## Be Prepared

As many of ya'll know I am not a fan of living in Memphis. From the racism to the poor service this city is one bad place to live. Oh I cannot forget about the massively high crime either. Normally it does not get that cold here in Memphis. Right around Christmas we got an arctic chill and freeze. At one point with the wind chill factor it got -16 degrees. That is cold. The company that has a monopoly on the utilities here MLGW told residents to be prepared for rolling power outages. Something I have never seen since living in Memphis. Mainline pipes froze and many residents were also without water. By the way they told us to boil the water for our safety with no power. That is of course if you happened to have any water pressure. MLGW told us to be prepared with very little warning or time to actually prepare. Are you ready for the real irony here? MLGW admitted they were not prepared for this weather. They were not prepared but they expected us to be? By the way we had some freezing weather last winter. They had a year to prepare and our understanding is they were spending all the money actually preparing. Obviously they were not. That means we need to prepare for the future.

I looked up solar generators and those things are thousands of dollars. It has to be left outside which can be really dangerous here in Memphis since criminals will sneak into people's yards and steal things. That is a major expensive loss if that thing gets stolen. Or even if the solar panels get stolen. So then some security system needs to be implemented in the back yard as well. How much would that cost? Would it even work? All of this for what could amount to a day or two a year of having this problem. Does the cost actually justify the time frame? I just remembered that the solar panels take time to charge the generator. The generator will dissipate the charge if it is not being used. So you will need to know days ahead of time to charge the unit and be ready with it. That requires time to spend paying attention to the weather all of the time. By the way the weathermen are wrong quite a bit here. Finally the sun needs to be out for the charging to work good. Snow does not really help with the solar panels if you catch my drift.

There are gas generators. I have done some research and they are supposedly not as loud as they used to be. The carbon monoxide is of course still a problem. So they need to stay outside and cords need to be run to them. Great for going camping as long as you have the gasoline to power them. There is still the problem of someone coming and stealing it from outside while you are inside. So we are back to some security system cost on top

of it. Thankfully the gas generators cost less than the solar generators. Why does prepare always seem to mean go out and buy something that you really have no space to house?

All of these issues in Memphis make me want to move. I am getting more interested in living out in the country again. Get some land, chickens and more to live off the land more and better. That feels like better preparing to me. May still need to chain down a solar generator but there should hopefully be less crime out in the country. That is not 100% of course. I will continue to pray about where we should live in the future. I am hoping for somewhere else in a few years.

God bless,  
Paul Bury

# FEMALE SIDE

## Fractures getting worse

We are seeing more fractures in American culture and society lately. The two different moral and ethical systems are constantly clashing. The priority systems are completely backwards. We get one person in power and certain things are taken care of whilst others are left. We get another person in power and the whole thing flips around like an hour glass. Now the things that were on the bottom are on the top, and the things on the top are now on the bottom. It is getting so exhausting that those who came up with the opposite moral and ethical system expect everyone to follow and obey them. The problem for them is their moral and ethical system is direct rebellion against God. We refuse to follow them because we follow God. After all who knows better those radicalized mere mortals or God? I go with God every single time.

There is no faith in the election process anymore as there have been so many irregularities. I love how some people say the standard is to prove widespread voter fraud. If someone won by ten thousand and there are eleven thousand fraudulent votes that is all we need. I love how they want to create an impossible goal post and expect everyone will just go along with whatever impossible to prove rules they come up with. A recent poll found that 22% of Americans believe the Democrats are Americas greatest enemy. Think about that for a minute. There are many Democrats in power and close to one third of the American people given this poll see them as the enemy to this country. How do they recover from that? When many people think they cheated and stole elections with targeted voter fraud.

I am so sick of lies being considered okay by the tolerant of diversity. Yet when stand up for truth we not to be tolerated. We are to be attacked, smeared, and lied about for standing up for the truth. Every generation thinks they are in the end times. We are seeing a wickedness my parents, and grandparents never saw. We are seeing it in America. I doubt they will get better. Those with the rebellion against God morals and ethics are constantly marching forward. They continually try to redefine things and force everyone into their system with threats, fear, and destruction. Too many people lay around and want to be entertained. They don't care what brainwashing they are letting in. They want to check out and not deal with these problems again and again. I don't want to have to deal with these problems day after day. Someone has to stand up for what is right. Even when it is the harder thing to do.

What will you and your house do? Will you let

them come for everyone different from you until there is no one to speak up when they come for you? Will you do everything within your power that is within the law to make the country a better place to be? Will you stand up for truth, original definitions of words and institutions? Will you refuse to join the haters in their rebellion against God? What will you do about the problems our culture faces today? Will you play some Christian video games and tell others about them? Will you read some Christian books like the Future Glimpses series? Will you read your copy of the Holy Bible every single day? Will you pray and seek God's will for your life? Are there other things you could do to set things right? Have you taken time to pray about this issue?

God bless,  
Yolanda Bury

# Mission Statement

Family Friendly Gaming (FFG) was created in March of the year of our Lord 2005 as the first ever Christian video game magazine. The goal of Family Friendly Gaming is to report on video games from the family view point. Family Friendly Gaming takes a fair and balanced approach to all news, previews, reviews, interviews, features, and other articles found within. The secular video game media reports mainly on the most morally bankrupt games and call those games good. The major secular media reports on the bad side of video games mainly. Most other Christian media outlets claim video games turn the player into a zombie, or they completely worship video games. Family Friendly Gaming reports the good, and bad side effects to video games. It is the belief of the owners that readers are smart enough to come to their conclusions without those in the media handing opinions to them. Those of us at Family Friendly Gaming believe by giving you the facts, you can decide for yourself. There are plenty of really good video games on the market that teach wonderful lessons. Both inside the Christian video game market, and from non-Christian video game developers. Family Friendly Gaming seeks out these video games to bring them to your attention. Since it is unknown before playing a game how family friendly it is; it is possible that this magazine will preview a game, and then the review will expose problems previously unknown. Family Friendly Gaming promises to always ask the question: "how God feels about certain video games." God's opinion on the matter is more important than any mere mortal. Which is why the rest of the industry does not influence FFG.

Good haul. I read some One Piece in the Library over a decade ago. I also read some of the recent chapters in Shonen Jump Alpha in the early 2010s. I Like it more than Naruto but not as much as Bleach. I did like the GBA Game of it from the 00s which was based on the 4kids dub, which I kinda liked. It censored a lot but kept more in than other shows. Plus it had more Personality than the funimation dub

## Insects

Hello Paul,

I saw your video on Battle of Giants: Mutant Insects posted about 5 years ago. I was wondering if you had a copy of the second game Battle of Giants: Mutant Insects Revenge. I've looked everywhere online and could not find it. There are articles talking about the second game being made. Please get back to me ASAP if you have any knowledge on this

Your favorite insect enthusiast,  
Jordan

{Paul}: Jordan,

We do not have this game. It was released on the Nintendo DSi in the online store. Nin-

tendo has since shut down that online store so there is no official way of purchasing it at this time. You could reach out to Ubisoft and request they re-release in some other form or fashion.

Battle of Giants Mutant Insects Revenge is a great example of why we have been such long time supporters of physical copies. When a product is digital only and that store gets shut down there is no way to access it unless the companies involved put it on another platform. Compare that to a physical copy. When there

are physical copies of video games then you can buy, sell, trade, and barter them. A company cannot take it away from you ever. The problems finding a copy of Battle of Giants Mutant Insects Revenge would be less of a problem. If the game did not sell many copies then it might be expensive but it could still be procured.

I also had an errand thought about Battle of Giants Mutant Insects Revenge while typing this response. I decided to check the Nintendo 3DS eShop and actually found this game on that shop. The Nin-

tendo 3DS eShop is shutting down in March of 2023 so you will need to get fast to get it downloaded.

We have a copy of this game on one of our Nintendo 3DS systems. We do not have the ability right now to be able to record this game since the Nintendo 3DS we use for recording has been modified and never updates or connects to the Nintendo 3DS eShop. We are concerned Nintendo would brick that device is we did so. They have bricked other devices on us in the past for using developer made video games.

## Truths to Share - Full Time is Possible

I love your new series Truths to Share. There are so many wonderful articles you could write under that umbrella. Truths to Share - Full Time is Possible really hit me hard. I did not know that this is part time work for you and your family. With all of the amazing work you do, and all of the services you provide us I thought this was a full time gig for you. I am really bummed to hear someone who works so hard, does so much good, and helps out millions of families is not able to do it full time.

What can we do to help out? I greatly appreciate Family Friendly Gaming and feel that I am millions of oth-

er readers should be doing something to help out. Please let me know what that is.

- Nicole

{Paul}: Nicole,

I am so thankful that the Truths to Share is resonating with you. I am also pleased to hear Truths to Share - Full Time is Possible also reached you so well. We have a Help button in the header of our website that brings you to this page:

<https://www.familyfriendlygaming.com/How-you-can-help.html>

The How You Can Help page contains a variety of different ideas that can help us. There

are a growing number of readers doing things on that page. The first one is the most important - we need prayer. There are constant attacks from servants of Satan to try and silence us. Those that claim to celebrate diversity attack us for our message of being obedient to God. We are diverse from them and they try to destroy us. Donations, purchasing copies of our books, sponsorships and more also help us quite a bit.

