## Up and Down

I am writing this near the end of the year of our Lord 2025. This has been an up and down year. I hope 2026 is a bit better than 2025 has been in some regards. In other regards I hope 2026 improves upon some growth and gains in 2025. Let us spend some time focusing on some of the good from 2025. The website views on our website continued their really good growth. Most months were over two million hits. The unique IP addresses climbed quite nicely in 2025 as well. Everything on YouTube, Rumble, Bitchute, and Odyssey grew quite nicely. We reached 450K subscribers on YouTube. We cross over one thousand subscribers on Twitch. We are almost to 1.6K on subscribers on Rumble. I do not know the total unique IP addresses that have used the website as of yet. I know it grew yet again. We worked with a wonderful gentleman as a YouTube manager and grew every single aspect on the channel.

I got through another Just Dance video game in 2025. I played through Mega Man Battle Network 3 and Final Fantasy Pixel Remaster III. I gave my word that I would try and get to one of those games a year each year. I have plans to get started on Mega Man Battle Network 4 very soon. I like to get my chores out of the way whenever possible. I started playing Dragon Quest III HD-2D Remaster in 2025. I hope to wrap it up in early 2026. I got a fair distance in Pokemon Legends Z-A in 2025. I hope to wrap that one up in early 2026 as well. Played through numerous other video games like Kirby Air Riders, Donkey Kong Bananza, Fantasy Life i The Girl Who Steals Time, Mario Kart World and more.

Twelve more issues of the Family Friendly Gaming magazine were created, and published. We released a short every single day in 2025. We process the live streams into videos for the other video channels. We planted, and harvested another garden. We made jam, and other canning things. We have been working on things like home made juices. We are working on getting our debt under control. We are making plans for the future. Lord willing we can get to those plans.

God allowed us to live another year. There have been physical challenges. There have been emotional challenges. The COVID brain fog has been one of the major challenges for both Yolanda and myself this year. Noah finished his internship and got a job in 2025. It is a part time job but he has been enjoying it and doing a good job. Peter had some trauma and turmoil in 2025. Thankfully he is back home away from some bad people, and a bad situation. Peter also got a new job that pays more money so he is happy about that. Yolanda contin-

ues her part time gigs. I continue my day job. I still want to do this full time, but not enough money comes in for that. Not even close. The money did go up a little bit. I am beginning to think this will be supplemental income when I hit retirement age. The economy continues to slowly improve from how bad it was for years.

The thing I notice is some things start in a year, and some things end. Some things continue on across the yearly barrier. I keep doing what God called me to do. I get tired here and there but otherwise I keep trucking on. Like Joshua said: "as for me and my house, we will serve the Lord" Joshua 24:15.

God bless,  
Paul Bury

## Did not Do so Good

A lot of us here at Family Friendly Gaming are reflecting on 2025. I had so many plans. I wanted to get some more craft videos done in 2025. I did not reach my goal. I did get some more shorts done in 2025. I got into a regular practice of doing shorts thanks to my hubby. Paul is really good at finding opportunities. In a lot of ways he gets so many things done because he sees an opportunity and takes it. He could probably teach a class on that. It comes down to focus, and perspective he would say. I did get some regular food videos in 2025. Paul had an idea for me in 2025 that did not quite happen. I am still thinking about it. I am still trying to figure it out. Any clue as to what I am discussing here? A live stream on YouTube or Rumble where I do a craft or a food related item. It is an interesting idea. It does take a little bit of a setup. There is a channel with a lady from Oregon that I like to watch that does something similar I think.

Even after twenty-five years of marriage I still learn from my hubby Paul. He still continues to teach me things. This is a new year and I can work on doing better. I want to get more craft videos done again. Maybe a live stream that is turned into a video is the way to go. I will try and figure that out. I could get better at getting my chores done first and then relaxing later. I guess the concern is I will never get to relax. I see it with my hubby Paul quite often. He goes like the Energizer Bunny. He does not get much time to relax. The other side of the coin is I do not get all of the chores done all of the time. So maybe I need to limit my own relaxation time to ensure the chores get done. Maybe I reward myself with some relaxation time after getting chores done. That is definitely something to ponder.

I want to do better in 2026. Once I get a handle around some other things we are working on I plan on asking for some help to get things setup. I know Paul would love for me to show off more of the different kinds of juice I have made. I really feel that like is more healthy for our family - home made juice. We use way less sugar than what you can buy at the store. It does take more time to make the juice but isn't the health of your family important? My answer to that question is a resounding yes. Paul has been teaching me some cool things like how to do the clipart with the new image software. I find that very interesting. I upload videos to Rumble, BitChute and Odyssey a couple of times a week. I continue to upload the videos to YouTube. We are actually uploading a few more videos a week as well. We are giving YouTube channel members some additional videos each week. I am very thankful for

all of the support all ya'll have provided.

There is so much we do on a daily, weekly, and monthly interval. I look back and see all of the progress. I see all of the things done. It encourages me to keep going. To keep getting these things done. We are reaching more people for the Kingdom of God. We are shining as a light on a hill in a dark video game industry. We have reached out into comics, movies and television shows. What is the next area of growth for Family Friendly Gaming? I know another sector that Paul wants to slowly get us into. Will it happen in 2026. Stay tuned. Keep it here. You will find out with us. Appreciate all of your donations, subscriptions, memberships, book purchases, and more. We can do it with your support.

God bless,  
Yolanda Bury

## Mission Statement

Family Friendly Gaming (FFG) was created in March of the year of our Lord 2005 as the first ever Christian video game magazine. The goal of Family Friendly Gaming is to report on video games from the family view point. Family Friendly Gaming takes a fair and balanced approach to all news, previews, reviews, interviews, features, and other articles found within. The secular video game media reports mainly on the most morally bankrupt games and call those games good. The major secular media reports on the bad side of video games mainly. Most other Christian media outlets claim video games turn the player into a zombie, or they completely worship video games. Family Friendly Gaming reports the good, and bad side effects to video games. It is the belief of the owners that readers are smart enough to come to their conclusions without those in the media handing opinions to them. Those of us at Family Friendly Gaming believe by giving you the facts, you can decide for yourself. There are plenty of really good video games on the market that teach wonderful lessons. Both inside the Christian video game market, and from non-Christian video game developers. Family Friendly Gaming seeks out these video games to bring them to your attention. Since it is unknown before playing a game how family friendly it is; it is possible that this magazine will preview a game, and then the review will expose problems previously unknown. Family Friendly Gaming promises to always ask the question: "how God feels about certain video games." God's opinion on the matter is more important than any mere mortal. Which is why the rest of the industry does not influence FFG.

## I Want to Buy Family Friendly Gaming

The coolest thing about Family Friendly Gaming is ya'll share the behind the scenes information. I had no idea that there are these people trying to buy Family Friendly Gaming. Has your story helped deal with the people wanting to buy Family Friendly Gaming? Now they have a story to read are they being more respectful of your time? Are any of them paying to schedule meetings with you now?

I am just curious to see if it helped out or not. I have a feeling that it did not really help much. It feels like (to me) that they never do their due diligence. They are just lazy, sloppy, and impatient.

Am I right?

- Jack

{Paul}: Jack,

Thank you for the support. It is very important to us that everyone is able to read the articles and know what is going on. We are open and transparent here at Family Friendly Gaming. We want all ya'll to know the different things we are dealing with, and how things are going. On top of that this is exactly how I am. I share because I care. At times others have told me I have word vomit of all of my different thoughts related to different topics.

The immediate reaction to the I Want to Buy Family Friendly Gaming story was a bit surprising to me. I had multiple people on LinkedIn reach out to me. I thought they would buy a vowel and get a clue. Nope. The exact opposite happened. They thought I wanted to sell Family Friendly Gaming to them on their auction sites. When I sent them the exact story they vanished. It was actually kind of funny. They must have realized just how clueless they were with their reaching out. At least now I have a story I can point these people to. It is

up to them to be professional from that point on.

## Mega Man Battle Network 4

Do you plan on playing Mega Man Battle Network 4 on your Twitch channel in 2026? I know you said you plan on doing one of them a year. In 2025 you played Mega Man Battle Network 3. So I believe

Mega Man Battle Network 4 is the next one to play. I am really happy you have been playing that and the Final Fantasy Pixel Remaster games. I wish more awesome family friendly streamers played games like these on their channels.

