who wants to be obedient to God. I guess nowadays it is cancel them which is just double speak for ruin, destroy, and harm. Amazing how the radical left is promoting all this demonic hatred and try and act like they are doing good.

Lex Luthor does get a wonderful victory in the beginning of Supergirl Season Six. He beats Supergirl and her friends and sends Supergirl to the Phantom Zone. Supergirl meets Nyxly, breaks her word and essentially screws her over. The

heroes in Supergirl Season Six are anything but. The past heroes do show up in the last episode to send this show on its way to the abyss. There are all kinds of episodes reciting radical far left talking points on race, politics, science, gender, environment, and more. Not one right wing talking point is promoted in Supergirl Season Six. In fact business is attacked. Supergirl Season Six teaches you do not need jobs if you have housing. The lack of connection to reality in dealing with real world issues is obnoxious.

Brainy must return to the future in Supergirl Season Six. Ultimately he decides to put the future at risk because he loves the gender confused character. There is no way they have kids together since no man that surgically alters his body to look like a woman can actually have a baby. Basic science and biology is ignored in Supergirl Season Six. Supergirl Season Six starts good, and then meanders around, and ends badly. The ending felt rushed to me. They spent way too much time telling everyone to save yourselves and you don't need heroes. I don't need this show nor does anyone else I know.

Cobra Kai Season 3

SCORE: 68

I am very thankful I had the money to purchase Cobra Kai Season 3 on DVD. Please note there will be spoilers throughout this review. Both Johnny and Daniel are tormented over what transpired in the season finale from season two. Karate is blamed by the snowflake school board. The All Valley Tournament is even canceled because the "woke" see it as the problem. Thankfully both of them find their way out of their self loathing. Miguel finally wakes up from his coma and is stuck in a wheelchair. Johnny encourages him to get walking again.

The issues families will have with Cobra Kai Season 3 are violence, blood, bad language, sex outside of marriage, sexual content, lack of attire, enticement to lust, attacks on the church, mysticism, and more. We do get to see more characters from past Karate Kid mov-

ies in Cobra Kai Season 3. Some even help in meaningful ways.

We learn more about the background of Kreese in Cobra Kai Season 3. We find out what happened to him in Vietnam to make him come up with the no mercy rule. We find out the horrible things he did to survive as well. We will be getting a friend of his to come and help in the future. Daniel learns a limb paralyzing technique that he winds up using in the last episode of Cobra Kai Season 3. It takes 326 minutes to watch the ten episodes of Cobra Kai Season 3.

Different kids change sides in Cobra Kai Season 3. Their storylines make perfect sense. I was really happy to see Hawk change sides. He

did get revenge on Demetri and later regrets breaking his arm. Samantha deals with fear in Cobra Kai Season 3. She does get back with Miguel after he is back on his feet. Robby winds up joining Cobra Kai after spending some time in juvenile detention. He winds up hating his dad and Daniel. Daniel and Johnny join dojos to fight off Cobra Kai.

There is a ton that happens in the ten episodes of Cobra Kai Season 3. This season feels like a setup season to me. There is a big battle at Christmas time between Cobra Kai and the two other dojos. I am a bit baffled why Cobra Kai keeps attacking over and over again. It makes no sense. Kreese gets beat up by Johnny and Daniel both. I am pleased to see Johnny and Daniel finally working together. I hope that continues for some time.

I am very thankful I had enough money to purchase Technos Arcade 1 on the Evercade systems. There are eight arcade quality video games on this cartridge. The eight games on Technos Arcade 1 are Mysterious Stones, Block Out, Combatribes, Double Dragon II The Revenge, Double Dragon 3 The Rosetta Stone, Mania Challenge, Minky Monkey and Battle Lane Vol 5.

The Mania Challenge wrestling video game within Technos Arcade 1 can be interesting for multiple family members.

The controls take a lot of practice to figure out. Thankfully Technos Arcade 1 comes with a manual so families can learn the controls. Minky Monkey reminds me of some Donkey

Kong video games. Honestly I found Minky Monkey to be extremely annoying.

The issues families will have with Technos Arcade 1 are violence, blood, lack of attire, enticement to lust, language, and more. Battle Lane Vol 5 has players riding around on a motorcycle shooting characters on other vehicles. We have two of the Double Dragon video games on the Technos Arcade 1 cartridge. It is strange that the arcade version of the first Double Dragon was not included on the Technos Arcade 1 cartridge. The Technos Collection 1 has the NES version of Double Dragon and Double Dragon 2 on it.

One of the coolest things about Technos Arcade 1 is the arcade is emulated perfectly. We press the select button to add a credit. We can keep adding credits so we can keep playing games within Technos Arcade 1. It makes it really easy for those of us that like to retain video game history and play games from the start to the finish. The majority of video games within Technos Arcade 1 are for one or more family members. I love how families can work together in the Double Dragon games. - Paul

the tale of the tape. I actually had fun playing Knockout Kings on the GBC. I played on the Gameboy Player on a Gamecube so I got to see Knockout Kings on a bigger screen.

Graphicaly Knockout Kings did not impress me. In fact I baulked at the graphics immediately. Peter was around and reminded me this is a Gameboy Color video game and the technology is not really that good. The boxers look human and their faces are on the large size. The sound effects are fantastic in Knockout Kings. I loved listening to the referee count after I knocked down my op-

ponent. I found Knockout Kings to be really easy. In fact I kept backing away and punching and was taking out the health bar of my opponent. There is no punishment for constantly punching in Knockout Kings. That means spamming the high punch button generally does a lot of damage to your opponent and will rock their head. Knockout Kings does contain boxing violence. I saw no blood or other issues with Knockout Kings on the Gameboy Color. I hope to get the time to do a video recording of Knockout Kings at some point in the future. I think FFG Universe will find this game fascinating. - Paul