Telling friends and family about Family Friendly Gaming help us a lot too. There have been some readers who told us they fill out company surveys and mention Family Friendly Gaming. Things like: "I would buy more of your products if you adver-

# SOUND OFF Continued

tised with Family Friendly Gaming.” Those kinds of things help us a lot too because after these companies hear about it enough times they come over and investigate advertising with us.

## Devotional

Family Friendly Gaming,

How are you guys and gals doing? I hope really well. Your Devotional book for January really touched my soul. It is such an amazing book. I am buying the February Devotional book next. When will the Family Friendly Gaming Devotional March book be coming? I am very eager to buy that book as well.

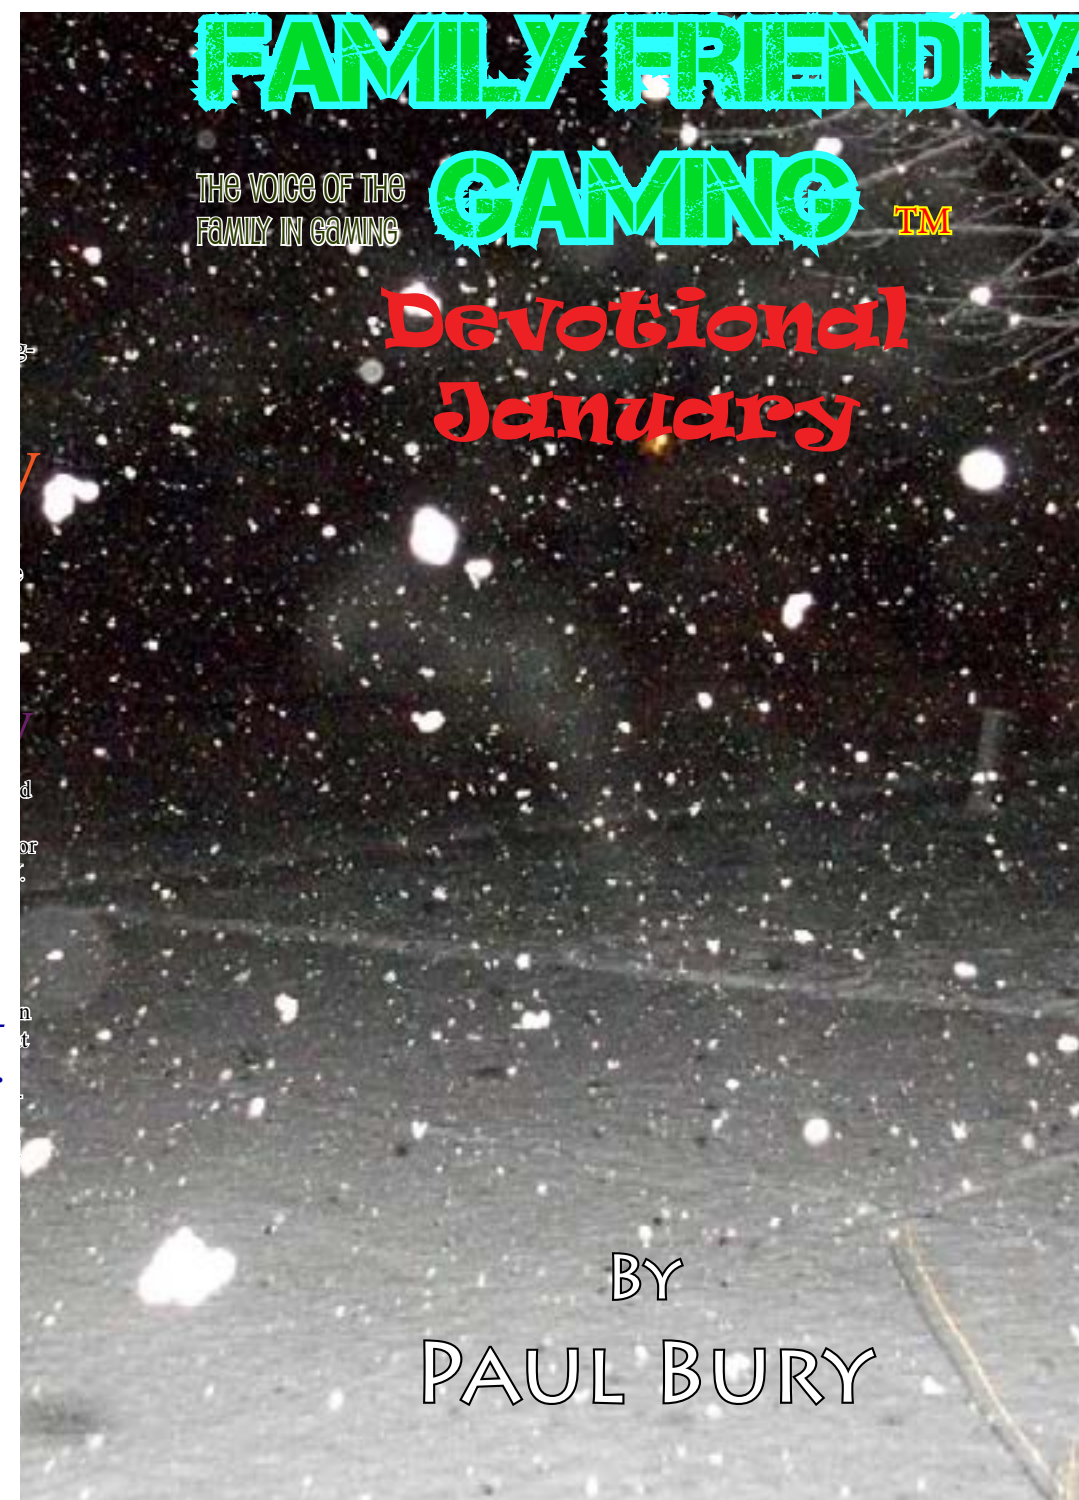

- Tonya

{Paul}: Tonya,

Thank you so much for your kind words of encouragement. I am so please to hear that the Devotional books have reached you and touched you. I am just doing what God has told me to do. I am just being faithful to what God has put before me. At times it can be difficult and other times it is such a blessing.

Onto the topic of the Family Friendly Gaming Devotional March book. I had to go back and check on my status. I was shocked to find out the text of the book was done. I just needed to do the artwork and then get it through the

Proofing process. I have made a note to get working on that to hopefully have it out in January of 2023. My original plan had been to have the book available by Christmas 2022. My sincerest apologies for forgetting it. I need a better system to remind me of all of the different things I am working on. Lord willing this will continue to grow and develop and hopefully become full time work at some point in the near future. If I had more time I would be able to get more of these things done. As it stands right now with a day job I miss things, and I lose things. I will strive to be better. It might wind up happening when I retire from the day job. I also want to work on another Future Glimpses book. I have not had the time to devote to focus on it though. One of my many prayers.

## Sorrow and Joy

There are some complex emotions we deal with as human beings. There are instances where we have sorrow and joy at the same time. Like when a fellow believer passes on to glory. We are sad they are gone, yet happy they are with God. **John 16-18** "All this I have told you so that you will not fall away. 2 They will put you out of the synagogue; in fact, the time is coming when anyone who kills you will think they are offering a service to God. 3 They will do such things because they have not known the Father or me. 4 I have told you this, so that when their time comes you will remember that I warned you about them. I did not tell you this from the beginning because I was with you, 5 but now I am going to him who sent me. None of you asks me, 'Where are you going?' 6 Rather, you are filled with grief because I have said these things. 7 But very truly I tell you, it is for your good that I am going away. Unless I go away, the Advocate will not come to you; but if I go, I will send him to you." The disciples were sad when Jesus left. They were going to be happy when the Holy Spirit came and gave

them the spiritual gifts.

No matter how bad your situation is there is hope to be found in Jesus. **John 16:8-11** *When he comes, he will prove the world to be in the wrong about sin and righteousness and judgment: 9 about sin, because people do not believe in me; 10 about righteousness, because I am going to the Father, where you can see me no longer; 11 and about judgment, because the prince of this world now stands condemned.* We will all face judgement for our acts and deeds on Earth. That goes for Satan and his demons as well. We can have hope that those doing evil will face the consequences and their earthly excuses will not work with God.

There is a battle currently in the world trying to re-define words, institutions, reality, history, and even truth. We know where truth comes from. **John 16:12-15** *"I have much more to say to you, more than you can now bear. 13 But when he, the Spirit of truth, comes, he will guide you into all the truth. He will not speak on his own; he will speak only what he hears, and he will tell you what is yet to come. 14 He will glorify me because it is from me that*

*he will receive what he will make known to you. 15 All that belongs to the Father is mine. That is why I said the Spirit will receive from me what he will make known to you."* The Holy Spirit shows truth. Just like Jesus.