- George

{Paul}: George,

First and foremost - excellent question. Thank you so much for that. I am writing this near the end of 2025. I am almost done with Kirby Air Riders. I was looking at Ys X Nordic, but that could take me three months to get through. I do want to get to Ys X Nordic at some point. At this moment in time I am planning on starting Mega Man Battle Network 4 once I finish Kirby Air Riders. So yes I plan on making Mega Man Battle Network 4 the main game on Twitch (Sundays and Mondays) until I complete the game. I will probably start work on Final Fantasy IV Pixel Remaster after that. Again that is the plan on this time. There are constantly new games coming out that catch my eye. I like to get the Mega Man Battle Network 4 and Final Fantasy IV Pixel Remaster out of the way earlier in the year. I like to get my chores out of the way because you never know what can happen later in the year. I am looking forward to getting to both of those retro games really soon. Hopefully

## Goldin and Family Friendly Gaming

I was watching King of Collectibles Season Three and saw that Goldin was reaching out to social media influencers. That got me wondering about Family Friendly Gaming. Has Goldin reached out to Family Friendly Gaming?

Have they tried to do anything with ya'll?

- Raquel

{Paul}: Raquel,

Thank you so much for a very good question. No Goldin has not reached out to anyone at Family Friendly Gaming. I am aware of who they are and what they do. Your question got me thinking. Is there anything we have that Goldin could auc-

tion off. I would need to go hunting around, but I think we still have the first issue of Wyldcard's Way and Family Friendly Gaming available. Those are definitely very rare. I am not too sure there is much of a market for either of them though. You need something that is rare and there needs to be a market for

it. Now if we could consign any of those for a six digit figure I would be open to a conversation with Goldin. Who knows maybe we could do some business there. If they wanted us to work with them on some social media stuff we would also be open to a conversation. If the price is right then we are open to some talks on the issue.

## Suffering and Glory

How often do we focus on the amazing blessings that will come in the next life? How often do we focus on all of the good we are doing for the Kingdom of God? How often do we focus on the issues, problems and pain we have in this world? **Romans 8:18-21** *I consider that our present sufferings are not worth comparing with the glory that will be revealed in us. 19 For the creation waits in eager expectation for the children of God to be revealed. 20 For the creation was subjected to frustration, not by its own choice, but by the will of the one who subjected it, in hope 21 that the creation itself will be liberated from its bondage to decay and brought into the freedom and glory of the children of God.* The Apostle Paul had an amazing focus and perspective in his life. To this day his letters shows us the focus we should have in our lives. How many of us follow that fine example?

It did not dawn on me that patience is a major part of this process. We must be patient for the good things. We must acknowledge the work we do

on Earth has a heavenly impact. **Romans 8:22-24** *We know that the whole creation has been groaning as in the pains of childbirth right up to the present time. 23 Not only so, but we ourselves, who have the first fruits of the Spirit, groan inwardly as we wait eagerly for our adoption to sonship, the redemption of our bodies. 24 For in this hope we were saved. But hope that is seen is no hope at all. Who hopes for what they already have? 25 But if we hope for what we do not yet have, we wait for it patiently.* There is a bigger picture at work than just our day to day activities.

What do we do when we do not know what to do? Have you ever reached a point where you have no plan, and no answers? The Apostle Paul has your back there too. **Romans 8:26-27** *In the same way, the Spirit helps us in our weakness. We do not know what we ought to pray for, but the Spirit himself intercedes for us through wordless groans. 27 And he who searches our hearts knows the mind of the Spirit, because the Spirit intercedes for God's people in accordance with the will of God.* Trust God. Trust the

Holy Spirit. We do not need to have all the answers. We do not need to have a plan all of the time.

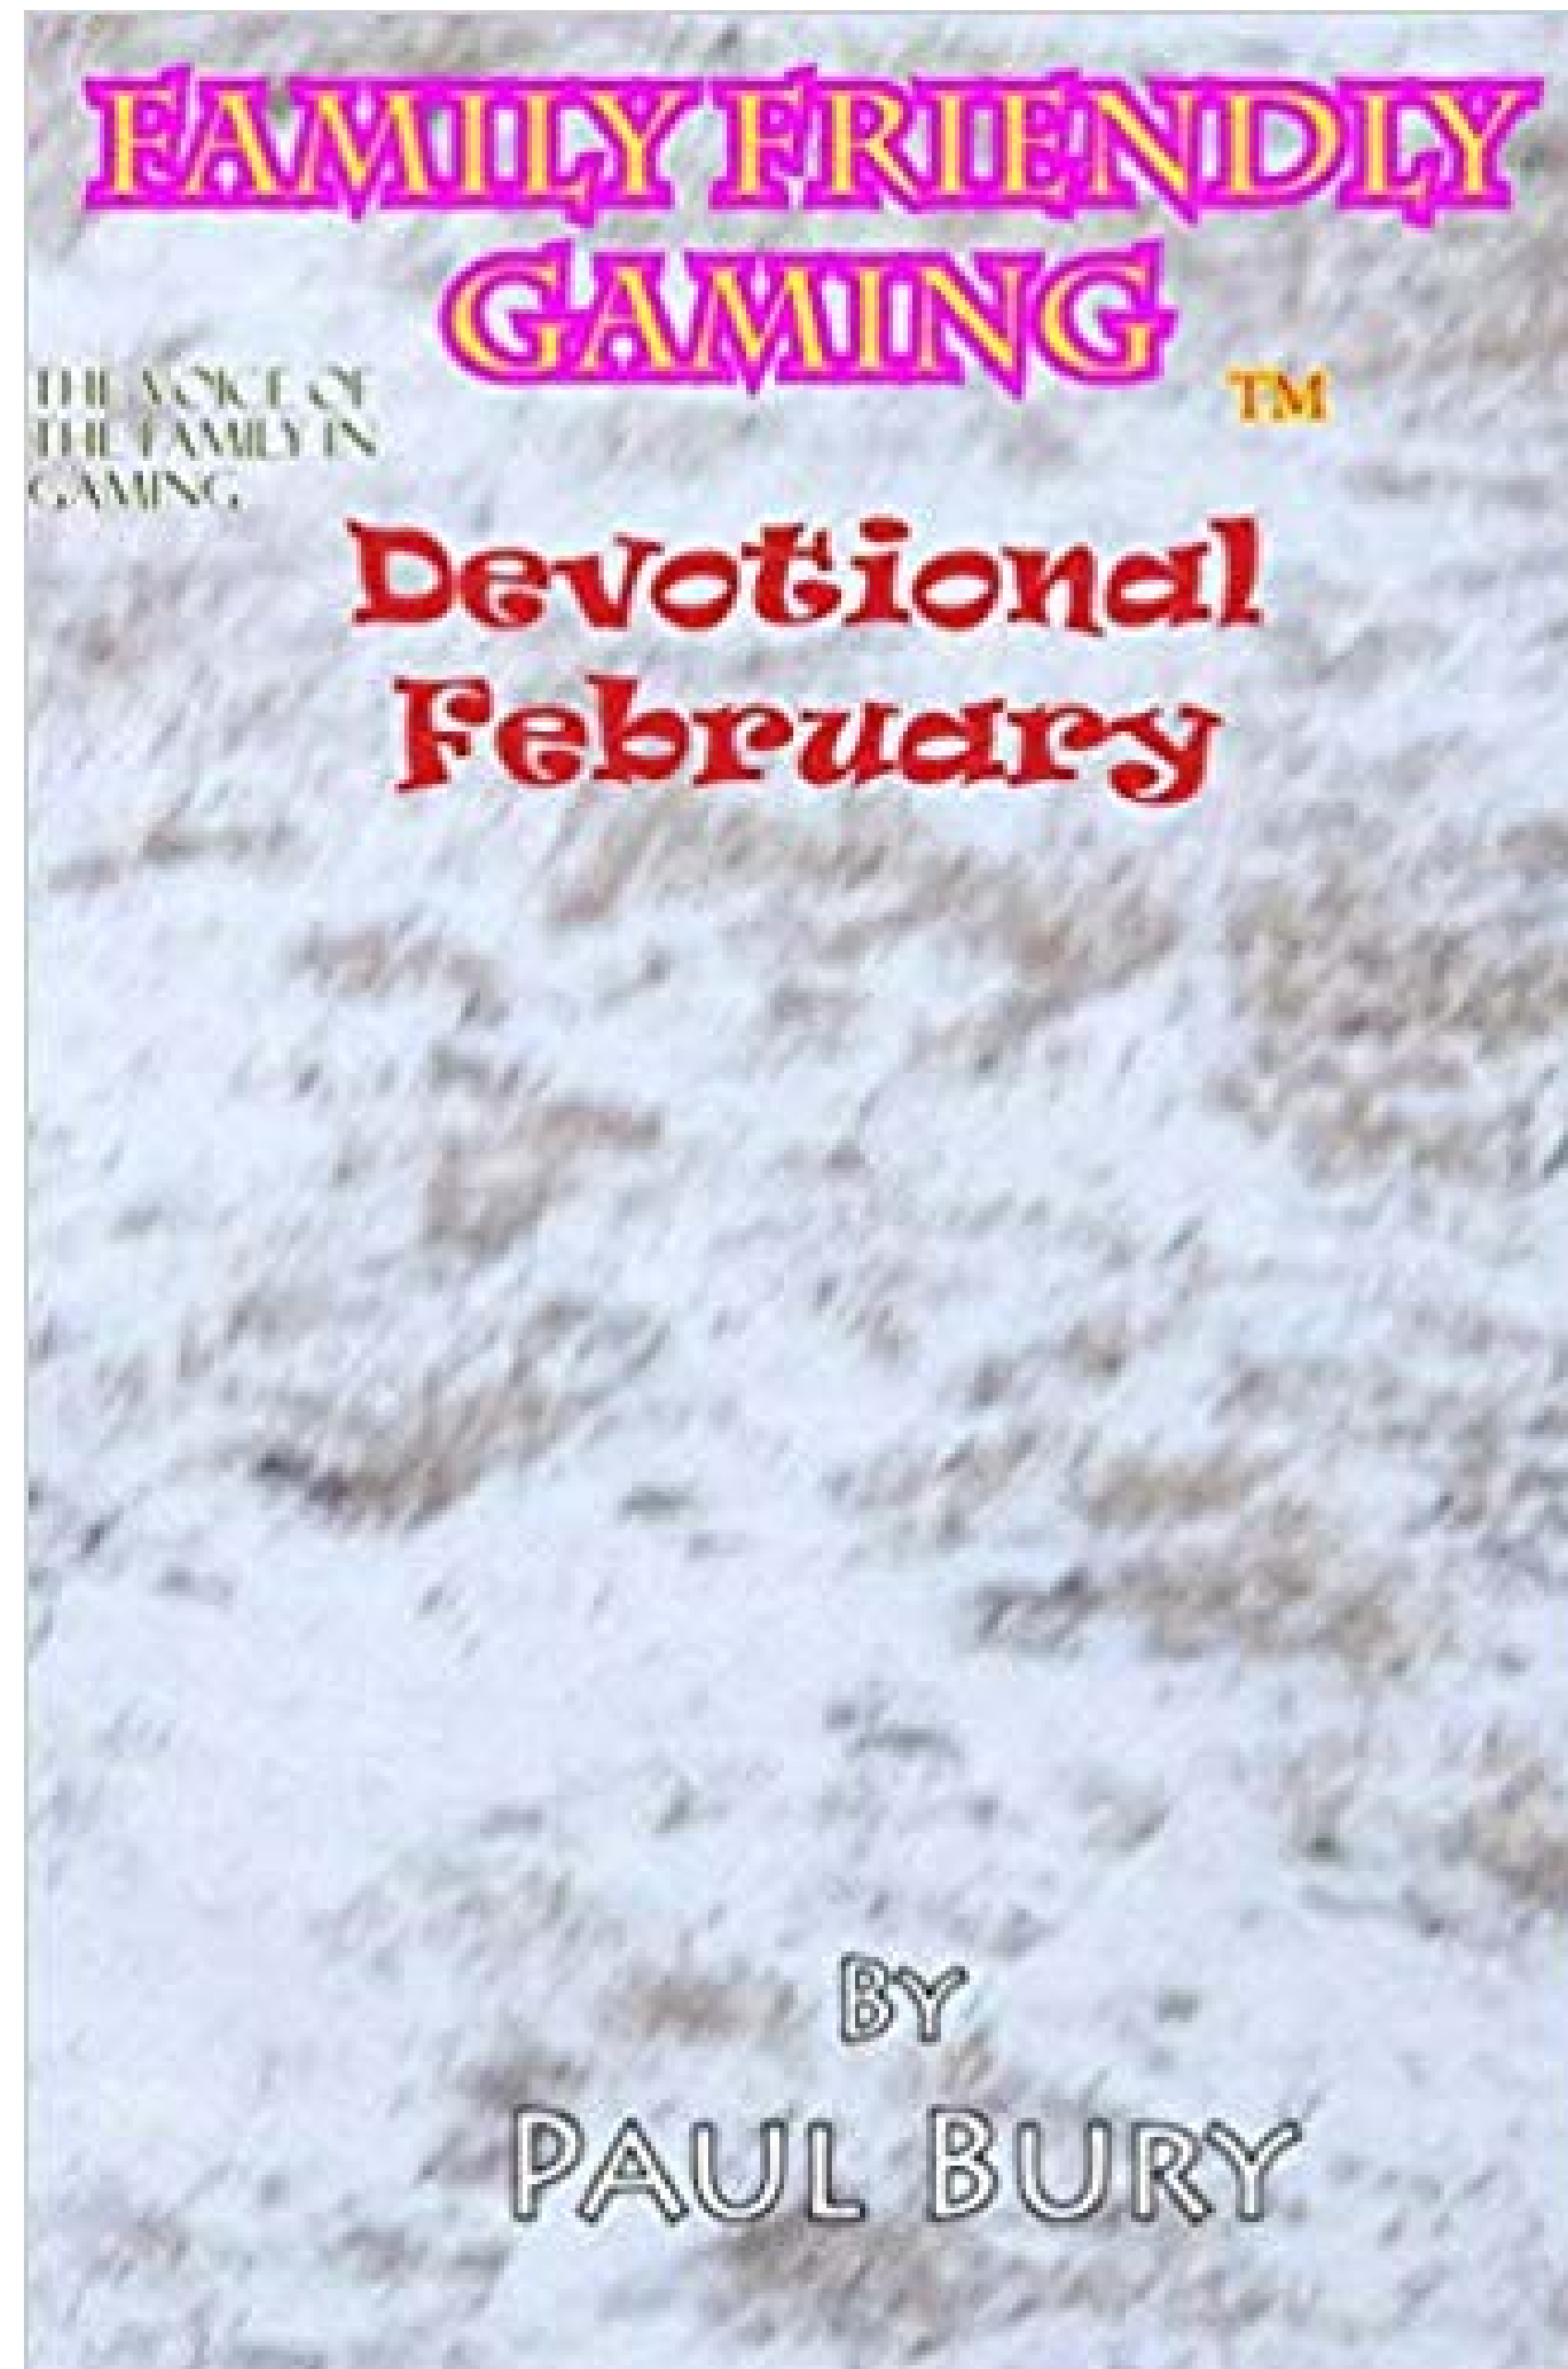

God has our best interests at heart. **Romans 8:28** *And we know that in all things God works for the good of those who love him, who have been called according to his purpose.* God loves us. God chose us. There are times where something painful leads to something so much better. Look at the life of Job and what happened to him. The same can be said for us as well.

God Bless,  
Paul Bury

## PRAYER

Jesus,

I know that I am a sinner and need Your forgiveness. Nothing I can do of my own power will give me true joy. I believe that You died for my sins. I want to turn from my enslavement to sins, and repent of them. I now invite You to come into my heart and life. I want to trust and follow You as my personal Lord and Savior. I welcome the transforming power of the Holy Spirit. Amen.

### Neon Inferno Releases

Indie publisher Retroware and NYC-based developer Zenovia Interactive (Steel Assault) are ready to turn up the heat, as their hotly anticipated cyberpunk run-and-gun Neon Inferno rages onto consoles and Steam digitally.

For those wanting to get an early taste of Neon Inferno's frantic firefights, which combine the explosive side-scrolling action of Contra and Metal Slug with the gallery shooting of classics like Wild Guns and Cabal, there's a demo available to download on Steam and the Xbox Games Store. This demo offers players an early slice of the action, allowing you to get a taste of its punishing gunplay, master deflecting enemy shots with your blade in bullet time, and battling ruthless bosses who will test your skills to the limit.

"I'm incredibly excited to finally share Neon Inferno with the world, after almost four long years of development, and

# NEWS

I'm thrilled by the early response to the game, which seems to be almost unanimously positive," said the game's developer Sri Kankanahalli.