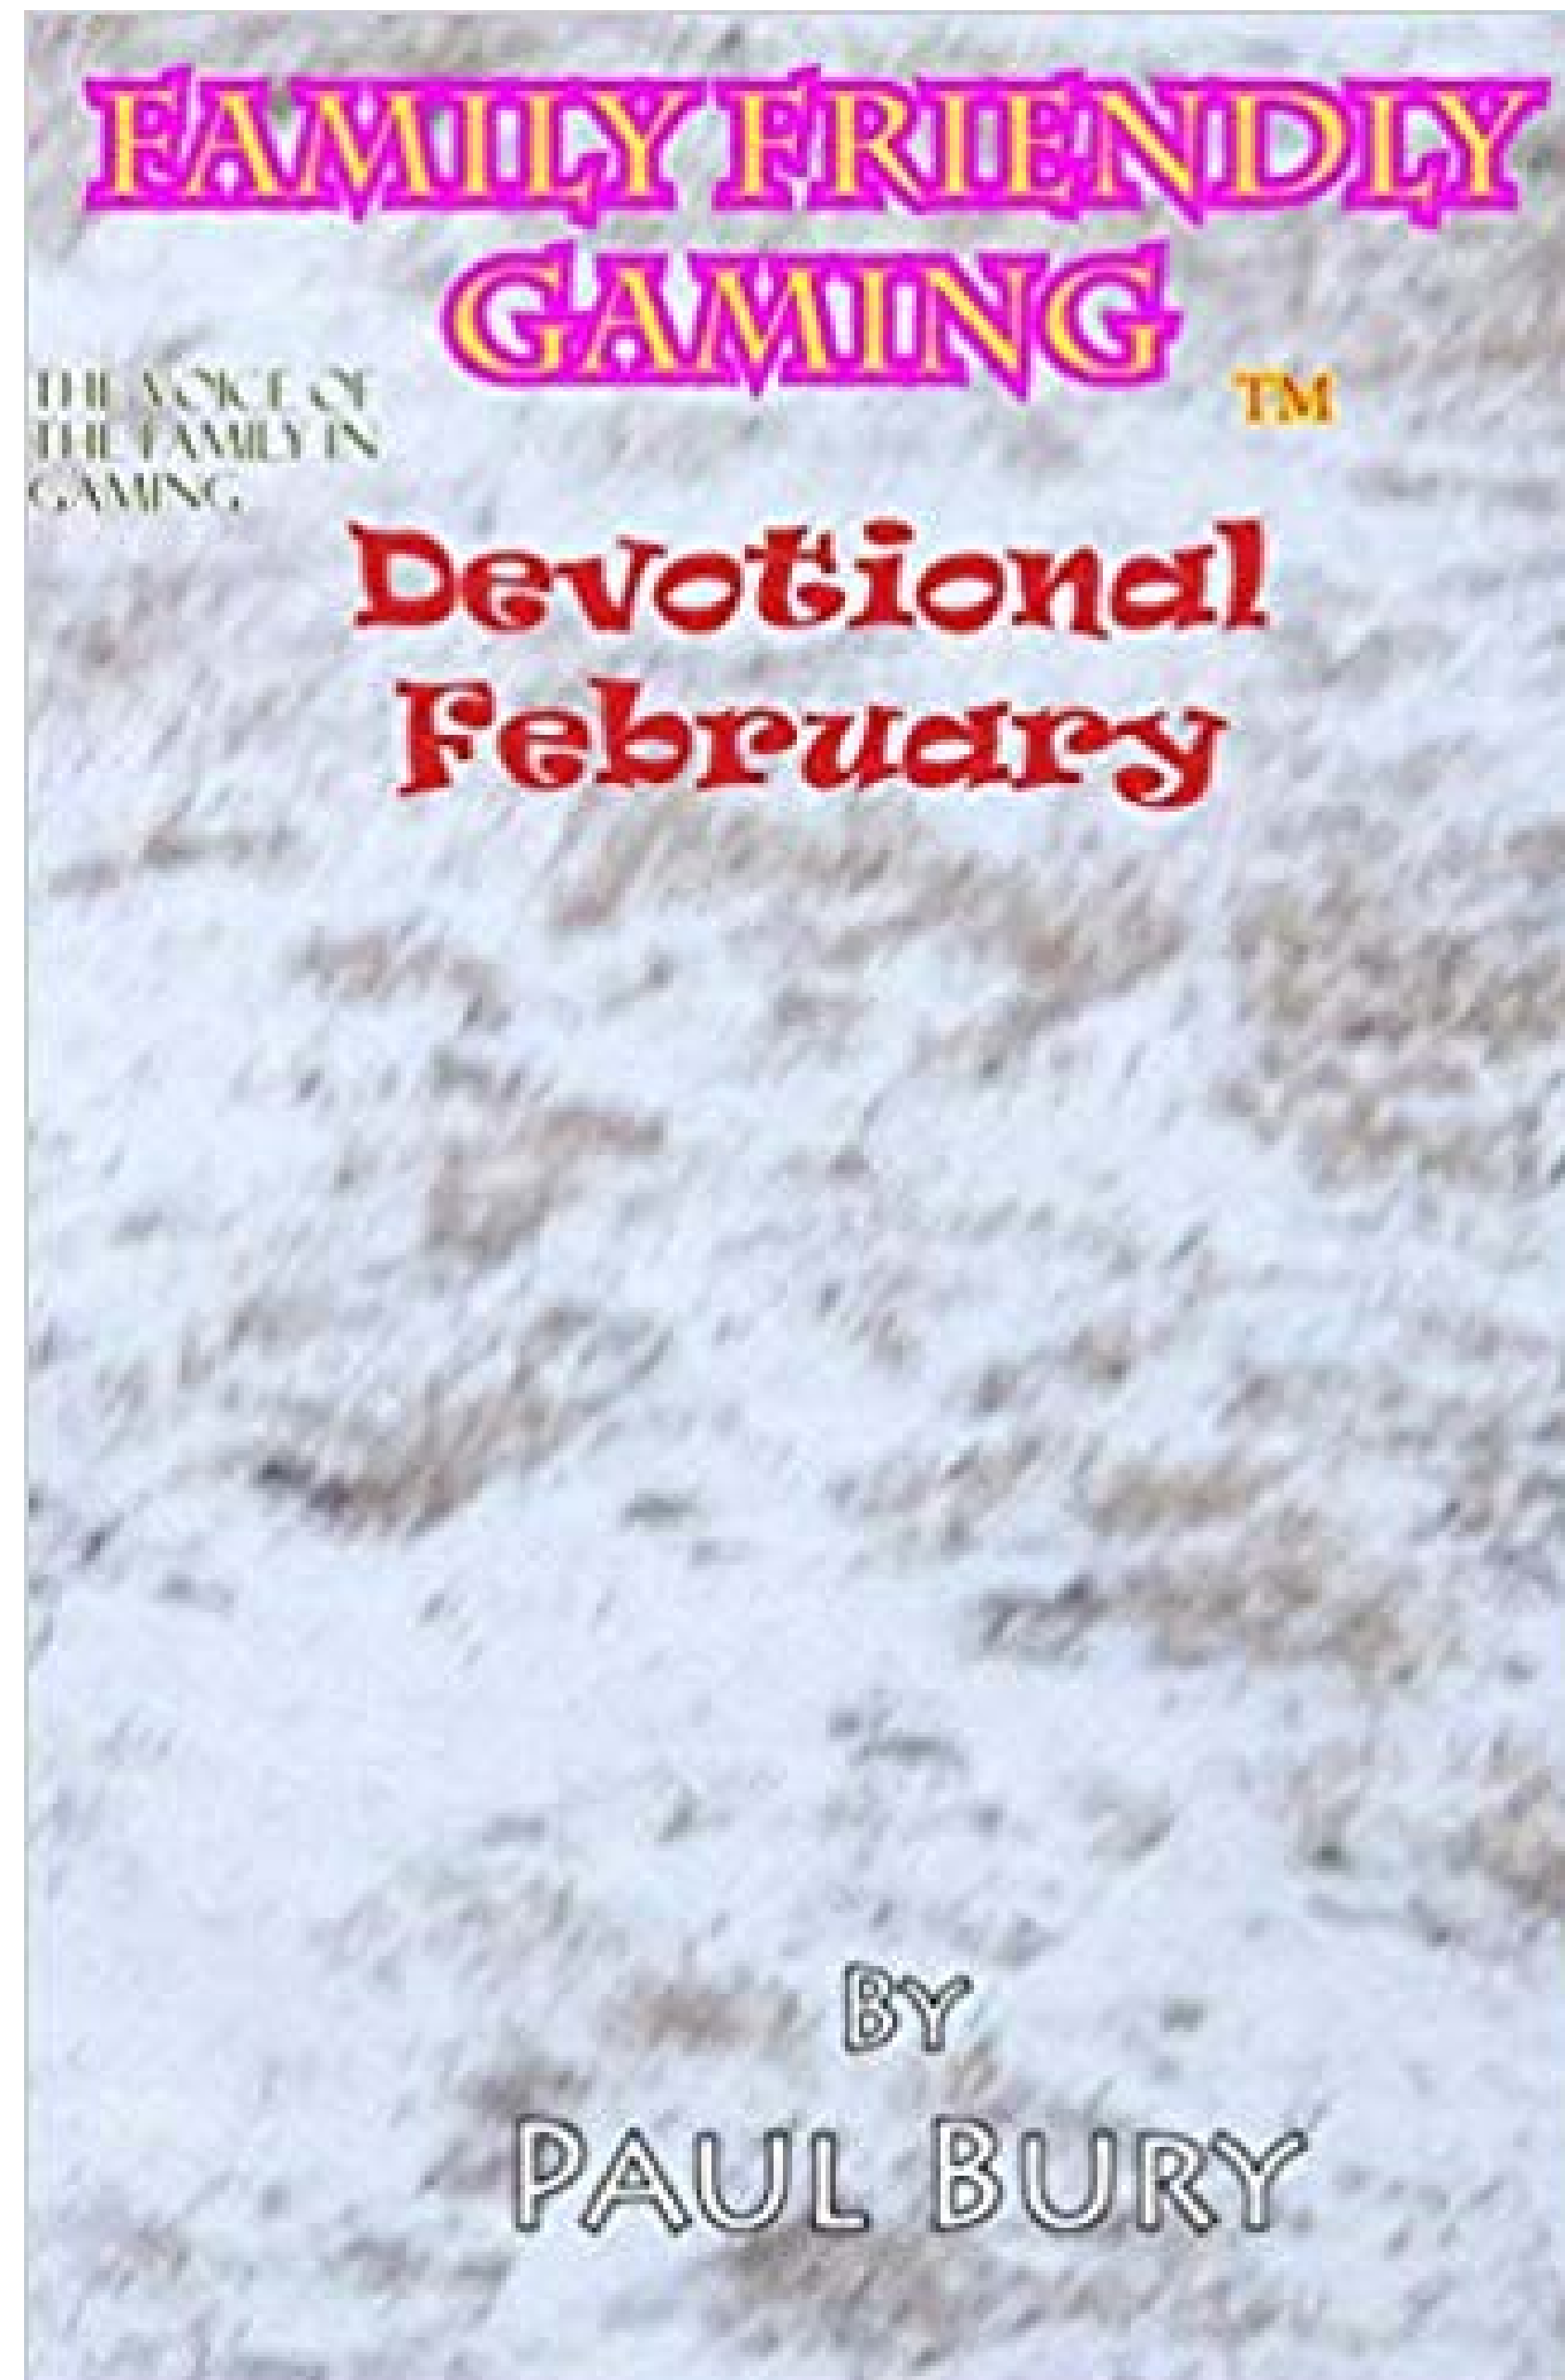

Just because you are dealing with something horrible does not mean you will feel that way forever. Just because something bad is going on in your life does not mean it will be there forever. Even if your only hope is the next life that is something to hold onto.

God Bless,  
Paul Bury

## PRAYER

Jesus,

I know that I am a sinner and need Your forgiveness. Nothing I can do of my own power will give me true joy. I believe that You died for my sins. I want to turn from my enslavement to sins, and repent of them. I now invite You to come into my heart and life. I want to trust and follow You as my personal Lord and Savior. I welcome the transforming power of the Holy Spirit. Amen.

**The Chosen Surprises at the Box Office**

Audience demand for the premiere of The Chosen's Season 3 first two episodes is driving an extension of the original five-day run in cinemas all the way through Dec. 1. With \$8.75 million in sales opening weekend, The Chosen Season 3, Episodes 1 and 2 was on 2091 screens. Fans of the TV show came out in droves and made The Chosen #3 at the domestic box office, with a strong showing in 300+ theaters internationally, as well. The Chosen was 45% ahead of its last appearance in theaters for the first three days of Christmas with The Chosen in 2021, and was neck and neck with THE MENU this weekend even though it opened on more than 1000 fewer screens.

"We have the ability to try new things, such as putting a TV show in theaters, because our fans are so passionate and supportive. Hopefully this causes others to check out Seasons One and Two," said series Creator Dallas Jenkins.

"The success of The Chosen Season 3: Episode 1 & 2 is the perfect example of how innovative the event cinema business has become and how hungry audiences are for faith-based content," said Ray Nutt, CEO of Fathom Events.

The Chosen is a global phenomenon. The multi-episode television drama based on the life of Jesus launches the first two episodes of its highly anticipated third season in movie theaters across the United States and in English-speaking territories.

With more than 420 million episode views from around the world, The Chosen is a fan-supported, seven-season television series that creates an authentic and intimate picture of Jesus' life and ministry, seen through the eyes of the people who knew him. Over the course of its first two seasons, the series has garnered praise from critics and fans alike for its historical and biblical accuracy, playful spirit, stirring drama, genuine humor and disruptive impact. It has been translated into 62 languages (and counting) and is consistently one of the top-searched shows on streaming platforms.

Angel Studios launched The Chosen through Fathom Events on Nov. 18. The opening release was set to show at least 10

times per theater over five days with extended runs through December 1, possible both domestically and in the U.K., Ireland, Canada, Australia and New Zealand. For a complete list of theaters extended through Dec. 1 and to buy tickets, visit [www.thechosen.tv/3](http://www.thechosen.tv/3).

**About The Chosen**  
The Chosen completed filming of its third season in September 2022, continuing its unprecedented success as the largest fan-supported entertainment project of all time. It has been translated into 62 languages and counting. With no fee or subscription required, it's completely free to watch and available as both a standalone mobile and TV app, plus available on multiple streaming services. Viewer support enables the show to remain free around the world. The Chosen, an Angel Studios Original, is produced by Loaves & Fishes.

**Magic and Legend Time Knights Out Now on Game Boy**

Independent publisher The Retro Room Games is launching Magic and Legend: Time Knights on Game Boy and Game Boy Color today for \$42.99.

The clothing/cosmetic options that are waiting to be unlocked include the Winter Outfit, a blue and red ensemble which comes complete with a woolly bobble hat, puffer jacket and warming scarf sure to keep you going during those brisk outdoor descents. The Christmas Elf outfit in classically festive green and red will turn your rider into one of Santa's little helpers.

Speaking of the big man, there's also a Santa beanie and Santa outfit. A fresh accessory is available in the Christmas Bag of Presents and there's also a new Rudolph Paint Job for your bike, complete with antlers for a true reindeer look and feel. ### Plantera 2 Golden Acorn Announced