"There's no doubt: November 20th will be overwhelming," he continued. "All I'll do that day (and likely the first few days after) is furiously refresh the first player reviews, reading or watching your reactions. For without you, my studio doesn't exist, and without my studio, I don't exist. So thank you for all of your patience and your support over this time."

Neon Inferno is a stylish cyberpunk run-and-gun shooter from the creator of 2021's Steel Assault. Going lone wolf or guns blazing with a partner in the game's co-op mode, players assume the role of either Angelo or Mariana as they fight for a fledgling crime family striving for power against a corrupt NYPD and other crime syndicates in the war-torn city.

The deadly duo will need to fight their way through an army of heavily-armed cops, trained killers, and mechanized monstrosities. Thankfully, they have a few tricks up their sleeves, including bullet time, which allows them to deflect certain projectiles back at enemies they choose—regardless of whether they're in the foreground or background!

With multiple upgrades available to unlock and equip between missions, various difficulties to master, an Arcade Mode, and two-player co-op, Neon Inferno offers a full clip of content to blast their way through.

#### Key Features:

Shoot close, aim far: a dynamic blend of side-scroller and gallery-shooter, where the action takes place in both foreground and background (like playing Contra and Wild Guns at the same time).

Glorious 32-bit Style: A sci-fi cityscape rendered in beautiful pixel art and backed by an evocative soundtrack

Two-Player Co-op: With danger lurking around every street corner, wouldn't you be better off with a friend?

Satisfying Arcade Challenge: Enjoy a playthrough on an easier mode...or put your skills and resilience to the test with 1-credit-clear arcade mode.

Nitro Deck 2 Announced

CRKD™, the premium collectible gaming brand, announced today the blockbuster sequel of the season, with Nitro Deck 2 pre-orders starting today, and expected to ship beginning Spring 2026.

Since the launch of the Nintendo Switch 2 earlier this year, discerning gamers have been feverishly awaiting news on Nitro Deck 2, excited at the prospect of levelling up their new hardware with the many benefits offered by the Nitro Deck eco-system. Finally, in time for the Holidays, CRKD is delighted to break cover with the answer the community has been waiting for: Nitro Deck 2 is coming and sooner than many had anticipated!

Engineered to elevate handheld play on Nintendo Switch 2, the Nitro Deck 2 builds on everything players loved about the original Nitro Deck, now with even greater comfort, precision, and performance. With improved ergonomics, zero stick drift thanks to all-new CRKD CaptiStick™ Technology, and a suite of customizable features, the Nitro Deck 2 is handheld nirvana, created for players who demand the best from every gaming session.

stand. Motion control compatibility allows gamers to make use of motion controls in supported games, and adjustable rumble ensures that players feel every move with impact. Gamers can continue to fine-tune performance with Adjustable Rumble, Deadzone Mode, Turbo Mode, and additional customization options, all designed to perfectly tailor the experience for each individual user.

Nitro Deck 2 is not just for handheld play, also working as a wireless or wired controller for PC, Mobile Devices, Smartphones, and Smart TVs, allowing players to enjoy seamless control even while the console is docked. When the console is not inserted, the included centerpiece can be installed for a clean display setup or to use Nitro Deck 2 as a dedicated pro-style controller.

Nitro Deck 2 remains part of the True Collection System. Tap your phone to reveal rarity rank, register your product, and claim it as part of your collection. Inside the app, CRKD CTRL gives players the power to personalize performance with remapping, calibration tools, rumble tuning, firmware updates, and more.

Launching in White and Smoke Black, both featuring Metallic CRKD color Thumbstick Bases, cost and details of Nitro Deck 2 and as-

Fully backward compatible with the original Nintendo Switch and Switch OLED, the Nitro Deck 2 is also ideal for use with PC, Mobile, and Smart TV's via integrated Bluetooth® technology. Designed and ultimately shaped with invaluable feedback from the CRKD community, the Nitro Deck 2 features a retractable locking mechanism that ensures a secure fit across both Switch and Switch 2, seamlessly bridging multiple hardware generations, for a truly flexible, future-ready experience.

Built from the ground up to take advantage of several new engineering innovations, the console tablet no longer slides into the Nitro Deck 2 shell. In a marked improvement, designed to pose less risk to the console, gamers now set their tablet in place, then use the integrated retractable locking-dial located on the rear of the rubberized Nitro Deck 2 backplate to tight-

en securely. Ensuring a secure grip and lasting protection, the Nitro Deck 2 includes a legacy adapter should gamers wish to use with the original Nintendo Switch or OLED Switch, perfect for those with both generations of console hardware. Even more functionality is present thanks to Bluetooth, allowing gamers to choose between Switch 2, Switch, PC, Mobile, and Smart TVs, or simply use the U Adapter included in pack, for low latency wired handheld play.

User ergonomics have also received an upgrade with Nitro Deck 2, now featuring an offset right Thumbstick for a more natural and ergonomic feel. In addition, the outer shell design has been refined, featuring sculpted contours for a noticeably improved in-hand feel when compared to the original Nitro Deck.

Nitro Deck 2 introduces CRKD CaptiStick

Technology, featuring capacitor-based Thumbsticks that deliver drift-free precision, ultra-responsive control, and adjustable resistance. Unlike Hall Effect sticks, CaptiSticks are immune to magnetic interference and use a zero-contact design, preventing wear and ensuring that stick drift never interrupts gamers' sessions again. The advanced sensor system delivers precise input while maintaining low power consumption, and players can also adjust stick resistance to match their preferred feel, from quicker movement to tighter, more controlled tracking.

Nitro Deck 2 retains the programmable Back Buttons which proved so useful on the original but now includes new L2 and R2 secondary Shoulder Buttons for even more customization options. Stick Tops remain swappable and compatible with existing CRKD Stick Top packs, and a new swappable D-Pad system debuts with two accessory packs offering four styles in total, including an all-black and a metallic CRKD set.

The Triggers featured on Nitro Deck 2 have been upgraded to smooth, tactile Digital Triggers, and the Nitro Deck 2 now includes a more durable metal kick-

Commenting on the announcement and pre-order of the Nitro Deck 2, Jack Guinchard, Global Brand Manager at CRKD stated, “The Nitro Deck launched the CRKD brand, and is still loved by thousands of Switch gamers. Since the Switch 2 launched, we have been inundated with requests to upgrade our hero accessory but were reluctant to make any announcements until we were confident of delivering a worthy successor that not only matched the original but built upon it with meaningful changes and innovations. Our whole team is so proud of Nitro Deck 2 and we believe the impact it makes to handheld gaming will be welcomed by the Switch gaming community. We look forward to welcoming old and new fans to Nitro Deck 2 and are working hard to begin shipping in Spring next year.”

# We Would Play That!

# REVIEWS

There are all kinds of cool family friendly video game ideas out there. This column features ideas of video games we would play. We hope games like these are created in the near future. Can you make it happen?

I am writing this column a few days before Christmas. I just finished the Just Dance 2026 Edition live stream for Christmas. That is a completely and totally different story for a different place. I was thinking about what kind of a video game I would like to play, I am planning on starting up the Mega Man Battle Network 4 game pretty soon for live streams on Twitch. I just need to finish Kirby Air Riders. I have been playing that Elf on the Shelf Christmas Heroes video game. I also played some of the Rudolph the Red-Nosed Reindeer game. I have played a plethora of different Christ-

mas related video games in my lifetime. I have played Christian video games. I would love some cool, amazing, fun, and fresh video games on the birth of Jesus Christ. I know hearing about the birth of Jesus Christ really puts me in the Christmas spirit. I think video games could be used to do the exact same thing. Could you imagine the love and support millions would give to an accurate video game on the birth of Jesus Christ?

I would love for this kind of a video game to make it to the physical copy realm as well. There are some video game developers putting their new video games on retro cartridges. I have seen and heard about NES, Super NES, Atari 2600, Genesis, and more. I just love working with physical copies. I completely understand there is a cost to buying the cartridges and then burning the game on the cartridge or disc. I completely

understand why some video game developers like to start on the PC and put their games on Steam or the Epic Store for example. Once they feel like their game is complete and they have made some sales then they should move on over to the physical copy realm in some form or fashion.

If Christian video game developers could meet or exceed the quality of the Elf on the Shelf and Rudolph video games I am sure millions of gamers would be very happy. I know I would be very happy. What about you? Would you support a video game showing the birth of Jesus Christ? Imagine having a level with the shepherds, and a level with the wise men. Maybe show the wise men trying to get to where Jesus was a toddler. The shepherds at the birth in the stables. It gives me goose bumps.

Welcome to our reviews section. We have a couple of rules when it comes to our reviews. The reviewer must give an honest accounting as to why he/she liked or disliked something. No fanboy reviews allowed here, or at the very least they are discouraged (after all everyone has their own personal biases, likes, and dislikes). Everyone also has different tolerances, and weaknesses - we strive to keep that in mind in our reviews. We have been burned ourselves by reviews saying a certain game is great, only to be greatly offended by that game. Reviewers must be kind in their reviews. A game may be horrible, but there is no need to degrade the developer, publisher, artists, etc. There is also no need for name calling.

We review video games on five separate criteria: graphics, sound, replay/extras, gameplay, and family friendly factor. Review scale can be found here. The editor in chief coordinates reviews to have as much cohesion as possible. We are very open about the way we review video games. Each section starts with a 75 score, and can earn or lose points based on the content of the game, using our grading scale (found on the website).

Parents, please do not take any of our reviews as gospel. Different people are offended by different things. We work hard here at Family Friendly Gaming to discern the good from the bad in the teachings of each different video game. What may seem harmless to our reviewer(s), could be a big deal to you. We encourage you to spend time with your children and investigate each video game yourself. Each review is written with you in mind, and we try to mention each problem we find. We are not perfect, and miss things from time to time - just as the ESRB does. The ESRB rating is merely a start, and since they ignore many of the moral and spiritual factors important to parents all across America, we do our small part to fill that huge void. We are a small ministry and your prayers are so very important to us.

Questions, suggestions, comments, or got a game you would like for us to review? Then please email us at: [Gamereviews@familyfriendlygaming.com](mailto:Gamereviews@familyfriendlygaming.com).

## Luke 2:11-14

Today in the town of David a Savior has been born to you; he is the Messiah, the Lord. This will be a sign to you: You will find a baby wrapped in cloths and lying in a manger." Suddenly a great company of the heavenly host appeared with the angel, praising God and saying, "Glory to God in the highest heaven, and on earth peace to those on whom his favor rests."

There are some games that I really love playing. At the same time there can be some very painful elements to those games. I love the concept and the idea behind Roadcraft. We are coming into an area that suffered from a natural disaster. We are repairing all kinds of things like roads and bridges. I love completing the different missions within Roadcraft. I live streamed this video game for fifteen episodes.

The downsides to Roadcraft are getting vehicles stuck. I got my vehicles stuck way too often in Roadcraft. I hated having to get another vehicle to pull something out of the mud. That gets old really fast. I also felt like some of the missions took way too long in Roadcraft. I loved how quickly a vehicle will fill back up when I was filling in something in Roadcraft. That shortcut was very handy in Roadcraft.

My dad reminded me that Roadcraft is not the first time I had issues with getting stuck all the time. Snowrunner is another game from the same company where I had the same issues. They seem to really like to throw that in there. I wonder if they are trying to irritate and annoy us or if they want to amplify how often these vehicles can get stuck. I would think laying gravel would help the situation a bit more. Or

maybe wait for better weather to start repairs.

That last sentence really made me think. We would not try to build a skyscraper when there is a thunder storm. So maybe Roadcraft needed a bit of common sense there. Or maybe we need better weather in the game. Roadcraft looks really good and it sounds nice. There are verbal and written directions in Roadcraft.

There is some good replay value in Roadcraft if you want to do all of the different missions. For me it came down to the two major issues I referenced. I got sick and tired of vehicles getting stuck way too often. I got tired of how long the missions can take. I feel like there is a real intelligent design to how we repair things in Roadcraft. My opinion is this company needs to think about the gameplay experience.

Give us a no vehicle can get stuck mode.

There are some really good, cool, neat, fantastic, and fun things in and within Apollo Justice Ace Attorney Trilogy. The three games on Apollo Justice Ace Attorney Trilogy are Apollo Justice Ace Attorney, Phoenix Wright Ace Attorney Dual Destinies, and Phoenix Wright Ace Attorney Spirit of Justice. We can play any episode and any scene within those episodes. That means if you get stuck in Apollo Justice Ace Attorney Trilogy then you can just skip to the next one. I love that.

There are one hundred and seventy-five tracks from Apollo Justice Ace Attorney Trilogy. The DLC from the games are also included in Apollo Justice Ace Attorney Trilogy. We can browse artwork and movies in Apollo Justice Ace Attorney Trilogy. Some of the movies need to be unlocked first though. I did a little research to find out the three games in Apollo Justice Ace

Attorney Trilogy are the fourth through the sixth games from the Ace Attorney series. You might also recognize it by its other name - Phoenix Wright.

The issues families can have with Apollo Justice Ace Attorney Trilogy are violence, blood, lack of attire, enticement to lust, false gods, spirits, bad language, alcohol, tobacco, and more. The emotions of the characters is displayed quite well in Apollo Justice Ace Attorney Trilogy. There are plenty of characters to interact with in Apollo Justice Ace Attorney Trilogy. The objection concept continues quite well in Apollo Justice Ace Attorney Trilogy.

Like the Phoenix Wright games we have reviewed in the past, Apollo Justice Ace Attorney Trilogy has some of the same issues. You must be

paying close attention to every little thing you come across. The lawyer's job is to find where people are not being truthful. Then press them on why. Apollo Justice Ace Attorney Trilogy presents different options in this. There is always only one right way to go to get to the right answer. We are allowed only so many mistakes in Apollo Justice Ace Attorney Trilogy.

There is some humor in specific spots of Apollo Justice Ace Attorney Trilogy. I like how these games were remastered and put in a nice compilation. I wish I had the time to live stream Apollo Justice Ace Attorney Trilogy from start to finish. There are so many other games that are a higher priority or companies happily paying for my time to play their games. Plus Capcom has a really bad image in the video game industry. I don't want to get near their controversies.

Fantasy Life i The Girl Who Steals Time

SCORE: 69

I have a plethora of different thoughts and opinions concerning Fantasy Life i The Girl Who Steals Time. This game can be found digitally on quite a few systems. In fact in America we were denied the right to purchase a copy of Fantasy Life i The Girl Who Steals Time in the physical copy format. I went to Play Asia to get a physical copy version of Fantasy Life i The Girl Who Steals Time. It is the Asian version but it plays just fine here in the States.

The issues families can have with Fantasy Life i The Girl Who Steals Time are violence, magic, false gods/goddess, reincarnation and more. Time is really played with in Fantasy Life i The Girl Who Steals Time. At the same time things are generally stable in the time elements used within this fantasy action adventure role playing game. If you played the Fantasy Life on the Nintendo 3DS then you should have some idea what this game is

like. Spoilers will be in this review.

Fantasy Life i The Girl Who Steals Time is a mixture of different game styles. We have different jobs or lives we can live in Fantasy Life i The Girl Who Steals Time. For example you can be a paladin with specific and certain weapons and gear. You can also be a miner and the same thing applies. The more you do certain jobs the more powerful you will become. So you might be a level fifty-three paladin and a level forty lumber jack. You can have as many lives as you want in Fantasy Life i The Girl Who Steals Time.