VaragtP Studios is excited to announce that its upcoming sequel, Plantera 2: Golden Acorn, is also heading to PC via STEAM™ in April of 2023.

Plantera is an adorable harvesting game for players of all ages and experience levels. It offers many upgrades, fun gameplay, and a garden to watch. Players are challenged to create and maintain their virtual garden by adding new plants, bushes, trees, and animals. As the gar-

den grows and expands, cute blue creatures called helpers will be attracted to the environment and will help keep the garden tidy and lovely. You can do the work yourself or let your helpers do the chores as you sit back and relax. They even work on the garden when you are not actively playing - and if you are lucky - surprises might be available to collect upon your return. But watch out for the evil critters trying to infest the

garden, but luckily you can upgrade with a guard dog to run them off! As the game progresses, additional plants, bushes, trees, and animals unlock.

In the upcoming Plantera 2: Golden Acorn, the round blue Mellows return to tend to the Garden once more and grow the big magical oak tree that has been rumored to have placed its seed there. Players are challenged

to tend to the oak tree and grow it to the sky to harvest its Golden Acorns. Among other fun things, you can adorn your garden with decorations and watch as the garden grows lushier than ever with new plants, bushes, and trees and gets populated by new animals, both in the sea, on the ground, and in the sky. And if you want, you can pluck trees and harvest plants yourself or let your Mellows do the work for you while you watch, build, and invest in new plants. The Mellows will even continue to work and tend to the garden while you are not playing the game. As you play, you will unlock new items, and as you continue to expand and improve your garden, your magic oak tree will grow ever more prominent with it, soon reaching its crown to the sky and beyond.

# We Would Play That!

# REVIEWS

There are all kinds of cool family friendly video game ideas out there. This column features ideas of video games we would play. We hope games like these are created in the near future. Can you make it happen?

This column is being worked on - on Christmas. The idea came up about an accurate Christmas video game. You know what we mean by that right? In case you are not aware then it will be explained. An accurate Christmas video game would start with Christ. A video game that explores the birth of Jesus Christ. It could even connect to how many people's lives changed due to their relationship with Jesus Christ. An accurate Christmas video game could also explore all of the good followers of the Way have done over the centuries. There are plenty of different styles and genres

that could make an accurate Christmas video game. Families could play a game that is safe, entertaining, and of course educational in a good way.

An animal themed game might really work for an accurate Christmas video game. A sheep could be near the shepherds when the angels came singing to them. The animals in the stable could be there for the birth of our Lord and Savior Jesus Christ. Animals could also be used when the Magi arrive and give Jesus gifts. Maybe the animals know what is going on with the birth of Jesus Christ. Maybe the animals are not sure what is going on in this situation. There are so many different ways that talented and Biblically accurate writers could take such an idea.

All kinds of great Christian Christmas songs could be used in an accurate Christmas

mas video game. In fact a music game with these kinds of songs is another absolutely fantastic idea for an accurate Christmas video game. Parents would know leaving their kids with that kind of a video game would ensure better attitudes, getting in the Christmas spirit, understanding concepts like giving, and more.

So much of Christmas has gotten backwards. Christmas is about giving, and too many now-a-days only care about receiving. Selflessness is a main theme of Christmas. Too many in this age are selfish. An accurate Christmas video game could help our entire society and culture with these very important problems. What do you think about an accurate Christmas video game? Would you play a video game like that? Would you tell your friends about an accurate Christmas video game? What is your reaction to this interesting idea?