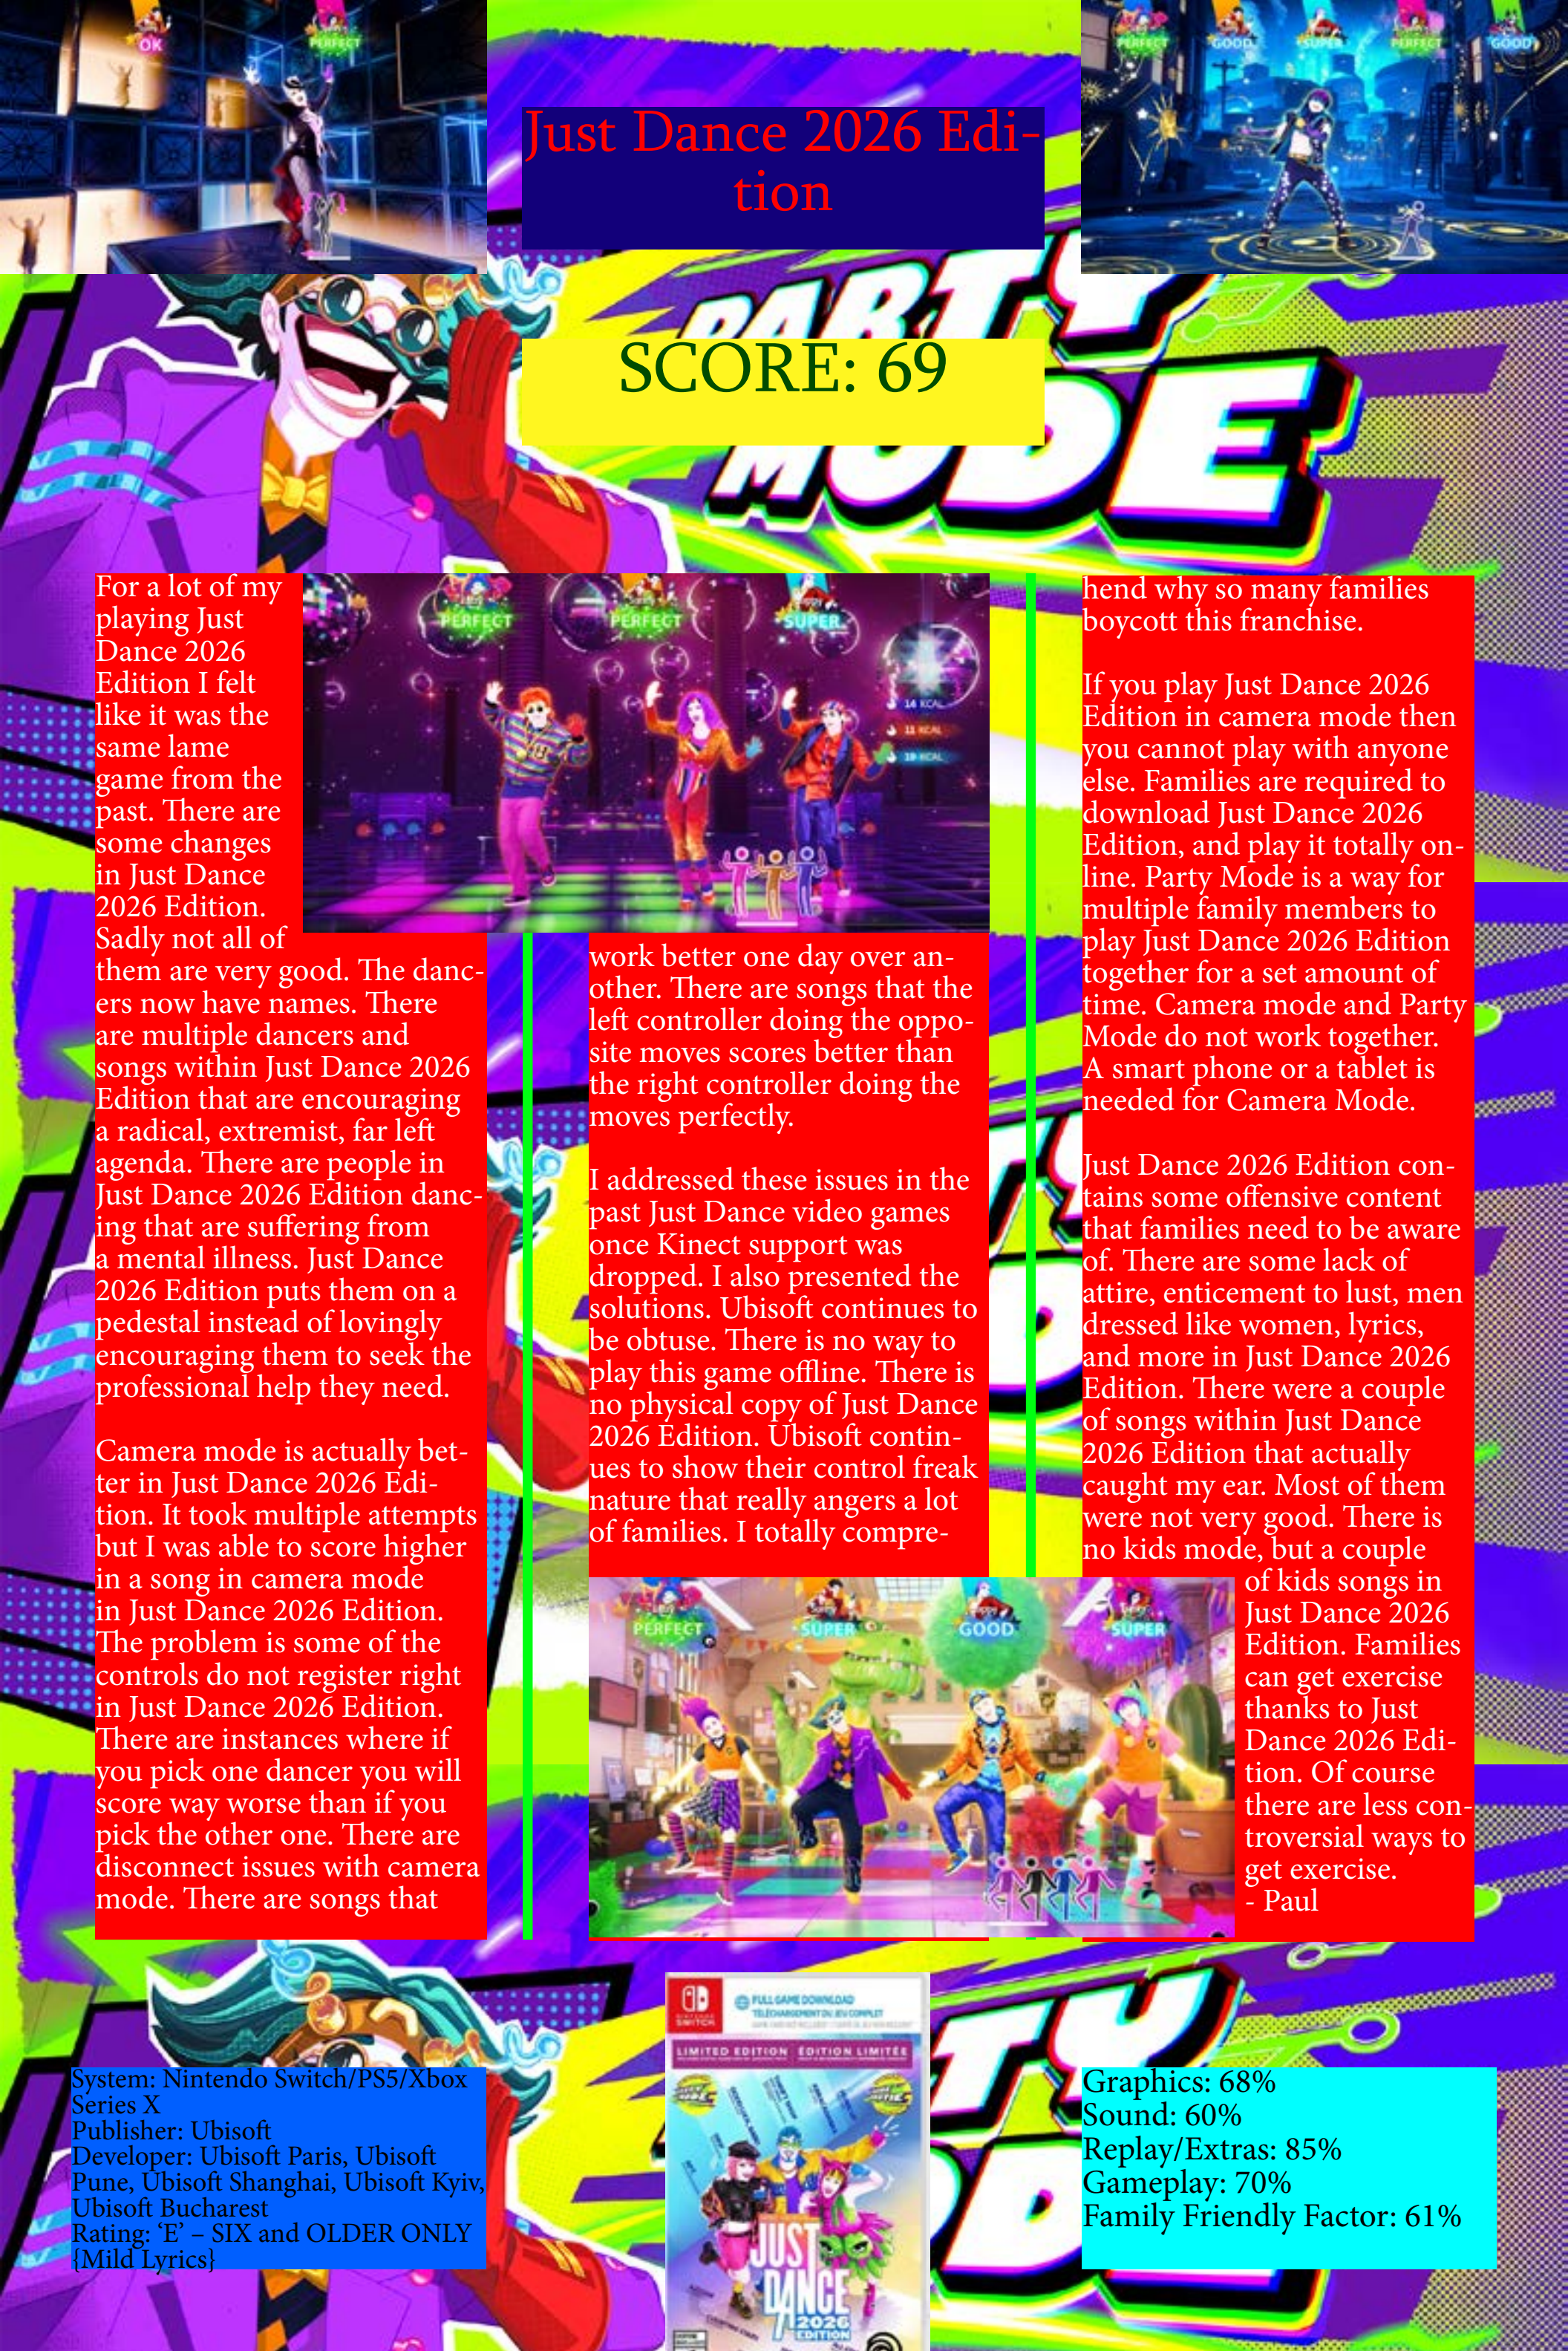

We go to the past and embark on plenty of quests. We can come back to the present and explore this giant hole of a dungeon and build up our village. We can also find strangelings and turn them back into humans that join the village. There are missions and side missions to perform in Fantasy Life i The Girl Who Steals Time. There is also this other world that turns out to be the vision of a perfect world of the main end bad guy.

The princess in the past steals time from her dragon to save her world in one thousand years. Every thousand years things change. The main bad guy wants to reset things in his image after the girl he cared for was sacrificed. He also never really got along with humans. I love the different skills we can learn within Fantasy Life i The Girl Who Steals Time. I learned to report back to the job masters to unlock even more of them.

I like a lot of aspects of Fantasy Life i The Girl Who Steals Time. I loved learning the different jobs and exploring the areas. I am not big on the constant attacks on the super majority of Americans with a personal relationship with Jesus Christ. The video game industry continues to be in the dark ages in this realm. With grinding it took me around twenty-five hours to beat Fantasy Life i The Girl Who Steals Time. - Paul

Just Dance 2026 Edition

SCORE: 69

For a lot of my playing Just Dance 2026 Edition I felt like it was the same lame game from the past. There are some changes in Just Dance 2026 Edition. Sadly not all of them are very good. The dancers now have names. There are multiple dancers and songs within Just Dance 2026 Edition that are encouraging a radical, extremist, far left agenda. There are people in Just Dance 2026 Edition dancing that are suffering from a mental illness. Just Dance 2026 Edition puts them on a pedestal instead of lovingly encouraging them to seek the professional help they need.

Camera mode is actually better in Just Dance 2026 Edition. It took multiple attempts but I was able to score higher in a song in camera mode in Just Dance 2026 Edition. The problem is some of the controls do not register right in Just Dance 2026 Edition. There are instances where if you pick one dancer you will score way worse than if you pick the other one. There are disconnect issues with camera mode. There are songs that

work better one day over another. There are songs that the left controller doing the opposite moves scores better than the right controller doing the moves perfectly.

I addressed these issues in the past Just Dance video games once Kinect support was dropped. I also presented the solutions. Ubisoft continues to be obtuse. There is no way to play this game offline. There is no physical copy of Just Dance 2026 Edition. Ubisoft continues to show their control freak nature that really angers a lot of families. I totally compre-

hend why so many families boycott this franchise.

If you play Just Dance 2026 Edition in camera mode then you cannot play with anyone else. Families are required to download Just Dance 2026 Edition, and play it totally on-line. Party Mode is a way for multiple family members to play Just Dance 2026 Edition together for a set amount of time. Camera mode and Party Mode do not work together. A smart phone or a tablet is needed for Camera Mode.

Just Dance 2026 Edition contains some offensive content that families need to be aware of. There are some lack of attire, enticement to lust, men dressed like women, lyrics, and more in Just Dance 2026 Edition. There were a couple of songs within Just Dance 2026 Edition that actually caught my ear. Most of them were not very good. There is no kids mode, but a couple of kids songs in Just Dance 2026 Edition. Families can get exercise thanks to Just Dance 2026 Edition. Of course there are less controversial ways to get exercise.