Welcome to our reviews section. We have a couple of rules when it comes to our reviews. The reviewer must give an honest accounting as to why he/she liked or disliked something. No fanboy reviews allowed here, or at the very least they are discouraged (after all everyone has their own personal biases, likes, and dislikes). Everyone also has different tolerances, and weaknesses - we strive to keep that in mind in our reviews. We have been burned ourselves by reviews saying a certain game is great, only to be greatly offended by that game. Reviewers must be kind in their reviews. A game may be horrible, but there is no need to degrade the developer, publisher, artists, etc. There is also no need for name calling.

We review video games on five separate criteria: graphics, sound, replay/extras, gameplay, and family friendly factor. Review scale can be found here. The editor in chief coordinates reviews to have as much cohesion as possible. We are very open about the way we review video games. Each section starts with a 75 score, and can earn or lose points based on the content of the game, using our grading scale (found on the website).

Parents, please do not take any of our reviews as gospel. Different people are offended by different things. We work hard here at Family Friendly Gaming to discern the good from the bad in the teachings of each different video game. What may seem harmless to our reviewer(s), could be a big deal to you. We encourage you to spend time with your children and investigate each video game yourself. Each review is written with you in mind, and we try to mention each problem we find. We are not perfect, and miss things from time to time - just as the ESRB does. The ESRB rating is merely a start, and since they ignore many of the moral and spiritual factors important to parents all across America, we do our small part to fill that huge void. We are a small ministry and your prayers are so very important to us.

Questions, suggestions, comments, or got a game you would like for us to review? Then please email us at: [Gamereviews@familyfriendlygaming.com](mailto:Gamereviews@familyfriendlygaming.com).

## Luke 2:4-7

4 So Joseph also went up from the town of Nazareth in Galilee to Judea, to Bethlehem the town of David, because he belonged to the house and line of David. 5 He went there to register with Mary, who was pledged to be married to him and was expecting a child. 6 While they were there, the time came for the baby to be born, 7 and she gave birth to her firstborn, a son. She wrapped him in cloths and placed him in a manger, because there was no guest room available for them.

# Sonic Frontiers

## SCORE: 80

I am so thankful I had the money to purchase a copy of Sonic Frontiers on the Xbox Series X. This open world action adventure platformer has many cool things going for it. This is an open world Sonic the Hedgehog video game that works. There are instances where we get stuck in 2D actions or 3D actions when we want the other one. Those are rare and I found ways to get around it most of the time. We do a lot of different things in Sonic Frontiers too.

We find these little guys and can turn them in to get more rings or more speed. We also find seeds that increase our power and defense. There are puzzles to solve, and enemies to defeat. The gears are used to open 2D side scrolling levels that are in Cyber space. There are items to get to help a character like Amy, Tails, and Knuckles. We can open parts of the map thanks to the simple little puzzles. There are five islands in Sonic Frontiers. The story telling really caught my attention in Sonic Frontiers.

That is one of the reasons I kept playing this game.

The voice actor for Sonic is someone new and that felt off and wrong. We can run around in circles to generate rings when we get low. Riding on rails is fun within Sonic Frontiers. We collect Chaos Emeralds to get to the end bosses. These titan bosses can be challenging. Sonic Frontiers relies a lot on the Parry skill. We can unlock skills thanks to the skill points we find and earn in Sonic Frontiers. There are

plenty of 2D things to do and find within Sonic Frontiers. I loved running in a circle drawing a line and digging up a treasure chest in Sonic Frontiers.

We can leave markers on the map to find certain areas we want to get to in Sonic Frontiers. The game will direct you to the next spot. One thing that annoyed me was being told to find more memories for Amy for example. The game points me to Amy. I had to find her memories through exploration. It would have been nice if Sonic Frontiers pointed me to areas where the memories were. I learned after the first world to explore a lot and collect these items before trying to do too much.

Sonic Frontiers is longer than most of the Sonic video games I have played. Hopefully you were able to catch some of the live streams I performed of

Sonic Frontiers. If not please check them out in our video sections. Sonic Frontiers can be a bit light compared to other open world games. - Paul

# NHL 23

## SCORE: 70

Did you catch any of the live streams I did of NHL 23? If not you should be able to find two videos of this game in the Video section of the Family Friendly Gaming website. I actually streamed NHL 23 on Rumble, and Twitch. The Rumble live stream was too glitchy to save which is a shame since it showed some amazing things like the goalie leaving for another attacker. I got two easy goals that way.

One thing the videos of NHL 23 show is my frustration with this game. At one point I had taken thirty-one good shots and only had one goal to show for it. It is like we have to trick the game, and have a player in the goalies way to be able to score. I just kept knocking on that door until I got some to go in. Another game I put the goalie in the goal to score. This was on the easiest difficulty setting too.

NHL 23 has different view-

points but the puck drop is still a bad angle. I found the oldest control scheme works the best for me. Isn't that sad that a control scheme from decades ago works better than the newest ones? NHL 23 has had that problem for a long time though. When there are close-ups the graphics look decent. Otherwise things are really small in NHL 23. We get to see the different arenas and they look decent. We got quite a few laughs out of the name of the Seattle Krakens ice rink.

NHL Threes is a mode that families can enjoy. It is a much faster more arcade style with three on three. Technically four on four if you count the goalie. There are some neat different rinks to play in, and unlock in NHL 23. If you are into women sports then you can play with females in NHL 23. My accurate opinion of women's sports has been well known and well documented.

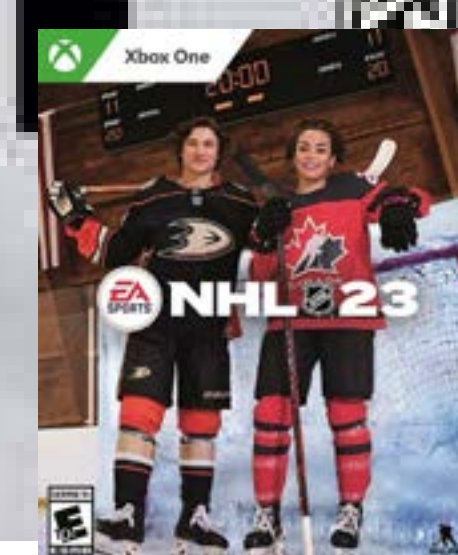

No need to get into that again. There are more offline modes than online which is great to see.

The offline modes in NHL 23 are Play Now, Be A Pro Career, Franchise Mode, Tournaments, IIHF Tournaments, Ones Now, NHL Threes, Season Mode, and Playoff Mode. The Online modes in NHL 23 are Hockey Ultimate Team, World of Chel, Online Versus, HUT Rush, and NHL Threes Online. There are of course settings, and the music can be turned off. You can also turn off the announcers if you do not want to hear them.

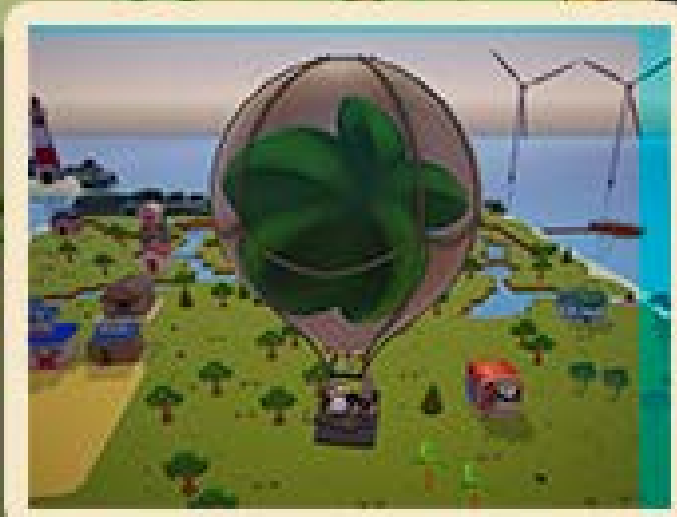

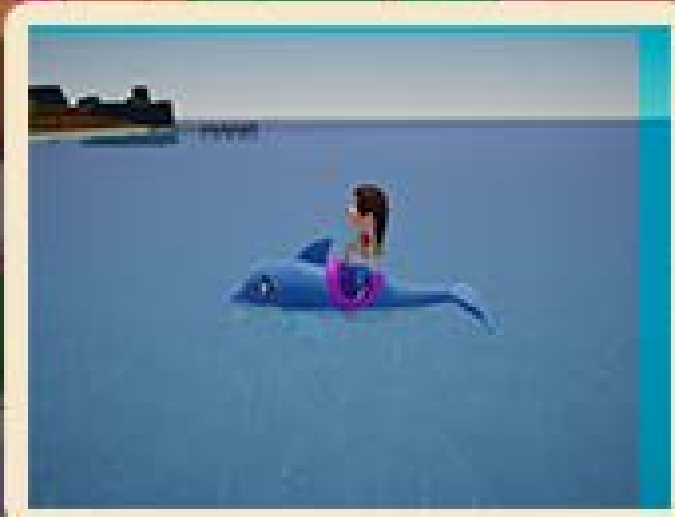

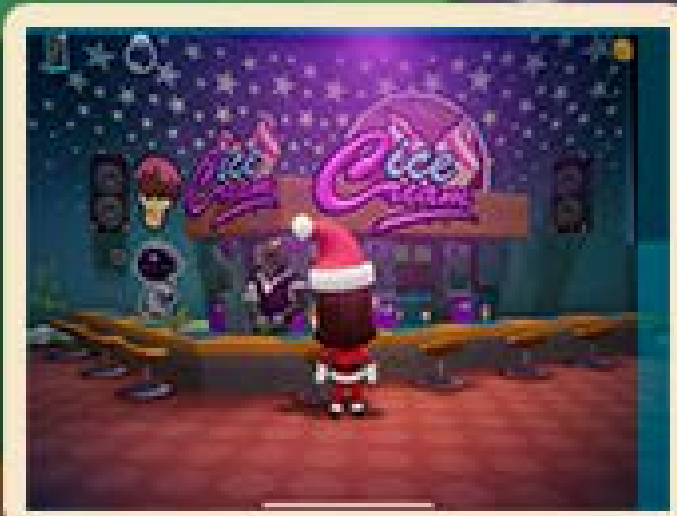

Fights are a part of NHL 23 and are easy to initiate if you know the right button to press. You can also knock other players down with some brutal shoulder blocks in NHL 23. Violence and bad language are the main issues families will have with NHL 23. - Paul

FIFA 23

Fifa's star is rising again. Did you catch the live stream game Peter and I did of Fifa 23 on our Rumble page? That was such an exciting game that thrilled all of the viewers who were there live and were able to interact with us and the game. If you missed it then you can check out the video that should be up on our website before this review is online. We so appreciate everyone who hangs out with us when we are live playing video games and more.

on the rise and is actually some fun to play.

My biggest problem with Fifa 23 is the running toward the goal and my player kicking some odd

Fifa 23 impressed me. Peter felt like it was the same game. I noticed improvements in the dribbling in Fifa 23. It felt a little weird but usually went in my favor. It was neat to pull up, and change directions so much easier in Fifa 23. This is an area that eFootball had dominated Fifa for so long, eFootball shot themselves in the foot a few years ago and has been on the decline. Thankfully Fifa 23 is

direction way away from the goal. I am not sure why that happened so many times. I had to almost be dead center of the goal and close to make it go in. Penalties are kind of random. Some sliding tackles are okay and others are a card. I never figured that out. I even slid into Peter a few times expecting a penalty and did not get one. In past Fifa games every single sliding tackle was a penalty. So there have been adjustments there as well.

when sports games allow us to turn all of them off with the press on one button. Fifa 23 is nice to families and streamers that way. The announcers are decent at calling the action. Especially when a player is about to take a shot on the goal. I found Fifa 23 to be fun and I am not into soccer one bit.

There are plenty of modes and ways to play Fifa 23. We played a game in the World Cup to show it off since that event was also happening at the time of the live stream. You can use Fifa 23 to make your country win the whole thing to see how that would feel. Many of the people in the stands look similar. They may have different colored shirts or flags but beyond that there is a lot of rehash. Multiple difficulties and control schemes are available in Fifa 23.

The music that your family may find offensive can be turned off with one quick selection. I love it

## Slime Rancher 2

# Slime Rancher 2

SCORE: 80

Slime Rancher 2 lets us continue the adventures of Beatrix LeBeau. This time she goes across the sea to Rainbow Islands. I hope she finds Noah's Ark on Rainbow Island. There are new and different slimes to

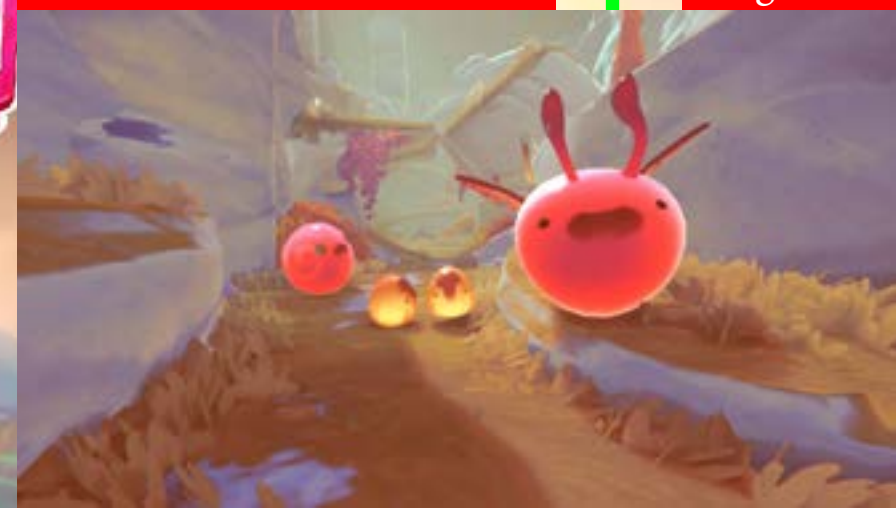

catch, coral, feed, and develop in Slime Rancher 2. I noticed some disturbing changes within Slime Rancher 2 too. We can no longer feed the slimes as much as we want as quickly as we want. What did Slime Rancher 2 do?

We must wait so long after feeding the slimes. They get full and that is all they can eat for so long. Slime Rancher 2 added the horrible app mechanic to the game which really hurts it in the long run. Some of us want to burn through certain sections of the game as quickly as we can. We do not want to make Slime Rancher 2 a daily chore we have to do. What am I on a farm having to milk the cows, get the chicken eggs and more? I like how it was done in Slime Rancher. Maybe that issue will be fixed in the future. Slime Rancher 2 is a downloadable game right now

that is still being updated. I was able to play Slime Rancher 2 thanks to my big brother having Xbox Game Pass.

The slimes seem a lot more different and animated in Slime Rancher 2. The speed of being able to move around is decent in Slime Rancher 2. We can easily find and grow food for our slimes. We can also easily build up the ranch while we are playing Slime Rancher 2. Remember to keep certain slimes away from other slimes. You would not put an anaconda in a cage with a rodent would you? The outcome

is pretty predictable. The same goes for Slime Rancher 2. This game can teach families to be careful what animals they put together.

Slime Rancher 2 looks nice and it sounds nice. The first person perspective works well for Slime Rancher 2. The gameplay area is large enough to keep most gamers engaged for a few weeks at the very least. Just remember the progress will be slower in Slime Rancher 2. I like the different additions to the slimes like ears and whatnot. The slimes are generally happy go lucky looking in Slime Rancher 2. The bunny slimes are especially fun to look at in Slime Rancher 2.

Monomi Park made changes to Slime Rancher 2. Some of them are for the better and others are definitely not. At least that is my personal opinion. I may try to check out this game in the future and