## Edens Zero #28

SCORE: 68

As I get closer to the end of this series I get more and more excited. I love when I can wrap something up. I love when I can finish something. In some small part I feel it when I finished reading Edens Zero #28. This manga book contains one hundred and ninety-two pages. The cost of Edens Zero #28 was \$10.99. Chapters two hundred and forty through two hundred and forty-eight are covered in Edens Zero #28. There will be spoilers in my review of the Edens Zero #28 manga book. I can see how things are lining up for the very end.

The issues families can have with Edens Zero #28 are violence, blood, bad language, false gods, lack of attire, enticement to lust, and more. Muller is the first order of business within Edens Zero #28. Muller is in a secret laboratory where he lures Rebecca in. He plans no cutting off her legs to get her Cat Leaper powers. Amira reveals herself

to help Rebecca. Shiki and Shura show up to finish off Muller. The interesting thing is Muller really had no chance in the fight.

There is a party in honor of the crew of the Edens Zero in Edens Zero

#28. They are given a salute by those high up in the government. Shura then disbands the empire in Edens Zero #28. He believes the empire has gotten too big and become a threat to the entire galaxy. We then get some time on the beach where bikinis are brought out for the female characters in Edens Zero #28. There are also other versions of characters shown in Edens Zero #28.

Elsie is the leader of a government in Edens

Zero #28. She takes how she was in the other universe quite well actually. The reaction of some of her people is what really bothers her the most about it. Rebecca's parents then reveal themselves in Edens Zero #28. They have actually been waiting for her to make her appearance. Others know about the other universes but not what they are like in them.

The trip to the Yukino Cosmos is the next thing that winds up happening in Edens Zero #28. There is plenty discussion of the Edens One in Edens Zero #28 as well. The path to the Mother character has finally been revealed. The interesting thing is the doorway is like the start of a race. There are two ships on the path. Edens Zero

#28 does not reveal where the Edens One actually is. It might be lost in the Yukino Cosmos. Or just waiting to follow the Edens Zero. - Paul

## My Hero Academia Vol 26

SCORE: 69

I am thankful I had the \$9.99 to purchase a copy of the My Hero Academia Vol 26 manga book. There are two hundred pages within My Hero Academia Vol 26. Chapters two hundred and forty-seven through two hundred and fifty-eight are found within My Hero Academia Vol 26. The issues families can have with My Hero Academia Vol 26 are violence, blood, bad language, and more. There are some fascinating things that happen within My Hero Academia Vol 26.

Spoilers are coming for the rest of this review. Deku, Bakugo and Shoto are all training under Endeavor. He is having them work on different skills to get better and stronger. Endeavor knows what is coming from the villains really soon. Endeavor does not share this with his students though. I

can understand that loose lips sink ships. At the same time it might have been smart to wise them up in My Hero Academia Vol 26. I know I would train harder if I knew what was coming.

Endeavor is making a real effort with his family in My Hero Academia Vol 26. It is nice to see Endeavor is working hard to be a better hero. He acknowledges his mistakes and is working to be better. I really liked seeing that in My Hero Academia Vol 26. Too often people get stuck in their ways and refuse to improve upon

themselves. It is always nice to see major characters make an effort.