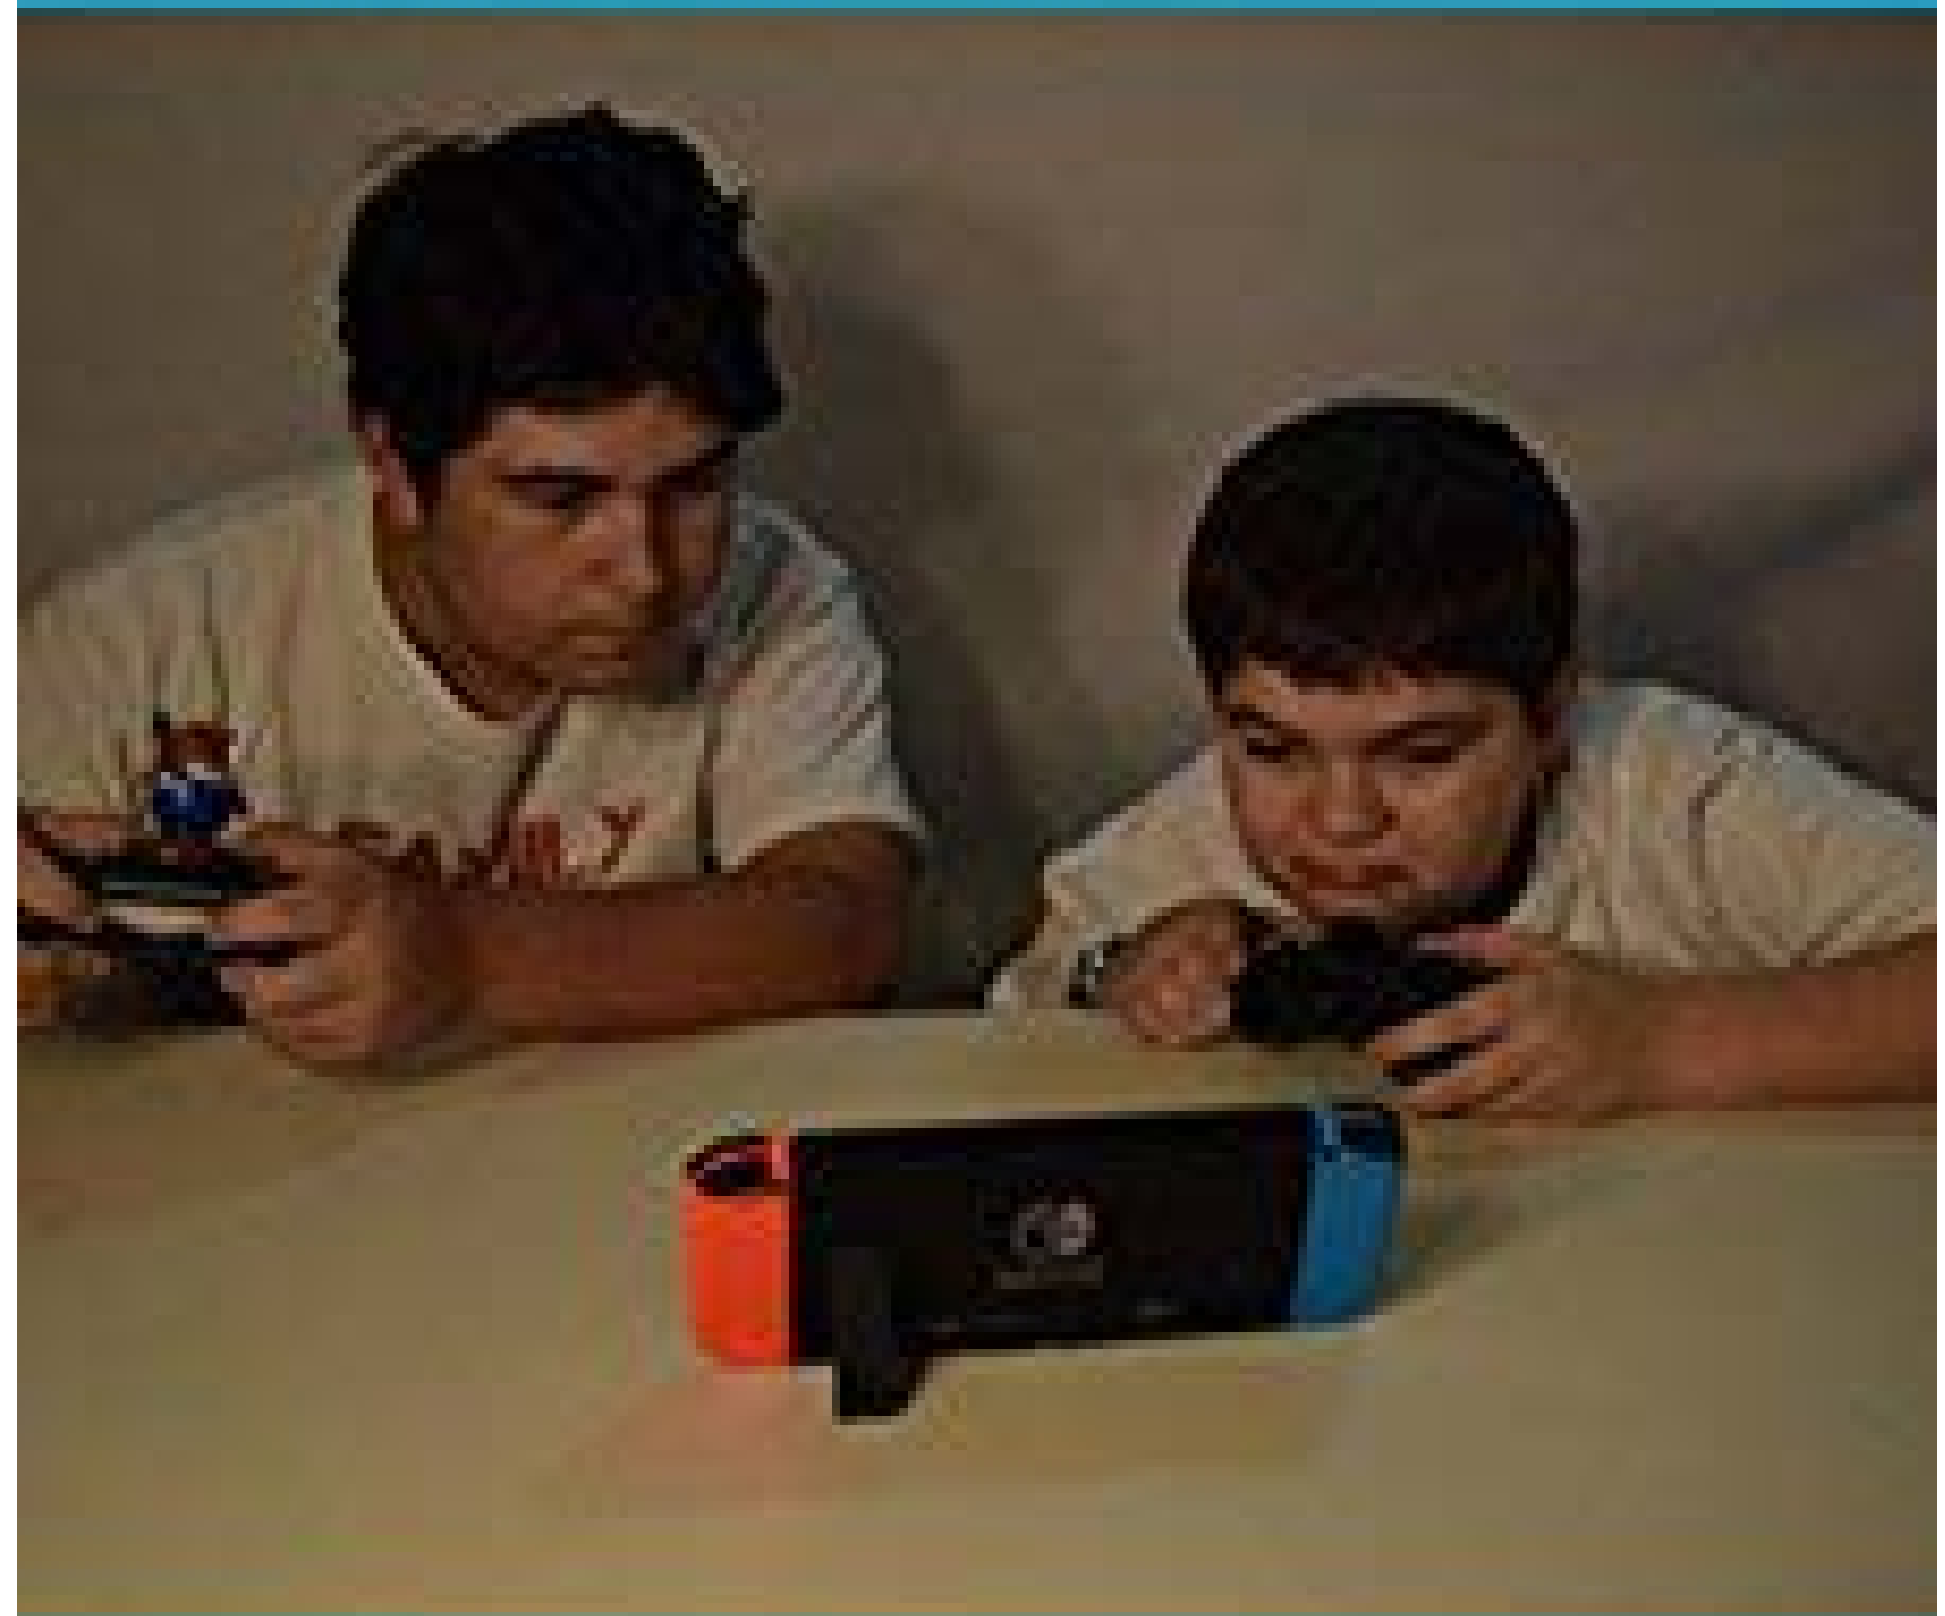

see what changes have been made. I want to be able to feed the slimes as fast as possible to progress through the game faster. Hopefully the dev is listening.

I have finally completed the Fortnite x Marvel Zero War storyline and series with Fortnite x Marvel Zero War #5. Please be aware there will be spoilers in this review. Fortnite x Marvel Zero War #5 may not be the end of this based on what was shown at the end. Geno and his daughter Imagined go into the Zero point and wind up with their molecules being spread across the universe. Geno comes back though at the very end.

ed. Wolverine is such a tragic character in so many of the comic books I have read. Spidey and Tony Stark are fun characters that bring us some humor in Fortnite x Marvel Zero War #5.

Ads can be found throughout the Fortnite x Marvel Zero War #5 comic book. There are thirty pages of content and a page devoted to bringing new readers up to speed on what has already happened. I feel like Fortnite x Marvel Zero War #5 is a bit of a let

down in some areas. For example Dr Doom just leaves. He does not fight the heroes or anything. The main bad guy is taken down really easily. There was all this talk how how tough their defenses

were and it just falls flat. The giant mech robot is taken out really easily by a pit. It does eventually recover. The good guys prevail in Fortnite x Marvel Zero War #5. There is some violent content, bad language, and lack of attire in Fortnite x Marvel Zero War #5. I enjoyed the artwork and much of the dialogue. The whole multiverse is present in Fortnite x Marvel Zero War #5 as the Omniverse. An easy way to kill off a character and bring them right back from another universe.

I loved the humor in little things like back bling in Fortnite x Marvel Zero War #5. Anyone who knows Fortnite will understand these things. There is also Marvel related humor like how the different characters paired off. Jonesy is an interesting character that I hope is explored some more. Fortnite x Marvel Zero War #5 gave us some good insights into him and his possible future. - Paul

Wolverine must make an amazing sacrifice in Fortnite x Marvel Zero War #5. He must let the woman he cares about and her father drop into the zero point. This makes her sister furious with Wolverine. She does not care that this is exactly what her sister want-

Noah is all into My Hero Academia. He enjoys the anime, and has clothing with the characters from the show on them. I saw the manga and thought he might be interested in it. That is why I purchased My Hero Academia Vol 1. Noah has been reading One Piece manga so I thought he would be all over this manga. Thus far Noah has not even looked at My Hero Academia Vol 1. I decided to go ahead and read it for a review. It is interesting to go back to the beginning of this franchise after seeing so much of the anime.

We meet Izuku Midoriya in My Hero Academia Vol 1. He is a young man who wants to be a hero so badly. Both of his parents have quirks so it should be a slam dunk. Unfortunately for Izuku he has no quirk.

Around eighty percent of the population in this fantasy world have some quirk. For those that do not know a quirk is a super power. All Might is the number one hero in My Hero Academia Vol 1. All Might is looking for his successor. All Might sees Midoriya rush in to save someone even though he has no powers. He makes his decision.

There is one really gross thing in My Hero Academia Vol 1. Izuku must eat one of the hairs of All Might to gain the power. The power is passed along from person to person. My Hero Academia Vol 1 does not get into it but the power grows stronger with each person. There is also violence, bad language, and blood within My Hero Academia Vol 1. It certainly earns it thirteen and older only rating. Some people with powers pick on the quirkless kid be-

cause they abuse their power. A sad testament to how many people in our world act as well.

Midoriya goes on a tough training regiment to be able to hold the power of All Might. He then must take the exam to get into the school.

He uses the power to save someone else. In the process it messes up his own body quite badly. Other characters comment that it is like he is not used to his power. They are completely accurate in their assessment. Izuku must continue to train to learn his power and how to regulate it.

My Hero Academia Vol 1 is a decent read with some nice artwork here and there. Katsuki Bakugo sets himself up as the obstacle Izuku must overcome in My Hero Academia Vol 1. He does stand up to him thankfully. - Paul

# The Addams Family 2

SCORE: 63

I am so thankful I had the money to purchase a copy of The Addams Family 2 movie on DVD. This animated film is the sequel to the one I reviewed earlier in 2022. I must say that I am not that much into the sequel. This poorly marketed and advertised franchise was only noticed because of Black Friday sales. These companies need to step up their game. They have missed out on millions of families by not engaging Family Friendly Gaming. There will be spoilers in this review.

Wednesday is becoming increasingly moody and anti-social in The Addams Family 2. Gomez decides that a family trip is what they need. They do odd things like jump off Niagra Falls in barrels. Many of the things done in The Addams Family 2 are macabre and morbid. There is also some cartoon violence, and bad language within The Addams Family 2. The macabre and morbid is kept generally tame for the PG rating.

Wednesday experiments on Uncle Fester and winds up turning him into a giant monster that is part octopus. The splicing of human and animal DNA is a major part of the storyline within The Addams Family 2. Cyrus convinces Wednesday that he is her real father in Addams Family 2. In fact at one point it looks like he is her father after she does a DNA test on Gomez. We later learn that the hair on Gomez's

head actually comes from a sasquatch.

There are some humorous moments within Addams Family 2. I wish Wednesday was a bit nicer to her brother Pugsley. There is one cringe moment within Addams Family 2 where all the kids at the science fair are declared winner. Wednesday is not very pleased and show what happens when that radical far left liberal belief is applied in the real world. I will give you a hint - it fails just like the economic policies of Joe Biden.

Cousin Itt makes an appearance in Addams Family 2. He is a strange character that actually helps numerous family members within Addams Family 2. Gomez wants to help his children so badly in Addams Family 2. I wish they were a bit more receptive to his love. In the end the bad guy is vanquished and Uncle Fester is returned to his normal self. I hope there is not a third movie since it is wearing thin already. - Paul

# Alf Season Three

SCORE: 73

I am very thankful we had the money to purchase Alf Season Three on DVD. Technically we have the entire series and are reviewing the seasons one at a time. The characters were settled in pretty good in Alf Season Three. There are a few different issues this television season addressed. The last example is about Jake's mom being a Kleptomaniac. Alf Season Three is very strong on defending her and it is not her fault she keeps stealing. I always ask certain questions. How do the victims feel? That was not really addressed in Alf Season Three.

There is less of trying to keep Alf safe in Alf Season Three. We do have an episode or two where he could get caught and captured by the government. Although the government workers are made to look like buffoons. A homeless man is quite the hero in a couple of those episodes. There are instances of cartoon like violence in Alf Season Three. Superstitions are encouraged and taught to be real in Alf

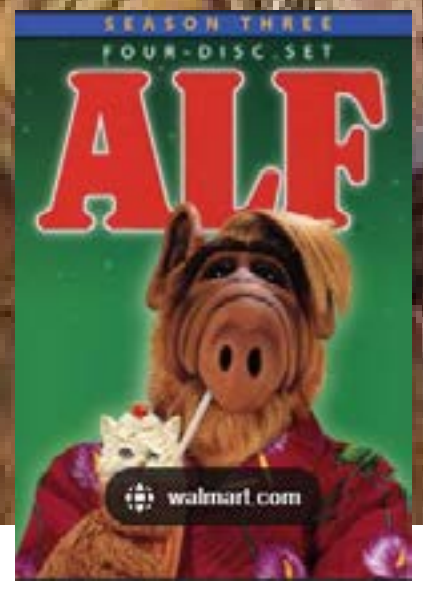

Season Three. Topics like racism and women working are also addressed in Alf Season Three. There are references to false gods in Alf Season Three.

The family does lie a lot to protect Alf. Another lesson from Alf Season Three is that we are all the same under the skin. College degrees are encouraged and discussed in Alf Season Three. The value of different degrees is joked about in this season. Lynn is trying to find her major and explores different ones in Alf Season Three.

The baby is born in Alf Season Three. The final episode is out of order since the baby has already been born and in the last episode Kate is still pregnant. The Tanner family tries to make Alf feel appreciated when he is bored in one episode.

There are numerous laughs within Alf Season Three. There is also plenty of sarcasm in Alf Season Three. Alf hosting The Tonight Show for Johnny Carson was interesting. Alf was pretty rude to the Pope though. There are twenty-seven episodes less than thirty minutes in Alf Season Three. I wish Alf would finally grow up a bit. Costing the family so much money and breaking so many things is getting old. I like how he is now up in the attic. Even had ants for pets for a short time. - Paul

## Codemasters Collection 1

SCORE: 80

I am so thankful I had the money to purchase a copy of the Codemasters Collection 1 Evercade cartridge. This is the nineteenth cartridge in the main line of their retro and indie game compilation cartridges. There are seventeen games on Codemasters Collection 1. The games on this cartridge are Bee 52, Big Nose Freaks Out, Big Nose the Caveman, Boomerang Kid, CJ's Elephant Antics, Cannon Fodder, Cosmic Spacehead, F-16 Renegade, Linus Spacehead, Mega-Lo-Mania, MiG 29 Soviet Fighter, Psycho Pinball, Sensible Soccer, Stunt Buggies, Super Skidmarks, Tennis All Stars, and The Ultimate Stuntman.

Before I geek out too much over Codemasters Collection 1 I should be honest, genuine, and real about the issues within this game. The issues families can have with Codemasters Collection 1 are violence, false gods, lack of attire, enticement to lust, and more. There are some shooter violent

video games within Codemasters Collection 1. There are also numerous platformers, some sports games, and a culture builder. The games on Codemasters Collection 1 are 8-bit and 16-bit. There are more 8-bit titles than 16-bit titles.

Codemasters is currently known for their racing games.

Codemasters Collection 1 shows that Codemasters had some interesting and different ideas for games back in the day. Bignose and CJ's Elephant are some interesting characters on the Codemasters Collection 1 cartridge that stuck out for me personally. Tennis All Stars was previously unreleased. That alone is worth the twenty dollars to purchase this cartridge, with case, and instruction manual. I feel Codemasters Collection 1 is definitely worth the money especially if you like retro games.

Families can get some great entertainment and history from Codemasters Collection 1. For example Tennis All Stars was changed and eventually released as Pete Sampras Tennis. It is so cool to see the previous build of the game. It is like getting a director's raw cut. Psycho Pinball may scare some of the younger members of the family. Codemasters Collection 1 has a lot of history for gamers interested in learning about the past of our industry.

## Mega Cat Studios Collection 2

SCORE: 68

Wow look at Mega Cat Studios. They get two separate collection cartridges. I am very thankful I had the money to purchase a copy of Mega Cat Studios Collection 2. This package comes with a case, cartridge, manual, and an insert. The insert is about how the version of Roniu's Tale is an exclusive demonstration. Make sure to update your system because once the full version is available then you will be able to play it. That is pretty neat.

The games included on the Mega Cat Studios Collection 2 cartridge are Arkagis Revolution, Devwill Too, Alter Ego, Gluf, Romeow & Juliecat, Roniu's Tale, Misplaced, and Yazzie. There are eight indie games in all included on the Mega Cat Studios Collection 2 cartridge. This is less than was

included on the previous Mega Cat Studios Collection. Mega Cat Studios Collection 2 includes one shooter, three puzzle platformers, two platformers and three puzzle video games.

The puzzle and platformer genres really dominate the Mega Cat Studios Collection 2. The graphics are very indie within Mega Cat Studios Collection 2. There are a couple of games on the Mega Cat Studios Collection 2 cartridge that are done in the 16-bit style. The majority look to be in the 8-bit style. At least to me. The music is the same way in Mega Cat Studios Collection 2. The ret-