This villain shows up to attack one of the children of Endeavor in My Hero Academia Vol 26. The three younger heroes save the young man and stop the villain while Endeavor was frozen. It was great to see the young heroes jump into action and save the hostage. The criminal wanted Endeavor to kill him. Yeah that guy was pretty

sick and twisted in My Hero Academia Vol 26. Who wants to force a hero to kill them?

It is neat to see the new skills many of the new heroes are developing in My Hero Academia Vol 26. The previous users of Deku's powers are discussed in My Hero Academia Vol 26. There is not much information on some. Flight should be coming next. Or it is called Float in My Hero Academia Vol 26. The villains are touched upon a bit as well in My Hero Academia Vol 26. Hawks is fooling the bad guys pretty good still. - Paul

## Atlantis Season Two

SCORE: 60

I just finished watching Atlantis Season Two on Peacock+. Yolanda got a month of the Peacock+ because there were some shows she wanted to watch. I used the time to finish up this show and this series. There will be spoilers in my review of the Atlantis Season Two television show. This is the last season of this show. There are thirteen episodes that make up Atlantis Season Two. The episodes last from forty-two to forty-four minutes in terms of length.

The issues families can have with Atlantis Season Two are violence, blood, lack of attire, enticement to lust, magic, false gods, sexual deviancy, and more. There is plenty of back and forth within Atlantis Season Two. Pasiphae is attacking Atlantis. Pasiphae is queen of Atlantis. Pasiphae is dead. Pasiphae is back to life and queen of Atlantis again. Jason and his crew are on the run for a lot of Atlantis Season Two. The humor within Atlantis Season Two is one of its few saving graces.

Medea is an interesting character in Atlantis Season Two. She is the niece of Pasiphae. Jason finds out that Pasiphae is his mother in Atlantis Season Two. Once that happens Jason's heart turns black and he starts not caring about much else. During this time Jason and Medea get romantically involved. Jason can be king since he is of royal blood. Of course Jason and Ariadne are still an

item in Atlantis Season Two. At first Ariadne cannot allow herself to love Jason because of their stations. Then she goes with it.

Characters change allegiances quite often in Atlantis Season Two. It honestly makes little to no sense to me. Jason is in love with Ariadne, and then Medea, and back to Ariadne. I can see why this show was not continued for a third season. There are reasons for a third season. Jason and Ariadne are on their way to a city where Medea is. They need to retrieve the Golden Fleece to finally stop Pasiphae. The show was canceled.

I am glad I finished what there is of this television show. It was never a great show. There are some interesting concepts in Atlantis Season Two. History is touched on a bit here and there. The use of gunpowder for explosions is interesting in Atlantis Season Two. How are there any people left with so many being killed in Atlantis Season Two? Must have been a much larger city. Hercules is more heroic in Atlantis Season Two.

## Silver Hawks Volume Two

SCORE: 76

I just wrapped up the four discs that make up Silver Hawks Volume Two. There are thirty-three episodes on the four discs of Silver Hawks Volume Two. It takes seven hundred and thirty-three minutes to watch Silver Hawks Volume Two from start to finish. Three new Silver Hawks join the battle in Silver Hawks Volume Two. They are Condor, Moonstryker, and Flashback. The mob gets no one new.

There will be spoilers in my review of the Silver Hawks Volume Two television show. The issues families can have with Silver Hawks Volume Two are violence, gambling, magic, and more. The mob tries a plethora of different things to beat the Silver Hawks. The new Silver Hawks have interesting skills or powers. Flashback is from the future and can time travel. He is real fun against Time

Stopper.

Moonstryker has a belt that allows him to fly. Sort of like a tornado from the bottom down. Condor is an older gentleman that has a gun that can wrap up the bad characters. Rattler is a new bad character that attacks the mob and the Silver Hawks. There are aspects of Silver Hawks Volume Two that make little sense to me. Criminals are told they have the right to remain silent or the court will use it against them. Yet the criminals are taken to the Penal Planet and we never see a court case.

Even more odd to me in Silver Hawks Volume Two is criminals are caught and escape again and again. Yet when the Silver Hawks come across them they do not try to arrest them again. The mob tries to get rid of

a lot of different Silver Hawks in a lot of different ways. Zeek the Beak steals the magical powers from Hotwing in one episode. This orb is looking for Hotwing and Zeek claims he is that character to get the powers to get easy money.

In multiple episodes Mon-Star winds up helping the Silver Hawks by paralyzing a character. The Silver Hawks then take that character into custody. The twins and the cowboy are seen a lot less in Silver Hawks Volume Two. It makes sense since they were pushing the new characters. Flashback is the most interesting new character to me. Especially when he saves the lives of the Silver Hawks in Silver Hawks Volume Two.

## Activision Collection 1

SCORE: 75

I am thankful I had the money to purchase a copy of Activision Collection 1 on the Evercade. There are fifteen games on Activision Collection 1. The games in Activision Collection 1 are Beamrider, Crackpots, Demon Attack, Enduro, Fishing Derby, Freeway, Grand Prix, MegaMania, Pitfall!, Private Eye, River Raid, Sky Jinx, Space Shuttle A Journey into Space, StarMaster, and Tennis. These are all Atari 2600 games.

I feel like I have played some of these games in the past. I do recall River Raid from when I was a kid. The concept for the time was really good. We have a plane that is flying over a river. We must fuel up every so often, and avoid the different obstacles. Boats, planes, and helicopters will try and get in our way. We must avoid them, shoot them, and blow up bridges. The fuel cannisters can also be blown up. I learned to be precise with my shooting.

Some games like Space Shuttle A Journey Into Space made little to no sense to me. I nev-

er did figure that game out. Pitfall! is a well known video game with all kinds of screens. The problem is a lot of these screens are exactly the same. We can fall down to a lower level as well in Pitfall!. There are plenty of space shooters in Activision Collection 1. Some of those space shooters are more interesting than others.

Games like Tennis are really hard. Other games like Enduro are actually a lot of fun.

We must pass so many cars and then we see how long it took us to do it. Grand Prix is similar. We race so many laps and see what our time was. We can run into vehicles and it will slow us down. I learned in those racing games to find a good speed and stay there. Then I could react in time to the vehicle patterns in front of me.

Crackpots is actually a lot of fun in Activision Collection 1. We drop pots on insects that are coming at us. If too many insects get to us then we lose a level and the insects have less space to get to us. Freeway is like Frogger. Private Eye is an interesting game where we find clues and then take the item back to the right place. I actually liked that game. StarMaster made zero sense to me.

All in all I had fun live streaming Activision Collection 1 on our Twitch channel. We are making videos of each of the games for our video sites. If you have an Evercade and like older historical video games then you might enjoy Activision Collection 1. I can see innovation and areas for improvement.

## Rare Collection 1

SCORE: 71

I gotta hand it to Blaze Entertainment. They have been bringing in more big names to their system. There has been Capcom, Taito, SNK, and more in recent years. Rare Collection 1 surprised me a bit. I did not remember of realize that Rare made some of these older games. Rare Collection 1 contains twelve games within it. There are some well known classics within Rare Collection 1. Historical gamers will take great interest in Rare Collection 1.

The twelve games in Rare Collection 1 are Atic Atac, Gunfright, Jetpac, Knight Lore, Lunar Jetman, Sabre Wulf, Underwulde, Battletoads, Cobra Triangle, R.C. Pro-Am, Conker's Pocket Tales, and Battletoads Arcade. There are some retro 8-bit games that I remember on the NES, a hand

held game, an arcade game, and some old computer games. There are some stand out titles for me within Rare Collection 1.

I live streamed all of the games on the Rare Collection 1 cartridge on our Twitch channel recently. We will be publishing videos of each of the games on our video sites as the time and money present themselves. I like Battletoads Arcade over Battletoads personally. Jetpac was a pretty fun game within Rare Collection 1 as well. I loved building the rocket, fueling it up and flying off. I wish the layout changed though.

Conker's Pocket Tales was not as offensive as I thought it would be. That is a good sign. I know the other Conk-

er game is really offensive. I found Conker's Pocket Tales to be more confusing than anything else. I could collect nuts but not attack enemies. I think I needed to find a sling shot. But I had no clue where to find it. Now that I think about it maybe I should have gone south to this town, even though characters told me to go north.

R.C. Pro-Am was a lot of fun within Rare Collection 1. The different computer games were more confusing than anything else. The controls were one issue. The next problem was figuring out how to get through these rooms. There is some violent content, lack of attire, and enticement to lust within Rare Collection 1. Gunfright is an interesting idea. I just don't know why the women would kill me. - Paul
